

**BAY AREA AIR QUALITY MANAGEMENT DISTRICT**  
 375 Beale Street, Suite 600  
 San Francisco, California 94105  
 (415) 771-6000

For District Use Only	
Date Rec'd	
File #	

**ASBESTOS AIRBORNE TOXIC CONTROL MEASURE FOR CONSTRUCTION, GRADING, QUARRYING, AND SURFACE MINING OPERATIONS**  
 § 93105, Title 17, California Code of Regulations

## ASBESTOS ATCM EXEMPTION APPLICATION

### 1. Company and Project Information

Company Name and Address		Project Location	
Name		Location	
Address		Address	
City/State	Zip	City/State	Zip
Contact		Start Date	
Phone	Fax	Estimated Completion Date	

### 2. Exemption Requested

**Indicate the type of exemption(s) that is (are) potentially applicable:**

- Geologic Evaluation Exemption (Complete FORM A)
- Remote Location Exemption (Complete FORM B)
- Emergency Road Repair Exemption (Complete FORM C)

### 2. Detailed Project Information

**Type of Project:** (Check all that applies)

- Road or Railway Construction
- Road Maintenance
- Housing Development
- Commercial Property Development

- Trenching / Utilities Work
- Other (please describe)

# ASBESTOS ATCM EXEMPTION APPLICATION

BAY AREA AIR QUALITY MANAGEMENT DISTRICT 375 Beale Street, Ste. 600, San Francisco, CA 94105

---

---

## FORM A: GEOLOGIC EVALUATION

The District may provide an exemption from the Asbestos ATCM for any property that lies within the boundaries of a geographic ultramafic rock unit as indicated by the referenced geologic maps. This exemption would be granted if a registered geologist has conducted a geologic evaluation of the property and determined that no serpentine or ultramafic rock is likely to be found in the area to be disturbed. Before an exemption can be granted, the owner/operator must provide a copy of a report detailing the geologic evaluation to the District for consideration.

### A1. Registered Geologist Information

Geologist's Name		Company Name (if applicable)
Address		Phone
City		Fax
State	Zip	License Number

### A2. Detailed Site Information

(Check all that applies)

Physical Site Inspection  
Offsite geologic evaluation of adjacent property  
Evaluation of existing geological maps and studies of the site and surrounding area  
Geologic Maps developed for the site and vicinity

Identification of geologic units, rock and soil types, and other geologic features that may indicate the presences, etc.  
Subsurface investigation  
Other information (please describe)

---

### A3. Additional Information and Materials

(Check all that applies)

A description of any sampling procedures used  
A description of any analytical procedures used  
Rock samples collected and archived  
The geologic evaluation report prepared by a registered geologist.

BAY AREA AIR QUALITY MANAGEMENT DISTRICT 375 Beale Street, Ste. 600, San Francisco, CA 94105

## FORM B: REMOTE LOCATION

The District may provide an exemption from the requirements of Asbestos ATCM affecting road construction and maintenance projects for any activity that will occur at a remote location. A remote location is defined as any location that is at least one (1.0) mile from the location of a receptor. "Receptor" includes, but is not limited to, any hospital, school, day care center, work site, business, residence, and permanent campground. The distance to the nearest receptor must be measured from the outermost limit of the area to be disturbed or road surface, whichever is closer.

### B1. Detailed Site Information

**Areas and Facilities within two (2.0) miles of the Project:** (Check all that applies)

Residence	School
Commercial Business	Park / Playground
Industrial Site	Permanent Campground
Work Site (unrelated to this project)	Other (please describe)
Hospital / Nursing Home	

### B2. Additional Information

**The following information MUST be included:**

Map(s) clearly indicating:

Map(s) indicating location of potential receptors	Excavation sites
Property lines / boundaries	Storage areas / piles
Rights of way / easements	Track-out control
Areas to be cleared or graded	Staging areas for removal
Trenching areas	Truck routes
	On-site parking lots

**If available, please attach the following information:**

Geologic Information  
Topographical Maps  
Meteorological Data

## FORM C: EMERGENCY ROAD REPAIR NOTIFICATION

The Asbestos ATCM allows a delay in notification when construction of a road or firebreak, or a road repair is necessary due to a landslide, flood, or other emergency or to mitigate a condition that constitutes an imminent hazard to the public. The owner/operator shall notify the District no later than the next business day of the action taken and the condition establishing the applicability of this subsection.

Pursuant to the Asbestos ATCM for Construction and Quarrying operations, Section 93105(d)(3)(A), Title 17, CCR, I, \_\_\_\_\_, **PRINT NAME HERE**, do hereby notify the Executive Officer of the Bay Area Air Quality Management District that an emergency road repair was initiated at the location listed above due to the following reason:

Landslide

Flood

Other \_\_\_\_\_ **DESCRIBE** \_\_\_\_\_.

This location is either within the boundaries of a geographic ultramafic rock unit or is known to have ultramafic rock, serpentine rock or asbestos present.

This repair resulted in at least \_\_\_\_\_ **DISTURBED AREA** acres disturbed to complete the repair. In completing this repair, the applicable control measures listed in Section 93105(d)(1)(B) of the Asbestos ATCM are being implemented during the repair.
