# What is a vision?

- Blue sky thinking - how do you picture the future?
- A collaborative process in which a community creates the future it wants by identifying their purpose, values, and shared aspirations for the future.

*"Our vision is an atmosphere that enables people and the planet to thrive – a stabilized climate with warming limited to 1.5C and drastically reduced air pollution."*

# What are guiding principles?

- Core values that guide how to achieve the vision
- Help to refine goals and strategies during the CERP process

*“To intentionally integrate, on a Citywide basis, the principle of 'fair and just' in all the City does in order to achieve equitable opportunities for all people and communities”*
