2019

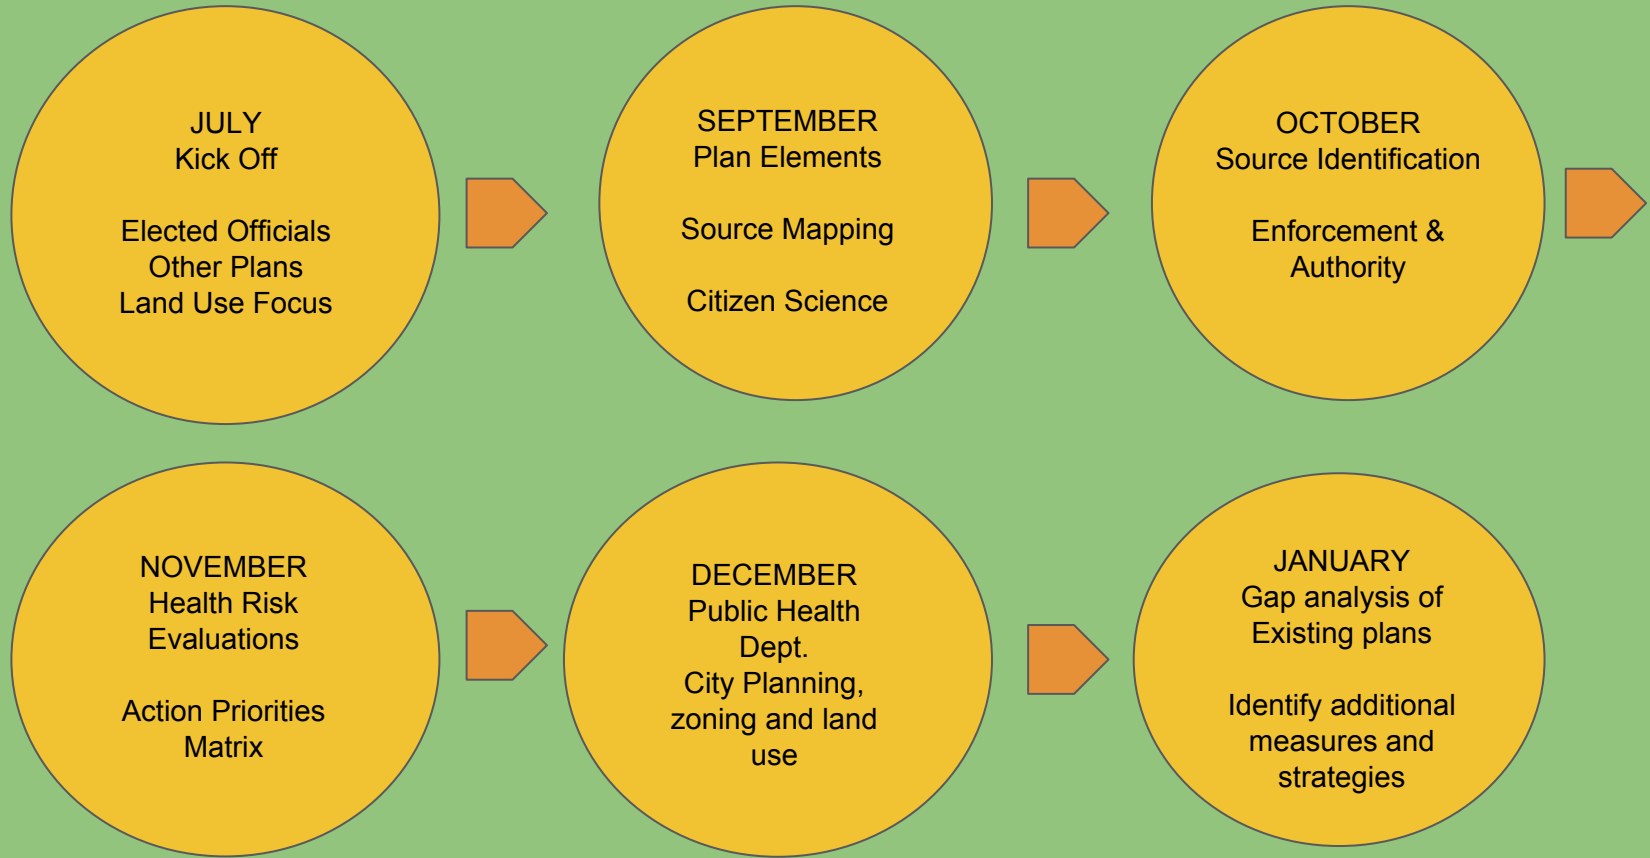

The year '2019' is written in a large, magenta font, positioned to the right of the December phase circle.

Our progress:

JANUARY

Gap analysis of Existing
plans

Begin to identify
additional measures
and strategies

*Past work isn't gone,
it's back to the future!*

February:
Focus on “Impact Zones” to help us
prioritize our strategies. Continuing
to fill in the blanks left by other
plans.

*Past work isn't gone,
it's back to the future!*

February Plus:
Special Steering Committee work session to examine BAAQMD air models and go deeper on our priority strategies for Impact Zones.

*Past work isn't gone,
it's back to the future!*

March:

Review our strategy list. Complete a draft set of strategies for BAAQMD to assess under the Ca. Environmental Quality Act (CEQA)

*Past work isn't gone,
it's back to the future!*

April:

Go deeper in our prioritization of community-specific strategies that will reduce *exposure* and health *risk* in our neighborhoods.

*Past work isn't gone,
it's back to the future!*

May and June:
Develop metrics for tracking progress
and oversight of our plan. What
comes after the plan is done?
Certification by City and State.
Advocating with our elected officials.
