SANTA CLARA COUNTY GOVERNMENT CENTER
CLERK'S CONFERENCE ROOM, 10TH FLOOR, EAST WING
70 W. HEDDING STREET
SAN JOSE, CA 95110

AGENDA

1. **CALL TO ORDER - ROLL CALL**

PLEDGE OF ALLEGIANCE

PUBLIC MEETING PROCEDURE

The Committee Chair shall call the meeting to order and the Clerk of the Boards shall take roll of the Committee members. The Committee Chair shall lead the Pledge of Allegiance.

This meeting will be webcast. To see the webcast, please visit www.baaqmd.gov/bodagendas at the time of the meeting. Closed captioning may contain errors and omissions, and are not certified for their content or form.

Public Comment on Agenda Items *The public may comment on each item on the agenda as the item is taken up. Public Comment Cards for items on the agenda must be submitted in person to the Clerk of the Boards at the location of the meeting and prior to the Board taking up the particular item. Where an item was moved from the Consent Calendar to an Action item, no speaker who has already spoken on that item will be entitled to speak to that item again.*

2. **PUBLIC COMMENT ON NON-AGENDA MATTERS**

Public Comment on Non-Agenda Items, Pursuant to Government Code Section 54954.3 *For the first round of public comment on non-agenda matters at the beginning of the agenda, ten persons selected by a drawing by the Clerk of the Boards from among the Public Comment Cards indicating they wish to speak on matters not on the agenda for the meeting will have two minutes each to address the Board on matters not on the agenda. For this first round of public comments on non-agenda matters, all Public Comment Cards must be submitted in person to the Clerk of the Board at the location of the meeting and prior to commencement of the meeting.*

Staff/Phone (415) 749-

3. **APPROVAL OF THE MINUTES OF FEBRUARY 27, 2019**

Clerk of the Boards/5073

The Committee will consider approving the attached draft minutes of the Budget and Finance Committee meeting of February 27, 2019.

4. **DISCUSSION OF PROPOSED BUDGET FOR FISCAL YEAR ENDING (FYE) 2020**

J. McKay/4629

jmckay@baaqmd.gov

The Committee will receive a review and discuss the proposed budget for Fiscal Year Ending (FYE) 2020.

5. **PROPOSED AMENDMENTS TO REGULATION 3: FEES**

J. McKay/4629

jmckay@baaqmd.gov

The Committee will receive a summary of staff's proposed amendments to Regulation 3, Fees, for Fiscal Year Ending (FYE) 2020. The proposed fee amendments are designed to recover the costs of regulatory program activities in accordance with the Air District's Cost Recovery Policy.

6. **PUBLIC COMMENT ON NON-AGENDA MATTERS**

Speakers who did not have the opportunity to address the Board in the first round of comments on non-agenda matters will be allowed two minutes each to address the Board on non-agenda matters.

7. **COMMITTEE MEMBER COMMENTS**

Any member of the Board, or its staff, on his or her own initiative or in response to questions posed by the public, may: ask a question for clarification, make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter or take action to direct staff to place a matter of business on a future agenda. (Gov't Code § 54954.2)

8. **TIME AND PLACE OF NEXT MEETING**

Monday, April 22, 2019, Bay Area Air Quality Management District Office, 375 Beale Street, San Francisco, California 94105 at 10:30 a.m.

9. **ADJOURNMENT**

The Committee meeting shall be adjourned by the Committee Chair.

- To submit written comments on an agenda item in advance of the meeting. Please note that all correspondence must be addressed to the “Members of the Budget and Finance Committee” and received at least 24 hours prior, excluding weekends and holidays, in order to be presented at that Committee meeting. Any correspondence received after that time will be presented to the Committee at the following meeting.
- To request, in advance of the meeting, to be placed on the list to testify on an agenda item.
- Any writing relating to an open session item on this Agenda that is distributed to all, or a majority of all, members of the body to which this Agenda relates shall be made available at the District’s offices at 375 Beale Street, Suite 600, San Francisco, CA 94105, at the time such writing is made available to all, or a majority of all, members of that body.

Accessibility and Non-Discrimination Policy

The Bay Area Air Quality Management District (Air District) does not discriminate on the basis of race, national origin, ethnic group identification, ancestry, religion, age, sex, sexual orientation, gender identity, gender expression, color, genetic information, medical condition, or mental or physical disability, or any other attribute or belief protected by law.

It is the Air District’s policy to provide fair and equal access to the benefits of a program or activity administered by Air District. The Air District will not tolerate discrimination against any person(s) seeking to participate in, or receive the benefits of, any program or activity offered or conducted by the Air District. Members of the public who believe they or others were unlawfully denied full and equal access to an Air District program or activity may file a discrimination complaint under this policy. This non-discrimination policy also applies to other people or entities affiliated with Air District, including contractors or grantees that the Air District utilizes to provide benefits and services to members of the public.

Auxiliary aids and services including, for example, qualified interpreters and/or listening devices, to individuals who are deaf or hard of hearing, and to other individuals as necessary to ensure effective communication or an equal opportunity to participate fully in the benefits, activities, programs and services will be provided by the Air District in a timely manner and in such a way as to protect the privacy and independence of the individual. Please contact the Non-Discrimination Coordinator identified below at least three days in advance of a meeting so that arrangements can be made accordingly.

If you believe discrimination has occurred with respect to an Air District program or activity, you may contact the Non-Discrimination Coordinator identified below or visit our website at www.baaqmd.gov/accessibility to learn how and where to file a complaint of discrimination.

Questions regarding this Policy should be directed to the Air District’s Non-Discrimination Coordinator, Rex Sanders, at (415) 749-4951 or by email at rsanders@baaqmd.gov

San Francisco, California 94105
(415) 749-5073

DRAFT MINUTES

Summary of Board of Directors
Budget and Finance Committee Meeting
Wednesday, February 27, 2019

1. CALL TO ORDER – ROLL CALL

Budget and Finance Committee (Committee) Chairperson, Carole Groom, called the meeting to order at 9:36 a.m.

Present: Committee Chairperson Carole Groom; Vice Chair John J. Bauters; and Directors David Canepa, Cindy Chavez, David Hudson, Karen Mitchoff, Mark Ross, Rod Sinks, and Brad Wagenknecht.

Absent: Directors Margaret Abe-Koga and Rafael Mandelman.

Also Present: None.

2. PUBLIC COMMENT ON NON-AGENDA ITEMS, PURSUANT TO GOVERNMENT CODE SECTION 54954.3

Public comments were given by Kevin Buchan, Western States Petroleum Association; and Devin Richards, California Council for Environmental and Economic Balance.

The Committee and staff discussed a request for a future discussion of the Air District's Draft Fee Regulation (Schedule X: Major Stationary Source Community Air Monitoring Fees); and the request that the stakeholder comment period on the Air District's Draft Fee Schedule be opened *after* the Air District's Proposed Budget is released to the public.

3. APPROVAL OF THE MINUTES OF JANUARY 23, 2019

Public Comments

No requests received.

Committee Comments

None.

Committee Action

Director Wagenknecht made a motion, seconded by Director Hudson, to **approve** the Minutes of January 23, 2019; and the motion **carried** by the following vote of the Committee:

AYES: Bauters, Canepa, Groom, Hudson, Mitchoff, and Wagenknecht.
NOES: None.
ABSTAIN: None.
ABSENT: Abe-Koga, Chavez, Mandelman, Ross, and Sinks.

4. AIR DISTRICT FINANCIAL AUDIT REPORT FOR FISCAL YEAR ENDING (FYE) 2018

Dr. Jeff McKay, Chief Financial Officer, introduced Joseph Moussa, Senior Audit Manager, from Simpson & Simpson, LLP, who gave the presentation *Presentation of Audit Results*, including: agenda; auditor’s required communications Statements on Auditing Standards 114 (The Auditor’s Communication with Those Charged with Governance); audit results and highlights of the basic financial statements; and audit results and highlights of the single audit.

Public Comments

No requests received.

Committee Comments

The Committee and staff discussed recommended automation of paper processes.

Directors Chavez and Sinks were noted present at 9:50 a.m.

Committee Action

None; receive and file.

5. SECOND QUARTER FINANCIAL REPORT – FYE 2019

Stephanie Osaze, Finance Manager, gave the staff presentation *Second Quarter Financial Report – FYE 2019*, including: overview; General Fund revenues and expenditures; revenue and expenditures comparison (prior year versus current year); investments; fund balance and unfunded liabilities; purchasing reporting requirements; FYE 2019 vendor payments; vendor Request for Proposals (RFP); property tax by county; and full-time equivalent by General Fund and Grant Fund.

Public Comments

No requests received.

Committee Comments

The Committee and staff discussed the Air District’s plan to formalize its process for revisiting RFPs; the suggestion that Air District staff alert the Committee members of upcoming contract extensions; the accuracy of the Air District’s projection of the percentage of budgeted expenditures of the FYE 2019 Budget at this point in time, and the frequency of alignment of budget projections and actuals; the feasibility of transferring the allocations for Air District operational services and supplies to other divisions within the Air District and consider operational services and supplies expenses as overheard costs; State relief for the loss of property tax revenue allocated to counties with wildfire damage, and the anticipated duration of such relief; whether stationary source fees will be increased; whether the Air District anticipates a timeline to fill current staff vacancies; the request for the previous five years’ worth of budget projections, versus actuals; and factors that influence increases in property tax.

NOTED PRESENT: Director Ross was noted present at 10:10 a.m.

Committee Action

None; receive and file.

6. AIR DISTRICT ECONOMIC OUTLOOK

Dr. McKay introduced Leonid Bak, Senior Advances Projects Advisor, who gave the staff presentation *Bay Area Economic Overview – Economic Growth, Jobs, and Housing*, including: 2018: economy and market summary; Bay Area’s economic performance compared to California and United States (US) from 2001-2017; 2019 US economic summary – stellar payroll growth with accelerating wage growth; gainer and loser industries in the Bay Area’s changing jobs landscape – cumulative change in industry employment between 2001-2016; cumulative change in earnings per worker by industry in the Bay Area from 2001-2016; Bay Area total annual population growth rates compared with California and the US from 2010-2017; Bay Area single family homes – median sale prices and changes in sales and price in Bay Area counties in 2018; rising mortgage rates precipitate fast-dropping loan and refinance applications and continuing to cool America’s housing market; how the Bay Area real estate market compares to the US average; and Bay Area housing needs - household growth forecast by county from 2018 -2027.

Public Comments

No requests received.

Committee Comments

None.

Committee Action

None; receive and file.

7. CONTINUED DISCUSSION ON AIR DISTRICT’S FINANCIAL PLAN

Dr. McKay gave the staff presentation *Air District Financial Plan Overview*, including: cost recovery overview; fee increases; unfunded liabilities; other post-employment benefits (OPEB); OPEB trust versus county pool; pension retirement; Community Health Protection Program (Assembly Bill 617) implementation costs; and next steps.

Public Comments

No requests received.

Committee Comments

The Committee and staff discussed the suggestion that the Air District considers investing in a California Employers' Retiree Benefit Trust in future years; the fact that Air District fee schedules differ in rates of cost recovery; potential fee increases on large and small businesses, and ways to make such increases less impactful on smaller businesses; the history of the Air District’s current cost recovery policy; and the difference between Air District program expenditures attributable to stationary source regulation and Air District program expenditures that are not.

Committee Action

None; receive and file.

8. PUBLIC COMMENT ON NON-AGENDA MATTERS

No requests received.

9. COMMITTEE MEMBER COMMENTS / OTHER BUSINESS

None.

10. TIME AND PLACE OF NEXT MEETING

Friday, March 22, 2019, Bay Area Air Quality Management District Office, 375 Beale Street, San Francisco, CA 94105 at 9:30 a.m.

11. ADJOURNMENT

The meeting adjourned at 11:04 a.m.

Marcy Hirtzka
Clerk of the Boards

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

Memorandum

To: Chairperson Carole Groom and Members
of the Budget and Finance Committee

From: Jack P. Broadbent
Executive Officer/APCO

Date: March 8, 2019

Re: Discussion of Proposed Budget for Fiscal Year Ending (FYE) 2020

RECOMMENDED ACTION

The Executive Officer/APCO requests that the Budget and Finance Committee review the Proposed Budget for Fiscal Year Ending (FYE) 2020 and make any recommendations for further discussions to be held during the April 22, 2019 Budget and Finance Committee meeting.

BACKGROUND

At the March 6, 2019, Regular Board of Directors meeting, the FYE 2020 Proposed Budget document was referred to the Budget and Finance Committee for review at the Committee's March 22, 2019 meeting.

DISCUSSION

Air District staff will present the Proposed Budget for FYE 2020. The Proposed Budget is balanced with the use of \$4 million in reserves for Capital Improvements.

Prior to April 11, 2019, Air District staff will publish a notice to the general public that the first of two public hearings on the budget will be conducted on May 15, 2019 and that the second hearing will be conducted on June 5, 2019. Staff requests that the Budget and Finance Committee complete its review and take action on the Proposed Budget at the April 22, 2019 Budget and Finance Committee meeting. This will allow staff the necessary time required to amend, if necessary, the budget for the first public hearing to be held on May 15, 2019.

BUDGET CONSIDERATION/FINANCIAL IMPACT

The proposed consolidated budget for FYE 2020 is a balanced budget.

Respectfully submitted,

Jack P. Broadbent
Executive Officer/APCO

The Bay Area Air Quality Management District
is committed to
PROTECT AND IMPROVE PUBLIC HEALTH, AIR QUALITY, AND
THE GLOBAL CLIMATE

CORE VALUES

- Excellence*** Air District programs and policies are founded on science, developed with technical expertise, and executed with quality.
- Leadership*** The Air District will be at the forefront of air quality improvement and will pioneer new strategies to achieve healthy air and protect the climate.
- Collaboration*** Involving, listening, and engaging all stakeholders, including partner agencies, to create broad acceptance for healthy air solutions.
- Dedication*** Committed staff that live and believe the Air District's mission.
- Equity*** All Bay Area residents have the right to breathe clean air.

BUDGET MESSAGE

Jack P. Broadbent, Executive Officer/APCO

EXECUTIVE SUMMARY

This document presents the proposed budget for the Bay Area Air Quality Management District (Air District) for Fiscal Year Ending (FYE) 2020. The Air District continues its commitment to fulfill its mission, goals and objectives, through activities which focus on core and mandated programs, fiscally conservative internal controls, long range financial planning and the development of short and long-term sustainable approaches toward achieving cleaner air to protect the public's health and the environment.

The proposed budget for FYE 2020 reflects the priorities established at the Board of Directors (Board) retreat of January 16, 2019, which includes maintenance and enhancement of Air District core functions as well as work on the following key policy initiatives:

Assembly Bill 617 Implementation– Assembly Bill (AB) 617, passed by the Legislature and signed by the Governor in 2017, establishes new, comprehensive air quality planning requirements for the California Air Resources Board (CARB) and local air districts. The bill requires CARB and the Air District to engage with communities to analyze and reduce localized cumulative exposure to air pollution to improve health in the most disproportionately impacted communities. CARB and the Air District will: 1) identify impacted communities in the Bay Area; 2) develop and implement monitoring programs to better understand local air pollution sources and exposures, and; 3) develop and implement community action plans to reduce local emissions and exposures. Air District AB 617 implementation activities will cut across all divisions and will represent a major focus for the agency in FYE 2019 and beyond.

Climate Protection Grant Program – Staff will administer the \$4.5 million Climate Protection Grant Program established by the Board of Directors. The grant program will provide resources to local governments to support implementation of local climate action plans and programs.

Toxics Risk Reduction Rule Implementation – On November 15, 2017, the Air District Board of Directors adopted Regulation 11, Rule 18, Reduction of Risk from Air Toxic Emissions at Existing Facilities (Rule 11-18). Under this rule, facility-wide health risk assessments (HRAs) will be required for about 350 existing Air District facilities to determine if they are required to reduce their risk. As part of the implementation of Rule 11-18, the Air District plans to evaluate 43 facilities that are likely to have the highest health impacts during the first years of implementation of this rule. These sites are expected to include refineries, cement manufacturing, metal melting, large chemical plants, large power plants, and landfills. The remaining 307 facilities will be evaluated in later years as part of rule implementation plan.

2017 Clean Air Plan – The Air District will continue to implement the 2017 Clean Air Plan: Spare the Air, Cool the Climate (2017 Plan), adopted by the Board of Directors in April 2017. The 2017 Plan identifies Air District projects and programs to reduce emissions of ozone precursors, fine particulates, air toxics and greenhouse gases (GHG), to improve air quality, public health and the global climate. Implementation activities cut across the agency and include rule development, permitting, enforcement, grants and incentives, collaboration with state, regional and local partners, research and technical analyses, community engagement, and public education.

Climate Tech Finance Program for Stationary Sources – The Technology Implementation Office launched a new loan and loan guarantee program for stationary sources, which leverages partnerships with state agencies and private lenders. This Climate Tech Finance Program supports Bay Area's industrial and municipal facilities in implementing new technologies that can reduce their greenhouse gas emissions, support more efficient operations and lower costs. In FYE 2020, the Air District will expand the outreach, matchmaking, and technical support that will increase facility awareness and utilization of impactful climate technologies and financing options

Grants for Zero Emissions Mobile Source Projects – The Air District's grants programs will be prioritizing and targeting projects that achieve zero-and near-zero emissions reductions from replacement of older on- and off-road mobile sources, fleet expansion for on-road cars, trucks and buses, and single-occupancy vehicle trip reduction strategies that target the region's residents and commuters. In addition, funding for early actions will also be prioritized for communities that are identified through the Community Air Quality Protection AB 617 process.

Clean Transportation for Low-Income Consumers – The Air District is expanding the Clean Cars for All incentive program for low-income consumers in disadvantaged communities to access clean transportation options, including plug-in hybrid vehicles, battery electric vehicles, or transit. This program and other electric vehicle incentive programs will be complemented by expanded public outreach and partnership activities.

FINANCIAL SUMMARY

Total permit fee revenue for FYE 2020 is projected to increase, on average, by approximately 2.7%. This is mainly due to a proposed increase to the fee schedules. The proposed fee schedules are in accordance with the Cost Recovery Policy previously adopted by the Board. The budgeted amount for County revenue reflects an 8.8% increase over last year based upon projected increases in assessed valuations in the Bay Area. Additionally, a 144.5% increase in Special Revenue Funds is anticipated over the prior year due to a variety of new revenue sources such as the Volkswagen Settlement, Community Protection Air Quality Grant Program (AB 617/134), Clean Transportation for Low-Income Consumers and Grants for Zero Emissions Mobile Source.

The total Proposed General Fund Budget Expenditures for FYE 2020 of \$104.6 million represents an increase of approximately \$5.5 million or 5.5% over the FYE 2019 General Fund budget. This increase is primarily due to a combination of the following:

- \$3.5 million increase in Personnel Costs reflecting an increase in budgeted FTE positions over the prior year, increased health benefits premiums, and higher CalPERS employer contributions for FYE 2020.
- \$2.0 million increase in services and supplies and capital equipment purchases for FYE 2020.

The Proposed Consolidated Budget Expenditures for FYE2020 of \$252.7 million represents an increase of approximately \$93.0 million, or 58.2%. Of the \$93.0 million, \$85.1 million is related to program distributions from a variety of grant sources as noted earlier.

The proposed budget is balanced, reflecting a \$4.0 million transfer from General Fund reserves to cover one-time costs related to building improvements to the Richmond Office. The FYE 2020 Proposed Budget includes an economic contingency reserve policy of 20% of operating budget. This policy allows for a sound financial footing and provides the District the ability to operate for a minimum of three months in the event of a total loss of projected revenue. See Appendix C for further details on the District's Fund Balance.

REVENUES AND AVAILABLE FINANCING

Details of the FYE 2020 General Fund Revenues and Expenditures by major categories are displayed in Appendix D, Figure 1 and Figure 2, including 3 years of prior year actuals and the approved budget for FYE 2019. In addition, a General Fund Five-Year Financial Forecast is displayed in Appendix F.

Fee Revenue

This budget year, the Air District will continue the process of implementing fee increases as allowed under the *Health and Safety Code*. In FYE 2019, the approved fee schedule increased at an average blended rate of 6%. This increase reflected the Board's adoption of a cost recovery policy in accordance with the recommendations of the cost recovery study undertaken in 2010. An independent review of the Air District's cost recovery and containment process was conducted in April 2018. The FYE 2020 proposed fee increase also includes an overall average blended rate of 6.4%. If approved, the proposed fee increases will become effective July 1, 2019.

County Revenue

The County revenue budget is based on property values in the nine Bay Area counties. For the FYE 2020 budget, staff is projecting a \$2.9 million or 8.8% increase in property taxes receipts over the FYE 2019 Budget primarily due to increased property valuations.

Other Sources of General Fund Revenue

Federal grants from the EPA and other state/federal agencies show an increase of \$0.5 million or 5.6%. We anticipate continued funding from the State of \$4.8 million for AB 617 implementation efforts. As in the past, should the Air District receive supplemental Federal grants, the amounts will be presented to the Air District's Board for approval. The State Subvention grant for FYE 2020 is budgeted at \$1.7 million based on actual collections in prior year. Penalties and Settlements fluctuate from time to time; and the FYE 2020 projection is \$2.8 million.

INCENTIVES REVENUE

Transportation Fund for Clean Air (TFCA)

In 1991, the California State Legislature authorized the Air District to impose a \$4 surcharge on motor vehicles registered within its nine-county jurisdiction to fund projects that reduce on-road motor vehicle emissions. The Air District allocates these funds to eligible projects through the Transportation Fund for Clean Air (TFCA) program. The statutory authority for the TFCA and requirements of the program are set forth in California Health and Safety Code Sections 44241 and 44242. The Air District expends a portion of the funds collected for administrative purposes and provides the remainder of the funds to project sponsors that implement eligible projects or programs.

Sixty percent (60%) of the TFCA funds received are awarded directly by the Air District to eligible District programs (e.g., Smoking Vehicle, Enhanced Enforcement, and Spare the Air) and to a program referred to as the TFCA Regional Fund. The remaining forty percent (40%) of TFCA funds are forwarded to the designated congestion management agency within each Bay Area county to be distributed through the TFCA County Program Manager Fund program. Funding from the TFCA is used to support eligible zero-emissions on-road passenger vehicle, truck, and bus replacement and fleet expansion projects, and single-occupancy vehicle trip reduction strategies that target the region's residents and commuters.

Mobile Source Incentive Fund (MSIF)

Assembly Bill 923 (AB 923 - Firebaugh), enacted in 2004 (codified as Health and Safety Code Section 44225), authorized local air districts to increase their motor vehicle registration surcharge up to an additional \$2 per vehicle. The revenues from the additional \$2 surcharge are deposited in the Air District's Mobile Source Incentive Fund (MSIF). The Health & Safety Code stipulates that air districts may use the revenues generated by the additional \$2 surcharge for projects eligible for funding under the following programs: Carl Moyer Program, Lower Emission School Bus Program, Light-Duty Vehicle Scrap Program, and Agricultural Assistance Program. Funds may also be used for alternative fuel and electric infrastructure projects. The Air District provides these incentives to public and private entities for the implementation of eligible projects within the region. The Air District expends a portion of the funds collected for administrative purposes and provides the remainder to project sponsors that implement eligible projects. After successful reauthorization efforts in 2013, funding for the program will be available until 2024. Revenues from this funding source are separate from the General Fund budget for accounting purposes.

Carl Moyer Program (CMP)

The Air District has participated in the Carl Moyer Program (CMP), in cooperation with the California Air Resources Board, since the program began in fiscal year 1998-1999. The CMP provides grants to public and private entities to reduce emissions of oxides of nitrogen (NOx), reactive organic gases (ROG) and particulate matter (PM) from existing heavy-duty engines by either replacing or retrofitting them. Eligible heavy-duty diesel engine applications include on-road trucks and buses, off-road equipment, marine vessels, locomotives, stationary agricultural pump engines and forklifts. Funds available through the CMP are a result of State legislation and are administered through CARB. After successful reauthorization efforts in 2013, funding for the program will be available until 2024.

Community Protection Air Quality Grant Program (AB 617/134)

The Air District will be awarding \$40 million from AB 134 (2017) for emissions reduction projects that provide early actions of the AB 617 process through a Community Air Quality Protection Grant Program. Consistent with the AB 134 legislation, this funding will be primarily administered through the CMP to help target reductions in exposure to diesel emissions in identified local communities.

Volkswagen Environmental Mitigation Trust (VW Trust)

The VW Trust is an element of the settlement with VW for their use of an illegal defeat device and is intended to fully mitigate the lifetime excess oxides of nitrogen (NOx) emissions caused by VW's actions. CARB is the designated Lead Agency acting on the State's behalf as beneficiary to implement California's \$423 million in VW Trust funds for eligible project categories. The Air District has been selected by the California Air Resources Board to administer VW Trust funding on a statewide-basis, including \$77 million for zero-emission freight and marine projects and \$11 million for light-duty zero emission vehicle infrastructure projects. These funds will be administered over ten years starting from May 2018 until May 2028.

OPERATING EXPENDITURES

The FYE 2020 General Fund Proposed Operating Budget (net personnel & capital) of \$27.3 million decreased by \$2.4 million over the FYE 2019 Approved Budget primarily due to the one-time prior year funding of the revolving loan program by the Technology Implementation Office. A summary of the General Fund

Expenditures by Division from FYE 2018 (actual expenditures) through FYE 2020 (projected expenditures) is displayed in Table XI. In addition, the General Fund Expenditures by major categories from FYE 2016 (actuals) through FYE 2020 (projected expenditures) are displayed in Appendix E, Figure 2.

PERSONNEL EXPENDITURES

The FYE 2020 budget provides for the filling of 405 FTE, with no increase in FTE over the approved FYE 2019 budget. This budget also projects a 3.0% salary savings due to vacancies.

The FYE 2020 budget also projects a cost of living adjustment of 3.5% based on the annual average increase in CPI for the Bay Area region, which is, however, dependent on the terms of a potential Memorandum of Understanding with the Employee's Association.

CAPITAL EXPENDITURES

The budget for FYE 2020 funds capital expenditures from operating revenue and reserves for a total of \$9.4 million and is distributed across General Fund programs. Table XIII provides details of the individual capital items.

PLANNING FOR THE FUTURE AND COST CONTAINMENT

Future projections anticipate adequate revenue to meet projected expenditures with the assumption of continued attention to cost and permit fee analysis. The Air District continues to be fiscally prudent by maintaining its reserves. Reserves address future capital equipment and facility needs, uncertainties in State funding and external factors affecting the economy that could impact the Air District's ability to balance its budgets.

While the increased pickup of pension costs by employees reduced the Air District's annual obligation, premiums in employee health benefit, pension costs and OPEB obligations continue to grow. Over the last few years, the Air District has made significant efforts in funding its obligations for OPEB by making additional contributions to fund its unfunded liability. Based on June 30, 2017 actuarial valuation study for OPEB, the Air District's plan is approximately 68% funded; leaving an unfunded liability of 32% or \$19.0 million. As a part of the FYE 2016 Budget, the Board adopted a minimum OPEB funding target policy of 90%. The FYE 2020 Budget includes the continuation of this funding with a \$4.0 million contribution.

The Air District's pension obligation is also growing; especially with recent changes in actuarial assumptions by CalPERS. As a result, CalPERS anticipates increased employer rates over the next 5 years. Based on the June 30, 2017 CalPERS actuarial valuation study, the Air District is currently funded at approximately 75%; leaving an unfunded liability of 25% or approximately \$75 million. Given these potential impacts, the FYE 2020 Budget includes continuation of \$1.0 million in discretionary contributions, which will be used for the sole purpose of reducing the unfunded liability to minimize the impact of future rate increases for the Air District.

CAPITAL EXPENDITURES

**TABLE XII
CAPITAL EXPENDITURE SUMMARY**

The list below includes all capital expenditures budgeted for FYE 2020.

<u>Description</u>	<u>PGM</u>	<u>Capital Type</u>	<u>Amount</u>	<u>Program Total</u>	<u>Division Total</u>
1 One (1) Analytical Equipment Portable Air Quality Speciation Platforms	802	Lab & Monitoring	476,000		
2 One (1) Meteorological Towers and Equipment Upgrades	802	Lab & Monitoring	131,400		
3 One (1) Analytical Equipment for Mandatory PAMS Station	802	Lab & Monitoring	316,092		
4 One (1) Analytical equipment for fixed site monitoring network	802	Lab & Monitoring	272,292	1,195,784	
5 One (1) DI water generator	803	Lab & Monitoring	15,000		
6 Two (2) Laboratory Freezers	803	Lab & Monitoring	10,000		
7 Two (2) Laboratory Refrigerators	803	Lab & Monitoring	12,000		
8 Three (3) Laboratory Ovens	803	Lab & Monitoring	15,000		
9 Two (2) Canister Cleaners	803	Lab & Monitoring	40,000		
10 Two (2) Analytical balances	803	Lab & Monitoring	10,000		
11 One (1) Microbalance	803	Lab & Monitoring	25,000		
12 Two (2) Gas Chromatograph	803	Lab & Monitoring	120,000		
13 Two (2) Hydrogen Generator	803	Lab & Monitoring	20,000		
14 One (1) Gas Chromatography/Mass Spectrometer	803	Lab & Monitoring	170,000		
15 One (1) X-Ray Fluorescence Instrument	803	Lab & Monitoring	80,000	517,000	
16 Four (4) Source Test Analyzers	804	Lab & Monitoring	80,000		
17 Four (4) Automated Calibration Gas Dilution Manifolds	804	Lab & Monitoring	60,932		
18 Five (5) Automated Isokinetic Sampling Consoles	804	Lab & Monitoring	50,000		
19 One (1) Air Monitoring Instrumentation (auditing)	807	Lab & Monitoring	20,400	211,332	<u>1,924,116</u>
20 One (1) Linux Cluster Computer for modeling	603	Computer & Network	70,000	70,000	<u>70,000</u>
21 Richmond Facility Improvement	702	Building Improvement	4,000,000	4,000,000	<u>4,000,000</u>
22 Office Equipment for Recordkeeping	712	Office Equipment	60,000		
23 Computer and Equipment for Recordkeeping	712	Computer & Network Equipment	250,000	310,000	
24 Business Continuity Site	726	Building Improvement	75,000		
25 Capital Lease for Servers, Telecommunications & Hardware	726	Communications Equipment	400,000	475,000	<u>785,000</u>
26 Public Permitting & Compliance Systems	125	Computer & Network Equipment	2,625,000	2,625,000	<u>2,625,000</u>
Total Capital Expenditures					9,404,116

**TABLE XIII
CAPITAL EXPENDITURES DETAIL**

	<u>Item Description</u>	<u>Cost</u>	<u>Program/ Capital Type</u>
1	<u>One (1) Analytical Equipment Portable Air Quality Speciation Platforms</u> Characterization for community level air quality for AB 617 and Reg 12-15 will require the ability to do precise speciation at a variety of locations within each community to better characterize air quality exposure and determine source apportionment. Some of these measurements will need to be taken over longer periods of time and will require multiple portable measurement systems.	\$476,000	802/Lab & Monitoring
2	<u>One (1) Meteorological Towers and Equipment Upgrades</u> The aging Meteorology network is in need of upgrades to allow for increased safety and efficiency of operation. These upgrades will necessitate the replacement of several of	\$131,400	802/Lab & Monitoring
3	<u>One (1) Analytical Equipment for Mandatory PAMS Station</u> Equipment needed for installation in federally mandated Photochemical Assessment	\$316,092	802/Lab & Monitoring
4	<u>One (1) Analytical equipment for fixed site monitoring network</u> Air quality analyzers to replace aging equipment in existing air monitoring sites	\$272,292	802/Lab & Monitoring
5	<u>One (1) DI water generator</u> One will replace the current de-ionized (DI) water generator which is necessary to provide water for several analyses and has exceeded its useful life.	\$15,000	803/Lab & Monitoring
6	<u>Two (2) Laboratory Freezers</u> for the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$10,000	803/Lab & Monitoring
7	<u>Two (2) Laboratory Refrigerators</u> for the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$12,000	803/Lab & Monitoring
8	<u>Three (3) Laboratory Ovens</u> for the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$15,000	803/Lab & Monitoring
9	<u>Two (2) Canister Cleaners</u> One will replace the current de-ionized (DI) water generator which is necessary to provide water for several analyses and has exceeded its useful life.	\$40,000	803/Lab & Monitoring
10	<u>Two (2) Analytical balances</u> For the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$10,000	803/Lab & Monitoring
11	<u>One (1) Microbalance</u> For the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$25,000	803/Lab & Monitoring
12	<u>Two (2) Gas Chromatograph</u> For the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$120,000	803/Lab & Monitoring
13	<u>Two (2) Hydrogen Generator</u> and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$20,000	803/Lab & Monitoring
14	<u>One (1) Gas Chromatography/Mass Spectrometer</u> For the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$170,000	803/Lab & Monitoring
15	<u>One (1) X-Ray Fluorescence Instrument</u> For the East Bay Annex. It will be used for regular analyses, incident response analyses, and as a backup for the primary instrument at 375 Beale in the event of an emergency that makes the Main Lab inaccessible.	\$80,000	803/Lab & Monitoring
16	<u>Four (4) Source Test Analyzers</u> Replacements for current equipment that reached the end of its useful life.	\$80,000	804/Motorized Equipment

**TABLE XIII
CAPITAL EXPENDITURES DETAIL**

17	<u>Four (4) Automated Calibration Gas Dilution Manifolds</u>	\$60,932	804/Lab & Monitoring
	Automated calibration gas dilution systems for the source test vans to improve efficiency and prevent an increase in current calibration gas inventories while implementing enhanced QA/QC procedures.		
18	<u>Five (5) Automated Isokinetic Sampling Consoles</u>	\$50,000	804/Lab & Monitoring
	Computer controlled and automated isokinetic sampling console to improve source test efficiency, accuracy and QA/QC for particulate and air toxics sampling.		
19	<u>One (1) Air Monitoring Instrumentation (auditing)</u>	\$20,400	807/Lab & Monitoring
	Replacements for current equipment that reached the end of its useful life.		
20	<u>One (1) Linux Cluster Computer for modeling</u>	\$70,000	603/Computer & Network
	A new cluster computer to run the Weather Research and Forecasting (WRF) model to prepare meteorological inputs to the CMAQ model for regional PM2.5 and air toxics simulations to support AB617: community identification, assessing regional PM2.5 and air toxics levels at communities and estimating their background levels. It is also needed to run the AERMOD model for the community-scale PM2.5 and air toxics simulations.		
21	<u>Richmond Facility Improvement</u>	\$4,000,000	702/Building Improvement
	Office Building Improvement Cost for Richmond Building		
22	<u>Office Equipment for Recordkeeping</u>	\$60,000	712/Office Equipment
	Business Equipment for Recordkeeping System		
23	<u>Computer and Equipment for Recordkeeping</u>	\$250,000	712/Computer & Network Equipment
	Computer & Software Implementation Recordkeeping System		
24	<u>Business Continuity Site</u>	\$75,000	726/Building Improvement
	Business Continuity site IT for lakeview drive Richmond building		
25	<u>Capital Lease for Servers, Telecommunications & Hardware</u>	\$400,000	726/Communications Equipment
	Lease payment on the District's Capital Lease for Computer, Networking & Telephony equipment		
26	<u>Public Permitting & Compliance Systems</u>	\$2,625,000	125/Computer & Network Equipment
	Development and implementation of permitting and enforcement software functionality for medium and complex facilities, including data cleanup and consolidation activities.		
	Total Capital Expenditures	\$9,404,116	

PROGRAM NARRATIVES AND EXPENDITURE DETAIL
GENERAL FUND

NOTE: DEFINITIONS ARE PROVIDED ON PAGES 204-206
AND ARE AN INTEGRAL PART OF THIS BUDGET DOCUMENT.

EXECUTIVE OFFICE DIVISION

Under the leadership and direction of the Executive Officer/APCO and the Board of Directors, the Executive Office guides the Bay Area Air Quality Management District (Air District) in meeting its mission of protecting and improving public health, air quality, and the global climate. To fulfill this mission, the Air District builds its programs and policies on sound science, develops them with technical expertise and rigor, and executes them with quality. Air District programs and policies include both traditional air quality management approaches and new strategies for achieving clean air.

In FYE 2020, the Air District will continue to implement State and Federal regulations and directives, and will also continue to implement and develop the following key initiatives:

- Clean Air Plan Implementation
- Climate Action Work Program
- Assembly Bill (AB) 617 Implementation
- Wildfire Air Quality Response Program
- Diesel Free by '33 Campaign
- Technology Implementation Office
- Wood Smoke Program and Rule Amendments
- My Air Online Program
- Clean Air Foundation
- Spare the Air Everyday Campaign
- Public Participation Plan Implementation
- Diversity, Equity, and Inclusion Office
- Finance Office

The Executive Office is responsible for developing and maintaining strategic partnerships to achieve clean air. These partnerships include but are not limited to collaboration with: community groups, non-profits, peer regional agencies (Metropolitan Transportation Commission, Association of Bay Area Governments & Bay Conservation and Development Commission), regulatory agencies (U.S. Environmental Protection Agency and California Air Resources Board), and associations (California Air Pollution Control Officers Association, Air and Waste Management Association & National Association of Clean Air Agencies), as well as the State Legislature. In FYE 2020, these key partnerships will also address regional coordination of climate protection activities, and implementation of State initiatives such as SB1339, SB375, and AB32 at the regional level.

Executive Office		104
Managing Division: Executive		
Contact Person: Maricela Martinez		
Program Purpose: Administration and Direction of Air District Programs.		
Description of Program: This budget program is responsible for providing overall administration and direction to Air District staff. Through this budget program, the Executive Officer/APCO interprets and oversees implementation of Board directives and policies and administers the business of the Air District.		
Justification of Change Request:		
Activities		
Implement and develop key initiatives to meet Air District goals and objectives.		
Coordinate development of Air District's legislative agenda and implement strategy for achieving Air District's legislative goals.		
Coordinate Air District activities with staff, stakeholders, and community groups.		
Work with Air District Counsel to keep current on all notice of violation settlements.		
Monitor actions of and serve as liaison to regional governmental agencies (e.g. MTC, ABAG, BCDC), federal and statewide governmental organizations (e.g. U.S. EPA, CARB, CAPCOA), as well as the state legislature, and representatives of the regulated community.		
Compliance and enforcement actions.		
Administer and manage the Bay Area Clean Air Foundation.		
Major Objectives		Delivery Date
Rule Development and Amendments		Ongoing
Issue all non-Title V permits on a timely basis (within a 45 day period)		Ongoing
Production System Implementation		Ongoing
Clean Air Plan Implementation		Ongoing
Assembly Bill (AB) 617 Implementation		Ongoing
Public Participation Plan Implementation		Ongoing
Adopt District Budget for FYE 2021		Ongoing

Bay Area Regional Collaborative (BARC)		105
Managing Division: Executive		
Contact Person: Greg Nudd		
Program Purpose: The Bay Area Regional Collaborative (BARC) is a consortium of Board/Commission representatives from the Bay Area Air Quality Management District, Metropolitan Transportation Commission, Association of Bay Area Governments, and Bay Conservation and Development Commission. The BARC addresses cross-cutting issues of regional significance through collaboration and coordination.		
Description of Program: The BARC has selected Climate Change as the primary focus of its work. The four regional agencies work together to create coordinated policies, increase efficiencies, leverage resources, and provide better services to local governments that are grappling with climate mitigation and adaptation issues. This program includes Air District financial support for the BARC's assistance to coordinate the Bay Area Clean Air Plan and Regional Climate Action Strategy with the climate policies and programs of the other regional agencies.		
Justification of Change Request: Air District funding support for the BARC was included in the Executive Office Program 104 budget and Planning Division Climate Program 608 budget in past fiscal years. Air District funding support for the BARC has been consolidated into this Program budget for FYE 2020.		
Activities		
Provide support for the BARC Executive Director and Program Associate to implement the BARC work plan		
Provide support for limited professional services as needed for the BARC work plan		
Participate in BARC meetings, Executive Director meetings, and cross-agency staff teams		
Coordinate with BARC and member agency staff on climate change issues		
Major Objectives		
Work with BARC and member agency staff to coordinate implementation of the Clean Air Plan/Regional Climate Action Strategy and the Sustainable Communities Strategy		Ongoing
Work with BARC and member agency staff to integrate the Air District's Planning Healthy Places guidance into the Sustainable Communities Strategy		Ongoing
Work with BARC and member agency staff to coordinate technical assistance to cities and counties regarding climate action plans		Ongoing

Office of Diversity, Equity & Inclusion		113
Managing Division:		
Executive		
Contact Person:		
Mary Ann Okpalaugo		
Program Purpose:		
Reflects the Air District's leadership and commitment to diversity, equity and inclusion within the agency and the Bay Area.		
Description of Program:		
Office of Diversity, Equity and Inclusion (DE&I) - The Air District's Office of DE&I is responsible for developing and integrating principles, practices and strategies for diversity, equity, and inclusion. DE&I will be part of the Executive Office and will focus on reviewing Air District programs, policies, procedures, initiatives and funding to ensure that the vital work of bringing a clear equity lens to the Air District's mission of "protecting public health, air quality and the global climate" is achieved.		
Justification of Change Request:		
Activities		
Facilitate Strategy Initiatives: Communication, Education and Awareness; Employment Practices and Recruiting; Empowerment; Mentorship Program Development; Community Outreach and Brand Awareness		
Work to Drive Diversity and Inclusion Initiatives within Air District at all levels and Programs in the Air District		
Leverage Workforce Diversity and Empower Diverse Perspectives throughout Training & Leadership Development		
Establish Practices that Promote Inclusive Voices to Shift Leadership Pipeline		
Oversee internal Government Alliance on Race & Equity 2019 Learning and Implementation Cohorts		
Major Objectives		Delivery Date
Partner with Human Resources to determine current initiatives and develop long term strategies to Build Diversity and Inclusion into the Talent Life Cycle to Enhance Employee Engagement and Empower all Voices to Seek Leadership Roles		Ongoing
Develop Strategy to Expand Diversity and Inclusion to Recruiting and Promotional Opportunities to Build Pipeline		Ongoing
Development of Comprehensive Diversity, Equity, and Inclusion Training Program		December 2019
Cultivate a Collaborative, Productive and Inclusive Work Environment that Leverages Diversity and Where Employees Feel Valued - Skill Building Around Conversations and Bias		Ongoing
Oversee the Local and Regional Government Alliance on Racial Equity Program 2019 Learning and Implementation Cohorts		December 2019

Board of Directors		121
Managing Division: Executive		
Contact Person: Vanessa Johnson		
Program Purpose: Oversee Activities of the Board of Directors.		
Description of Program: Administration of activities of the Board of Directors.		
Justification of Change Request:		
Activities		
Prepare and distribute all meeting materials, including agendas, minutes and correspondence for Board of Directors regular and special meetings, approximately 20 per year.		
Prepare all logistics for Board of Directors regular and special meetings, including scheduling, polling, providing refreshments, preparation of facilities, and legal noticing requirements, approximately 20 per year.		
Prepare and distribute all agenda materials and logistics for Board of Directors Committee meetings, approximately 20 per year.		
Receive, route, and appropriately address all correspondence directed to the Board.		
Track, process and issue monthly travel reimbursement and per diem payments for each member of the Board of Directors.		
Prepare all travel logistics for Board of Directors participation at the Annual Air & Waste Management Association (A&WMA) Conference.		
Maintain archive of Board materials, including minutes, agendas, correspondence and adopted resolutions.		
Maintain the Air District's website as it relates to the Board of Directors membership, calendar, meeting materials and minutes.		
Assure timely filing of Statement of Economic Interests with the California Fair Political Practices Commission.		
Major Objectives		Delivery Date
Coordinate all Board and Committee meetings.		Ongoing
Coordinate Board Ethics Training and Unconscious Bias Training.		Ongoing
Coordinate New Board Member Orientation.		Ongoing
Coordinate transition to new Chair of the Board of Directors.		January 2020
Coordinate Board of Directors Annual Retreat.		January 2020
Update of Board Committee assignments.		Ongoing

HEARING BOARD		122
Managing Division: Executive		
Contact Person: Vanessa Johnson		
Program Purpose: Records, documents, and maintains records of actions of the quasi-judicial Hearing Board.		
Description of Program: The Hearing Board is a quasi-judicial body that rules on particular cases that affect only individual facilities. It is authorized to hear requests for variance relief, permit revocation, abatement orders, and appeals by permit applicants, or by interested third parties, concerning the issuance or denial of permits.		
Justification of Change Request: None.		
ACTIVITIES		
Prepare logistics for all Hearing Board meetings, including scheduling, polling, providing refreshments, preparation of facilities, and legal noticing requirements.		
Develop and maintain Hearing Board calendar and schedules.		
Attend all hearings of the Hearing Board.		
Draft selected Orders for Hearing Board review and signature.		
Print and reproduce Hearing Board notices.		
Maintain Record of Actions (Docket Book).		
Prepare and maintain docket files for each hearing.		
Collect required fees from Applicants.		
Follow-up on actions resulting from Hearing Board Orders/decisions.		
Process incoming documents and inquiries.		
Make arrangements for all off-site hearings.		
Research, compile and prepare reports for presentation to the Board of Directors and others as requested by the Hearing Board.		
Arrange for Hearing Board members attendance at Hearing Board Conferences and CARB Trainings.		
Track, process and issue monthly travel reimbursement and per diem payments for each member of the Hearing Board.		
Archive Hearing Board Dockets and related documents.		
Maintain the Air District's website as it pertains to the Hearing Board membership, calendar, and decisions/orders.		
Coordinate recruitment and orientation of new Hearing Board members as necessary.		
MAJOR OBJECTIVES		Delivery Date
Coordinate Hearing Board Activities		Ongoing

Advisory Council		123
Managing Division: Executive		
Contact Person: Vanessa Johnson		
Program Purpose: The Advisory Council studies and makes recommendations on specific matters referred from the Board of Directors or the Air Pollution Control Officer. Matters can include technical, social, economic and environmental aspects of air quality issues.		
Description of Program: The Advisory Council is comprised of 7 members, appointed by the Board of Directors. SB1415 requires that the Advisory Council members be skilled and experienced in the fields of air pollution, climate change, or the health impacts of air pollution. The Council advises and consults with the Board of Directors and Executive Officer, and makes recommendations and reports on matters that affect both policy and the legislative agenda. The Council will meet approximately (4) times per year. The meeting may include presentations by speakers who are experts in a specific topic. Presentations, materials and recommendations received are discussed and a report is prepared for the Board of Directors.		
Justification of Change Request:		
Activities		
Prepare and distribute all meeting materials, including agendas and minutes for Advisory Council regular and special meetings, approximately 4 per year.		
Prepare logistics for all Advisory Council regular and special meetings, including scheduling, polling, providing refreshments, preparation of facilities, providing stenographer, and legal noticing requirements, approximately 4 per year.		
Make travel, registration and payment arrangements Advisory Council participation at the annual Air and Waste Management Association Conference.		
Maintain archive of Advisory Council materials, including minutes, agendas, and presentations.		
Maintain the District's website as it relates to the Advisory Council membership, calendar, meeting materials and minutes.		
Attend all regular and Committee meetings of the Advisory Council.		
Track, process and issue quarterly travel reimbursement for each member of the Advisory Council.		
Coordinate recruitment of new Advisory Council members as necessary.		
Major Objectives		Delivery Date
Coordinate activities of the Advisory Council.		Ongoing
Conduct approximately four (4) meetings, based on the topics selected by the Board of Directors and Executive Officer.		Ongoing
Discuss the presentations, materials and recommendations received at the meetings, and prepare and present a report to the Board of Directors.		Ongoing

Website Development and Maintenance		309
Managing Division: Information Services		
Contact Person: Blair L Adams		
Program Purpose: The Air District Websites support and maintain the agency's web presence to provide the public with information about air quality, including health alerts and real-time air quality data, plans and technical information, as well as access to registrations, permits, regulations and other information for business and industry constituents.		
Description of Program: Development, support, and maintenance of the Air District's web content management system (Sitecore) and websites, including BAAQMD.gov and SparetheAir.org.		
Justification of Change Request: The Air District will endeavor to further develop main and tertiary website components, minimize operational support by modernizing data management practices, and allow for greater public accessibility in order to continue to support Air District Initiatives.		
Activities		
Provide support for ongoing multilingual translation of main website and expand to tertiary websites		
Provide support for content editing and auditing of main website and tertiary websites		
Provide support for Spare the Air website to a new website		
Provide assistance, support, and training to Division site Editors and Approvers		
Develop, test, and implement new features and site components		
Site and system maintenance (upgrades, bug fixes, issue resolution, and general upkeep)		
Develop training materials and documentation for Site Editor and Approver tasks		
Ensure compliance with legal requirements (Web Content Accessibility (508), Privacy Policy, Terms of Use, etc.)		
Process Web statistics and system logs		
Maintain tools (such as widgets & RSS) for use by visitors and on general public websites		
Maintain legacy systems as needed		
Maintain the web content management system (SiteCore) and Air District Websites		
Maintain and manage the hosted environment of related web servers		
Major Objectives		Delivery Date
Continuously implement a content strategy and editor guidelines to improve and prioritize content		Ongoing
Continuously improve BAAQMD.gov and SparetheAir.org user experience and information architecture		Ongoing
Maintain and enhance mobile compatible designs and increase access across a broad range of devices for BAAQMD.gov and tertiary websites		Ongoing
Maintain and enhance interactive elements, functionality, and features on BAAQMD.gov and tertiary websites to increase visitor engagement		Ongoing
Address adjustments and enhancements that are requested by the public on all websites		Ongoing
Maintain and enhance accessibility to be fully compliant with ADA requirements as is legally mandated for BAAQMD.gov and tertiary websites		Ongoing
Maintain and enhance multilingual services online for BAAQMD.gov and tertiary websites, while developing a strategy for ongoing translation needs		Ongoing
Maintain and enhance community specific pages that use tagging to provide the most relevant information across multiple sections of the websites		Ongoing
Maintain and enhance the events calendar		Ongoing
Maintain and enhance site search		Ongoing
Continue to develop Site Editor Education and Training Materials		Ongoing

ADMINISTRATIVE RESOURCES DIVISION

The Administrative Resources Division provides administrative and operational support functions for the Air District, and is comprised of the Executive Operations Office, Business Office, Fleet and Facilities Office, Finance Office and the Human Resources Office.

The Executive Operations Office is responsible for providing overall administration and direction to Air District staff. Through this office, the Executive Officer/APCO interprets and oversees implementation of Board directives and policies and administers the business of the Air District.

The Business Office is responsible for contracts, purchasing, non-workers compensation risk management, and office support services.

The Fleet and Facilities Office is responsible for the acquisition and maintenance of the vehicle fleet, planning, maintenance and operations of Air District facilities, and general security/safety.

The Human Resources Office is responsible for personnel matters including payroll and benefits, labor and employee relations, recruitment and testing, processing personnel actions, employee performance appraisal and recognition programs, organizational development and training, health and safety compliance, workers compensation and special events coordination.

Payroll		106
Managing Division: Administrative Resources		
Contact Person: Judy Yu		
Program Purpose: Administer payroll for District employees and process benefit payments.		
Description of Program: They Payroll Program includes administering all aspects of the Air District's payroll, processing of insurance premium payments, sick leave, annual leave, disability payments, worker's compensation, and other related benefits dealing with payroll. Maintains and utilizes the current Ceridian payroll system. The budget has increased to reflect the increase in the Ceridian payroll system's fees.		
Activities		
Process biweekly payroll.		
Maintain time keeping system.		
Perform necessary data entry for payroll program with timekeeping system.		
Audit payroll records.		
Continue to monitor payroll software; review and make needed revisions to the payroll system.		
Process benefit premium payments for accuracy.		
Monitor vacation/leave records.		
Respond to employment verifications and other external request for payroll information.		
Generate payroll reports.		
Major Objectives		Delivery Date
Administer and process biweekly payroll in an efficient and effective manner. Assists with problem solving on all aspects of payroll. Compliance with all payroll laws and requirements.		Bi-weekly
Implement conversion of new payroll and timekeeping system.		12/31/2019

Organizational Development		109
Managing Division: Administrative Resources		
Contact Person: Judy Yu		
Program Purpose: Provide appropriate workplace learning and organization development to increase organizational effectiveness and results through training and development activities. Administer wellness events and activities to increase the well-being of the staff.		
Description of Program: The District's training and development program includes career developmental training for all non-management employees; and career developmental training, skills enhancement, safety, knowledge transfer, and succession planning for supervisory and management employees. It includes analysis of needs assessments and implementation of workforce development activities as part of an overall strategy to retain a top performing and motivated workforce. The program also includes the administration and coordination of wellness activities and events.		
Justification of Change Request:		
Activities		
Provide leadership development training as part of overall succession planning.		
Expand management/supervisory training.		
Provide support staff training.		
Provide labor relations training to management staff.		
Provide Ethics, Equal Opportunity, Diversity and Sexual Harassment prevention training.		
Provide coaching and development support to management and staff as needed.		
Administer Educational Reimbursement Program.		
Development of a specialized rotational job development program.		
Provide for targeted division-specific training as requested or needed.		
Provide and support District-wide training programs as requested or needed.		
Coordinate and implement the various wellness activities and events.		
Administer the performance evaluation program.		
Major Objectives		Delivery Date
To provide District Employees with appropriate training and development programs. To provide the District with a defined succession program involving appropriate staffing. To provide training, staffing, and development programs allowing flexibility in the changing needs and priorities of the Air District		6/30/2020
To provide compliance with Federal, State, and local laws which require training applicable to District programs, processes and activities.		6/30/2020
To administer and coordinate the wellness program.		6/30/2020
To develop and implement an online system to track performance evaluation.		6/30/2020
To develop and implement a mentorship and internship program.		6/30/2020

Fleet Services		710
Managing Division: Executive and Administrative Resources		
Contact Person: Satnam Hundel		
Program Purpose: Fleet maintenance and inspection to ensure safe and reliable transportation.		
Description of Program: The vehicle maintenance section includes the maintenance of the District's 123-vehicle fleet, vehicle financing, tracking and diagnostics fuel records of District vehicles. All vehicle maintenance is outsourced for service. As of FYE 2018/19, ninety-four (94) vehicles are leased from Enterprise Fleet Services on a Full Maintenance Program. One (1) Electric vehicle is leased from Nissan Motor Acceptance Corporation where routine services are covered by the vehicle warranty plan; one (1) Hydrogen Fuel Cell vehicle is leased from Anderson Honda Motors Co. Inc; and twenty-seven (27) vehicles are owned by the District and are included in the Enterprise Maintenance Management Program in which Enterprise assists the District in handling all scheduled and non-scheduled repairs.		
Justification of Change Request: None.		
Activities		
Perform factory-recommended preventive and routine vehicle maintenance.		
Maintain service support for response to emergency calls within one hour.		
Manage insurance contracts on District vehicles; process damage claims.		
Train staff in new technology in vehicle maintenance, evaluation and repairs.		
Modify and maintain up-to-date vehicle maintenance procedures.		
Oversee Enterprise-leased vehicles maintenance appointments.		
Perform yearly smog checks and reports on District vehicles.		
Quarterly Fuel Reporting.		
Vehicle disposal and purchasing.		
Cost management and billing.		
Plan and prepare annual budget, expenditures and analyze all financial objectives		
Create/update fleet policy and procedures, to include vehicle assignment, personal use, replacement policy, accident reporting process, and other procedures		
Major Objectives		Delivery Date
Completion of yearly maintenance on all District vehicles.		Annually
Completion of annual smog check for District vehicles.		Annually
Reduce the District vehicles carbon foot print with alternative fuel options such as Hybrid Vehicles, Electric Vehicles (EVs), and Hydrogen Fuel Cell		On-going

LEGAL SERVICES DIVISION

The District Counsel provides legal advice, counseling and representation to the Board of Directors and its Committees, the Executive Officer/APCO, District staff, and the Advisory Council in the execution of their respective statutory mandates and responsibilities. The District Counsel also represents, or manages outside counsel, representing the District in all litigation involving the District and in matters before the District's Hearing Board. The District Counsel primarily practices in the areas of general civil law, Federal, State and local air pollution control law, administrative law, Federal and State civil litigation, government law and the California Environmental Quality Act (CEQA).

The District Counsel will continue to implement significant changes in the Mutual Settlement and Civil Penalty Programs; such efforts over the past several fiscal years have been very effective in improving these programs. Efforts by District Counsel's attorneys and the Mutual Settlement Program staff have resulted in a nearly complete effort of resolving the existing inventory of enforcement cases. In addition, implementation of a Small Claims Court program for some enforcement cases in which settlement could not be reached through pre-litigation negotiation has been highly successful. The efforts to be undertaken this fiscal year are once again designed to properly implement legal requirements regarding settlements, deter repeat violations, impose civil penalties commensurate with the nature of the air quality violation involved, remove the economic benefit of violations, and encourage rule compliance by the regulated community. This fiscal year, District Counsel will continue the development and improvement of the Mutual Settlement Program. The District Counsel will also continue to coordinate with, and provide training for, Compliance and Enforcement Division staff regarding case development. These efforts will ensure that effective enforcement cases are built from the beginning of investigations, and will result in more effective settlements and prosecutions. The District Counsel's attorneys will continue their focus on civil penalty enforcement investigations and actions, including civil litigation and, where appropriate, Hearing Board enforcement proceedings.

District Counsel's attorneys will continue to advise District staff on rulemaking, permitting and air quality planning activities. In this regard, District Counsel will continue its efforts to coordinate closely with the District's staff on these issues to minimize challenges to District decision-making. District Counsel will also continue to represent the Executive Officer/APCO before the Hearing Board, counsel the Board of Directors and its Committees as to their legal authority and duties and interact with EPA, CARB, other Air Districts and private attorneys on various matters. District Counsel will continue to use outside labor/employment law firms to handle the specialized practice of labor and employment law counseling, negotiations and litigation. Due in large part to the efforts of attorneys in the District Counsel's office, the vast majority of the litigation pending against the District was resolved in FYE 2005. Cases filed in the intervening years have been more efficiently addressed and resolved. In addition to continuing to provide pre-litigation counseling, and to handle litigation matters internally, the District Counsel will continue to manage the efforts of outside counsel as appropriate in litigation, employment, and specialized counseling matters.

The District Counsel will continue to provide the Board of Directors, the Executive Officer/APCO and District staff with exemplary legal counsel and representation.

Legal Counsel	201
Managing Division: Legal	
Contact Person: Brian C. Bunger	
Program Purpose: To advise, counsel and assist the Board of Directors, the Executive Officer/APCO, and District staff on all legal matters related to the Air District's clean air mission and operations.	
Description of Program: The Air District Counsel provides a wide variety of legal services to the Board of Directors, the Executive Officer/APCO, Advisory Council, and District staff. Those services include advising and counseling on issues arising under Federal and State air pollution laws, the Brown Act, the California Environmental Quality Act (CEQA), the Public Records Act, and conflict of interest laws. Attorneys in the District Counsel's office prepare and review complex contracts, provide legal opinions and advice on rule development, and governmental and general law issues, such as enforcement, permitting and air quality planning matters. Work in the District Counsel's office also includes the development and implementation of legal policy documents for the District.	
Justification of Change Request: None.	
Activities	
Staff all Board of Director and Board Committee meetings and provide legal advice and direction, as necessary, at such meetings.	
Draft all necessary resolutions for adoption by the Board of Directors.	
Provide all legal opinions, reports and correspondence requested by the Board of Directors, the Advisory Council and the Executive Officer/APCO.	
Provide all legal opinions, reports and correspondence requested by the Board of Directors, the Advisory Council and the Executive Officer/APCO.	
Review and comment on all legislative proposals affecting the District.	
Provide legal advice and review of all rule adoptions and amendments including CEQA analysis.	
Staff all meetings with District staff, members of the public, representatives of other public agencies, environmental groups, industry, the press and legislative representatives involving District permitting, rule development or enforcement.	
Provide legal advice, direction and contract drafting to administration of TFCA.	
Advise and assist the Executive Officer/APCO and District staff in legal matters involving contracts, the Public Records Act, conflicts of interest, leases and copyrights.	
Provide all staff support functions associated with the above activities.	
Advise Air District staff and the Board of Directors on all issues related to the Federal Clean Air Act, California Clean Air Act and associated State and Federal regulations.

Hearing Board Proceedings		202
Managing Division:		
Legal		
Contact Person:		
Brian C. Bunger		
Program Purpose:		
To represent the Air District in all proceedings involving variances, orders of abatement, permit appeals and permit revocations before the Air District's Hearing Board.		
Description of Program:		
The Air District Counsel provides all necessary legal representation and counsel for the District in variance, order of abatement, permit appeal and permit revocation actions before the Air District's Hearing Board. Permit holders may seek variance relief from the Hearing Board when they are unable to meet a District rule or permit requirement as long as state law requirements are met. The District may seek orders of abatement against facilities for on-going violations, or seek to revoke those facilities' permits. The Air District Counsel also represents the District in appeals by applicants or third parties to permit, emission reduction credit, and interchangeable emission reduction credit decisions made by the District. In addition, the Air District Counsel works with the Hearing Board's members and staff to improve the Hearing Board's rules and procedures.		
Justification of Change Request:		
None.		
Activities		
Review and advise Air District staff regarding the legal and factual sufficiency of variance requests.		
Prepare and/or review all required written correspondence, pleadings and orders.		
Represent the Air District in all Hearing Board matters, including preparing all written submissions for these cases.		
Prepare Air District witnesses for hearings.		
Provide staff support functions associated with the above activities.

Penalties Enforcement & Settlement		203
Managing Division: Legal		
Contact Person: Brian C. Bunger		
Program Purpose: To remove the economic benefit from, and provide a credible and effective deterrence to, violations of Air District Rules by reaching settlements or pursuing penalty enforcement actions fairly and consistently.		
Description of Program: The Air District Counsel, in cooperation with the Enforcement and Compliance Division, enforces the Air District's rules by reaching informal settlements through the Mutual Settlement Program, by pursuing administrative enforcement actions (orders of abatement and revocation of permits), by filing and prosecuting civil penalty actions, or by referring cases to other agencies for consideration of civil or criminal enforcement actions within those agencies' jurisdiction.		
Justification of Change Request: None.		
Activities		
Administer Mutual Settlement Program.		
Pursue Small Claims Court actions to collect civil penalties.		
Provide full time clerical staff support for this program.		
Prepare witnesses and documentary evidence for administrative hearings and civil litigation associated with actions to recover civil penalties.		
Meet and confer with District staff and defendants to discuss settlement or to advance litigation.		
Represent the District in all court hearings, settlement conferences and civil discovery.		
Coordinate the referral of cases for civil and criminal prosecution to District Attorney offices and other agencies with jurisdiction over air quality issues.		
Prepare all correspondence and prepare and file all pleadings in civil and administrative actions.		
Settle or pursue enforcement actions on all Notices of Violation (NOVs).

COMMUNICATIONS OFFICE

The Communications Office coordinates all agency media outreach, Air District messaging, crisis communications, media relations as well as print, digital and social media outreach for the Air District. The Office provides media and public outreach about the Air District's programs, operations and emergency response.

The Office manages advertising and outreach for Spare the Air, Winter Spare the Air, the Employer Program, Spare the Air Youth, Resource Teams and the Commuter Benefits Program. The Office oversees the Air District and Spare the Air social media sites, strategies and programs. The Office maintains the Spare the Air website and related sites and the Spare the Air mobile apps. The Office represents the Air District at community events for Spare the Air throughout the region.

Office functions include production of publications and digital collateral for the general public and target audiences. This includes publishing newsletters, the annual report, videos and collateral materials. The office also provides and oversees graphic design services and provides Air District tours for international delegations, organizations and school groups.

Media Relations		301
Managing Division: Communications Office		
Contact Person: Kristine Roselius		
Program Purpose: Act as the Air District's main point of contact to the public through media and social media. Increase public awareness and understanding of the roles that the public and the Air District have in creating behavior change and reducing air pollution and the impacts of climate change.		
Description of Program: Provide proactive media outreach about air quality issues, Air District programs and the purpose and functions of the agency through printed materials, media events, promotional materials, baaqmd.gov website, press releases, publications videos, podcasts, mobile apps and social media. Develop graphically appealing and compelling images to better message Air District efforts on social media, presentations and displays.		
Justification of Change Request: Budget increased due to new staff and training requirements.		
Activities		
Maintain up-to-date and relevant air quality information on the Air District website.		
Develop video and audio podcasts about air quality issues and the Air District's programs and rules		
Develop wildfire messaging, procedures, graphics, printed and web materials		
Produce publications including plans, brochures, booklets and other Air District documents.		
Issue press releases and host media events highlighting Air District accomplishments.		
Coordinate the Air District presence at events and fairs throughout the region.		
Develop and implement media, social media and communication strategies around major Air District policies and issues.		
Develop and maintain effective working relationships with members of the media and social media influencers.		
Track and analyze print, internet, radio, social media and television coverage of the Air District.		
Provide development opportunities for staff related to activities and objectives of the Air District.		
Develop emergency response internal, media and social media outreach procedures		
Develop crisis communications internal, media and social media outreach procedures		
Development and management of Air District social media sites		
Major Objectives		Delivery Date
Produce Air District Annual Report.		6/30/2020
Publish quarterly Air Currents newsletter.		6/30/2020
Develop media response \ operating procedures, Air District media policy, and social media policy.		Ongoing
Conduct media training for public information officers and other Air District staff.		Ongoing
Develop video podcasts, video news releases / statements, infographics and display graphics for Air District programs / events.		Ongoing
Publish Air District social media posts.		Ongoing

Intermittent Control Programs		303
Managing Division: Communications Office		
Contact Person: Kristine Roselius		
Program Purpose: The Winter Spare the Air program informs the public about the Wood Burning Rule, the health impacts of wood smoke pollution and alternative, cleaner forms of heat and change-out incentives.		
Description of Program: The Wood Burning Rule was passed in 2008 and wood burning is banned between November and February when a Winter Spare the Air Alert is called. The Winter Spare the Air campaign informs the public about the health impacts of wood smoke both inside and outside the home. A seasonal messaging/advertising campaign is developed and delivered to the public through regional advertising, media outreach, neighborhood events and through seasonal door-to-door outreach and survey campaign.		
Justification of Change Request: Budget increase to cover increasing costs of Winter Spare the Air text alerts due to growing subscriber base.		
Activities		
Develop and disseminate a Winter Spare the Air campaign to inform the public about the health impacts of wood smoke.		
Prepare and issue media releases, respond to media inquiries and plan media events/deskside & editorial board visits.		
Conduct public opinion surveys to evaluate program and measure behavior change.		
Manage and update the sparetheair.org, baaqmd.gov and sparetheairnow.org websites as well as social media sites including Twitter, Linked In, Pinterest and Facebook.		
Manage notification methods for Winter Spare the Air Alerts, including automated phone alerts, text and email alerts, online banners, iPhone/Android app and widget.		
Deliver public outreach, advertising and media relations campaigns.		
Provide public outreach at community events throughout the Bay Area.		
Door to door outreach/surveys		
Provide overview of campaign to Executive Committee and Board of Directors.		
Provide outreach to local government leaders and community organizations and the general public about the Winter Spare the Air program.		
Promote cleaner heating options and available incentives.		
Major Objectives		Delivery Date
Launch Winter Spare the Air Season.		11/1/2019
Execute and evaluate Winter Spare the Air season public outreach campaign.		6/30/2020
Develop video podcasts, video news releases / statements, displays and infographics for Winter Spare the Air programs / events.		2/29/2020
Respond to public inquiries, provide informational speeches and presentations.		2/29/2020
Publicize cleaner heating options.		6/30/2020
Monitor and measure campaign effectiveness via public opinion surveys.		3/30/2020
Develop Winter Spare the Air Season summary.		4/1/2020
Issue Winter Spare the Air Alert advisories when air quality is forecast to reach unhealthy levels.		2/28/2020
Provide information about the health impacts of wood smoke to the public, community organizations and local government leaders.		Ongoing
Add new features to updated sparetheair.org website		3/01/2020

Spare the Air (CMAQ)		305
Managing Division: Communications Office		
Contact Person: Kristine Roselius		
Program Purpose: The Spare the Air program encourages the public to reduce their driving, a major source of Bay Area air pollution, and promotes the use of public transit, biking, walking, carpooling, trip reduction and other behavior changes that reduce pollution from automobiles.		
Description of Program: The Spare the Air Program provides health alerts and informs Bay Area residents about air pollution and encourages them to reduce single occupancy driving, especially during their commute to and from work, to improve air quality. The Spare the Air program will also help to promote the Commuter Benefits Program which supports the overall goal of reducing the number of vehicles on Bay Area roads. When air quality is forecast to be unhealthy, the Air District issues Spare the Air Alerts. Outreach to the public is conducted through an advertising and media relations campaign as well as through social media sites such as Twitter and Facebook.		
Justification of Change Request: No change.		
Activities		
Conduct campaign to educate the public about individual choices to reduce air pollution.		
Prepare and issue media releases, respond to media inquiries and plan media events.		
Conduct public opinion surveys to evaluate program and measure behavior change.		
Manage and update the sparettheair.org website as well as campaign landing pages and provide regular updates, measurements and responses for social media sites such as Twitter, Pinterest and Facebook.		
Provide public outreach at community events throughout the Bay Area.		
Notify the public of Spare the Air Alerts through AirAlerts, text alerts, the media, sparettheair.org, baaqmd.gov, the iPhone/Android app and social media sites.		
Manage public outreach campaigns for advertising, social media and media relations.		
Provide overview of campaign to Executive Committee and Board of Directors.		
Major Objectives		Delivery Date
Develop the 2020 Spare the Air campaign.		3/01/2020
Launch 2020 Spare the Air ozone season.		5/01/2020
Monitor and measure campaign effectiveness via public opinion surveys.		10/15/2020
Manage the 2019 Spare the Air advertising, media relations and social media campaign.		10/30/2020
Promote Spare the Air clean air activities at public events.		10/30/2020
Develop video podcasts, video news releases / statements, displays and infographics for Spare the Air program / events.		10/30/2020

TECHNOLOGY IMPLEMENTATION OFFICE

In late 2018, both the Intergovernmental Panel on Climate Change Special Report on Global Warming of 1.5°C and United States' Fourth National Climate Assessment stressed the urgency to reduce greenhouse gas emissions. At the same time, many climate solutions are available but have limited adoption. The Technology Implementation Office (TIO) mission is to advance these emerging, cost-effective solutions to achieve greenhouse gas emissions reductions for the transportation and industrial source sectors. TIO will connect climate technologies and customers by providing financial incentives (through grants and loans) as well as technical and matchmaking support. Climate technology areas include zero emissions vehicles and infrastructure, zero emissions energy storage and backup systems, composting, and waste-to-energy projects (co-digestion, waste treatment, anaerobic digestion, combined heat and power). By supporting the scale-up of climate technologies, TIO can help achieve state and regional greenhouse gas emissions targets, reduce emissions in impacted communities, while also making technologies cost-effective even in regions without strong climate policies.

Greenhouse Gas Technologies - Stationary		126
Managing Division: Technology Implementation Office		
Contact Person: Derrick Tang		
Program Purpose: The Climate Tech Finance program advances emerging and cost-effective solutions to achieve greenhouse gas emissions reduction. The TIO's goal is to support the 2017 Clean Air Plan goal of a carbon-free Bay Area by 2050 and mainstream technologies so they can be scaled-up throughout and beyond the Bay Area.		
Description of Program: The program cultivates partnerships and provides financing to incentivize greenhouse gas emissions reductions for stationary and industrial sources.		
Justification of Change Request: Funds to establish the loan program were allocated in FYE2019 and will continue to be used for new projects in FYE2020. The FYE2020 budget support activities to conduct matchmaking efforts between technologies and customers, research and evaluate new technologies, and administer the loan projects.		
Activities		
Oversee loan and loan guarantee partnership and projects.		
Perform evaluations of climate technologies.		
Identify technologies and customers and provide technical support and financing to implement technologies.		
Convene stakeholders for technology matchmaking and peer-to-peer information exchanges.		
Provide technical resources to partners and the District.		
Major Objectives		Delivery Date
1. Provide loans and loan guarantees for implementing new technologies.		Ongoing
2. Convene stakeholders for quarterly technology matchmaking events, as well as a second Climate Tech Marketplace event to showcase emerging technologies among potential facility customers.		Quarterly
3. Develop strategic plan and fundraising materials to pursue additional program funding.		12/31/19

STRATEGIC INCENTIVES DIVISION

The Strategic Incentives Division administers grant programs to facilitate the execution of projects and programs focused primarily on the reduction of emissions from mobile sources in the Bay Area. The primary grant programs include the Transportation Fund for Clean Air (TFCA), the Carl Moyer Program (CMP), the Mobile Source Incentive Fund (MSIF), the Lower-Emission School Bus Program (LESBP), in addition to other miscellaneous grant programs. These programs support the implementation of transportation and mobile source measures, as well as other incentive-based initiatives that improve air quality in the region. In FYE 2020 the Strategic Incentives Division will administer more than \$100 million in new grant revenue funds.

CARBON OFFSET FUND		311
Managing Division: Strategic Incentives		
Contact Person: Chengfeng Wang		
Program Purpose: Administer allocation of carbon offset fund revenue.		
Description of Program: On September 10, 2007, ConocoPhillips Company (COP) entered into a settlement agreement with the Attorney General of California, which resulted in COP making a one-time payment of approximately \$4.4 million to a carbon offset fund created by the Air District. On November 24, 2008, the Air District entered into a Memorandum of Understanding with the Attorney General regarding the establishment of a carbon offset fund and the implementation of a Greenhouse Gas Reduction Grant Program (GGRGP) to fund projects that achieve verifiable, quantifiable reductions in greenhouse gas (GHG) emissions, with priority given to projects near the Rodeo Refinery. These projects were completed by FYE 2016. The remaining funds from the GGRGP are being used for the replacement of conventional commercial lawn and garden equipment with zero-emission alternatives with all funded projects to be completed in FYE 2020.		
Justification of Change Request: No change.		
Activities		
Develop policies and guidelines for Program funding and prepare recommendations for Board of Directors consideration of Program policies and award of project funds.		
Conduct workshops and assist with outreach efforts and project solicitation.		
Review and evaluate applications and proposals for conformance with the applicable guidelines, policies, and regulations, and prepare Program documents, contracts, letters, reports, and communications.		
Track status and performance of projects, and conduct inspections.		
Prepare technical, financial, and staff reports.		
Major Objectives		Delivery Date
Prepare technical, financial, and staff reports.		Ongoing
Monitor, inspect, and audit projects to assure compliance with program guidelines.		Ongoing
Review project progress reports and reimbursement requests, and ensure project files are complete and up to date.		Ongoing
Prepare and submit the final annual report to California Attorney General.		08/30/20

GRANT PROGRAM DEVELOPMENT		313
Managing Division: Strategic Incentives		
Contact Person: Chengfeng Wang		
Program Purpose: Expand availability of funding for emission reduction projects in the Bay Area by identifying and securing new sources of funding. Manage advanced technology demonstration projects through grants secured.		
Description of Program: This program, established in 2010, is focused on identifying and securing new sources of funding for the Bay Area region. In FYE 2020, staff will pursue funding from Federal, State, local governments and other funding sources. Over time, this program aims to expand the availability of grant funding in the region in order to create additional opportunities for Bay Area businesses and residents to implement projects that reduce criteria pollutants, greenhouse gases, and toxic air contaminants from mobile and stationary sources.		
Justification of Change Request: No change.		
Activities		
Form partnerships to leverage Air District funding resources.		
Identify new sources of funding.		
Prepare grant applications to secure new funding sources.		
Major Objectives		Delivery Date
Identify new sources of funding for the region.		Ongoing
Prepare grant applications and secure new funding sources.		Ongoing
Manage advanced technology demonstration grants secured through development activities.		6/30/2020

COMPLIANCE ENFORCEMENT DIVISION

The Compliance & Enforcement Division ensures the Air District will realize the emission reductions achieved by the air quality regulations adopted by the Board of Directors, and permit conditions issued by the Executive Officer/APCO. Compliance with District, State, and Federal regulations is achieved by a Compliance Assistance Program that assists industry in understanding requirements, a Compliance Assurance (inspection) Program and an Enforcement Program that provides an effective deterrence to non-compliance. The Division promotes compliance assistance and voluntary compliance that assists companies to ensure compliance with regulations. When non-compliance is discovered, enforcement is applied at a level appropriate to the nature and extent of the violation. The Division will continue to work closely with industry, community groups, and environmental groups to review and enhance air quality compliance and enforcement programs, to provide the highest level of service.

For FYE 2020, the Division will continue to implement the Air District's comprehensive strategy to reduce residential wood smoke through enforcement, outreach and compliance assistance of the Wood Smoke Rule (Regulation 6, Rule 3). The Division will continue to implement the District's Mobile Source Compliance Plan (MSCP), a program for enforcement of CARB Diesel Particulate Matter (DPM) regulations from mobile sources. The Division will continue to minimize petroleum refinery flare use through the Flare Minimization Plans for all five Bay Area refineries. The Compliance & Enforcement Division will continue to assist cross-divisional efforts in AB617 to develop and implement new enforcement strategies to address community concerns in West Oakland and Richmond. The Division will also continue to ensure the Air District's Wildfire Air Quality Response Program achieves its mission through establishing program elements to prepare, prevent and respond to wildfire smoke impacts within the region. Other significant air programs requiring Division resources include investigations of Title V deviation reporting, the Portable Equipment Registration Program (PERP), Asbestos projects (renovations, demolitions and naturally occurring asbestos – NOA), compliance determinations for State Air Toxics Control Measures (ATCMs) and Federal Maximum Available Control Technology (MACTs) for air toxics. The Division will continue the implementation and enforcement of the District's Commuter Benefits regulation, which targets employers with more than 50 employees within the Air District's jurisdiction.

During the coming year, Division programs will continue to focus on activities that support the District's commitment to achieving clean air to protect public health and the environment. The Division will implement the following programs:

- The Compliance Assistance Program will continue to develop *Compliance Advisories* for use by the Inspection staff, industry and the public. These will include several related to new and amended regulations and state Air Toxics Control Measures for stationary sources and some mobile sources. The program encompasses inspector training, support for various Division programs, dispatch activities, Compliance Assistance Advisories, and Industry Compliance Schools. The small business incentive program will provide financial incentives for small businesses to attend District-run Industry Compliance Schools to learn practical information on how to comply with District regulations and how compliance benefits not only their business, but also their community.
- The Compliance Assurance Program will continue both announced and unannounced inspections of air pollution sources to ensure compliance. Targeted strategies will be used to focus inspections to find non-compliance and reduce excess emissions. Sources include: Title V and Synthetic Minor permits, petroleum refineries, chemical plants, dry cleaners, gasoline dispensing facilities, autobody shops, asbestos renovations and demolitions, agricultural and prescribed burning, and other permitted sources. Staff will continue to plan, prepare, and respond to air pollution incidents and to work closely with other response agencies.
- The Enforcement Program will continue with a focus on major facility (Title V, Synthetic Minor) auditing and will strive to ensure compliance with all air quality regulations. Staff will work with the Legal Division to provide a strong deterrent to non-compliance and to apply the appropriate level of enforcement, proportional to the level of non-compliance. The Division will vigorously pursue violators who show a disregard for the law and well-being of the public. Air pollution complaints will be investigated to provide a high level of service to the public. Wood smoke patrols for excessive opacity and curtailment violations will be conducted for the fifth winter of the wood smoke regulation.

The Division's outreach, throughout the programs above, will continue to provide compliance assistance materials in foreign languages and translation services for the air pollution complaint process, and other public service access points at the Air District.

Enforcement		401
Managing Division: Compliance and Enforcement		
Contact Person: John Marvin		
Program Purpose: Enforce applicable Federal, State, and District air pollution regulations and permit conditions.		
Description of Program: The Enforcement Program consists of activities designed to respond when sources are found in violation of applicable Federal, State and Air District regulations and permit conditions. A strong, technically-based enforcement program provides both an essential deterrent to continued or future non-compliance as well as consistency in enforcement practices throughout the regulated community. This program includes all Division activities necessary to address non-compliance, including issuing Notices of Violation (NOV) and Notices to Comply (NTC), identifying causes and solutions for non-compliance, developing enforcement cases for legal action, and providing testimony during hearings and court cases. Other elements of the program include responding to the public's air pollution complaints, returning sources to compliance, and supporting enforcement of the variance and abatement order process. In addition, the toxic air contaminant activities, such as mobile source enforcement of diesel particulate matter ATCMs and asbestos demolition/renovation enforcement, ensure compliance with Federal, State and District regulations to protect the public from exposure to known carcinogens. Oversight of the Division's Safety Program is coordinated with the training functions in Program 402.		
Justification of Change Request:		
ACTIVITIES		
Investigate, issue, and process NOVs and NTCs; re-inspect sources to verify compliance status after issuance. Work with Legal Division to procure penalty settlement and/or successful prosecution.		
Receive and investigate citizen inquiries and general air pollution complaints. Respond to these complaints as soon as possible where highest priority response is given to ongoing complaints alleged against potential nuisance sites.		
Prepare enforcement cases in coordination with Legal Division; conduct/coordinate investigations to support their development for legal actions.		
Provide technical analysis and support for variances, abatement orders, and permit appeals to the Hearing Board. Prepare weekly District position report on all matters before the Hearing Board. Ensure that increments of progress from variances, abatement orders, consent decrees, enforcement agreements, or settlement agreements are being met.		
Asbestos regulations enforcement: issue and process NOVs, investigate air pollution complaints; handle inquiries. Conduct Demo/Reno outreach to city building departments, fire departments, and other stakeholders as needed. Attend environmental task force meetings.		
Gasoline Dispensing Facilities (GDF) regulations enforcement: issue and process NOVs, investigate air pollution complaints, and conduct diagnostic testing. Assist operators with preventative maintenance and training.		
Woodsmoke regulation enforcement: conduct burn ban and opacity patrols based on received complaints; process NOVs.		
CARB Mobile Source regulations enforcement in CARE impacted areas with special focus on West Oakland and Richmond.		
Asbestos ATCM for Construction, Grading, Quarrying, and Surface Mining Operations regulation enforcement: issue and process NOVs for naturally occurring asbestos (NOA) construction projects, investigate air pollution complaints, and provide compliance assistance to construction project owner/operators		
Refinery Flares: review, comment, approve and enforce provisions in Regulation 12, Rules 11 and 12.		
Participate in interagency environmental task force programs to coordinate District enforcement activities with other County/State/Federal governmental agencies.		
Provide staff at community meetings to present information on the complaint process, enforcement activities, etc.

Compliance Assistance & Operations		402
Managing Division: Compliance and Enforcement		
Contact Person: Juan Ortellado		
Program Purpose: Promote compliance with Air District regulations through program development and industry/source education.		
Description of Program: The Compliance Assistance and Operations Program provides both industry and Compliance and Enforcement Division (Division) staff with the necessary tools to promote compliance with air quality requirements. The Program also provides educational materials and conducts outreach to the public to promote compliance with the woodsmoke reduction program. In support of the woodsmoke reduction program, the Program maintains both an online and phone Woodsmoke Complaint System for the public to register complaints. The Program also manages a dispatch system for all general complaints from the public. Industry Compliance Schools (ICS), including a Small Business ICS incentive program, are offered for businesses. Compliance Advisories, fact sheets and other educational materials are provided to industry and trade associations. Regulatory questions are answered via a dedicated compliance assistance telephone line. In-service training ensures consistent and appropriate inspection activities. Mobile source compliance activities are conducted pursuant to the Air District's Mobile Source Compliance Plan. Partnerships with other public agencies promote multi-media pollution prevention through local Green Business programs and other activities. Support is provided for all Division air programs, and for the public and industry.		
Justification of Change Request: With new staff joining the Division, there is a need for additional funding to provide relevant internal training events, like the 40-hour HAZWOPER, and attend external training opportunities, such as the annual California Association of Air Pollution Control Officers (CAPCOA) Enforcement Symposium and other training events like the Odor Conference. Division staff have assumed new responsibilities in the CAPCOA Vapor Recovery Sub-Committee, which also results in the need for additional travel funding.		
ACTIVITIES		
Compliance Assistance to Industry: provide small- and medium-sized businesses with specialized educational and technical assistance to achieve and maintain compliance. Develop Compliance Assistance materials for specific business sectors and the public (woodsmoke). Provide compliance assistance during routine inspections and following enforcement action. Compliance assistance is also provided for all air quality complaints for the public through dispatch or other 1-800 or 1-877 telephone line systems. Outreach is conducted for compliance assistance for several programs, including mass-mailings of woodsmoke reduction program brochures and educational materials in sensitive wood smoke areas. Division staff identify and translate Compliance Assistance materials for small business and other industry sectors where non-English speaking operators need additional assistance.		
Develop and maintain Division Policies and Procedures and other documents/processes to ensure consistent application of enforcement activities. Conduct ICS for small businesses and other regulated industries. Build partnerships with other public and community organizations to strengthen compliance assistance activities. Conduct compliance assistance and enforcement activities for the woodsmoke reduction and mobile source enforcement programs. Maintain compliance assistance hotline during core business hours and provide staff for speaker's bureau. Promote pollution prevention through multi-media collaboration and coordination with local County Green Business Program Coordinators and the Association of Bay Area Governments (ABAG).		
Training and Safety: provide staff with pertinent classes, educational materials and a robust safety curriculum to support core activities. Maintain ongoing Safety Training and implement new OSHA requirements as needed.		
Operations: develop and maintain air programs to support Air District and California Air Resources Board (CARB) rule requirements, including but not limited to woodsmoke, flare monitoring, asbestos demolition/renovation, naturally occurring asbestos, boilers, open burning, reportable compliance activities. soil aeration and mobile source(s) compliance. Provide equipment and capital management for communication, computers and related devices. Provide multilingual services to access all Division programs. Review, analyze and process petitions, plans, complaints, Reportable Compliance Activities (RCAs - e.g., breakdowns, Ground-level monitor (GLM) releases, non-operational monitors, pressure relief valve releases) and other notifications received.

COMPLIANCE ASSURANCE		403
Managing Division: Compliance and Enforcement		
Contact Person: Richard Lew		
Program Purpose: Conduct compliance inspections and to ensure compliance with Air Quality regulations to achieve emission reductions.		
Description of Program: The Inspection Program's goal is to ensure that facilities operate and maintain their equipment and processes in compliance with all applicable Federal, State and District Regulations and Permit conditions through continuing on-site visits by Inspection staff. Facilities inspected range from refineries, chemical plants, and high-technology industries, including small businesses such as gas stations, auto body shops, and dry cleaners. Additionally, strict enforcement of Toxic and Hazardous Material Regulations such as asbestos and diesel particulate rules has greatly minimized the public's risk and exposure to carcinogens. This program includes rapid response to incidents involving accidental emission of air pollutants, investigation to determine cause, and recommendations necessary to prevent reoccurrence. Incidents range from community odor episodes to releases of potentially hazardous pollutants from publicly-owned and private industrial sources. The program includes coordination with other agency responders, which work to ensure that response is complete, and that the public is protected to the greatest extent possible.		
Justification of Change Request: None.		
Activities		
Refinery Inspection Program for Regulatory and Title 5 Permit Compliance.		
Title V Inspections Program / EPA Grant / Aerometric Information Retrieval System (AIRS) and audits.		
Synthetic Minor Inspection Program.		
Initiate response to major air pollution incidents as soon as possible, and within minutes of notification, provide technical assistance and support to first response agencies during and after incidents; prepare incident reports.		
Asbestos, Grant, diesel PM, and Refrigeration Management Inspections Program.		
Conduct targeted auto body painting facility inspections.		
State Portable Equipment Inspection Program.		
Gasoline Dispensing Facilities (GDFs) Inspections Program.		
Inspection Communications / Computer Programs.		
Conduct targeted prescribed burns Title 17/ Regulation 5 Open Burning inspections.		
Perform analysis as required to track and analyze existing process safety management (PSM) programs, Federal and State risk management programs (RMP/RMPP); work with other agencies to improve programs.		
Participate in interagency activities, such as County environmental task forces, incident response teams, and other activities relating to prevention, preparedness and emergency response.		
Conduct targeted inspections at refinery/chemical plants and general facilities.		
Staff air quality related community meetings to provide information on District Programs		
MAJOR OBJECTIVES		Delivery Date
Refinery Inspection Program: Conduct compliance inspections and program audits of refineries and determine if Title V Permit Compliance are being met.		Yearly
Prepare and submit required reports to EPA, Negotiation of EPA 105 Grant Program Outputs.		10/1/2019

(PAGE INTENTIONALLY LEFT BLANK)

ENGINEERING DIVISION

Engineering Division (Division) gives high priority to the timely review of New Source Review permit applications and permit renewals. The typical application evaluation includes analyzing emissions impacts and determining compliance with applicable air quality requirements, including Best Available Control Technology (BACT), 'No Net Increase' offset requirements, New Source Review (NSR) of Toxic Air Contaminants (TACs) and California Environmental Quality Act (CEQA). There are about 10,000 facilities with about 22,000 devices and operations that have Air District permits. The Division also produces an annual stationary source emissions inventory for submittal to the California Air Resources Board (CARB) and the Environmental Protection Agency.

The Division processes, reviews, issues, and renews Title V (Major Facility Review) permits. Title V permits are renewed every five years and are updated to reflect changes that occur at the facilities. The Division will continue to implement the streamlining measures to improve the program.

The Division continues to transition to the Production System, which includes an online system for the regulated community. These tools will increase consistency, efficiency and accuracy by allowing customers to submit applications, report data for the emissions inventory, pay invoices and renew permits through an online interface. The Division is working to expand the functionality so that large, complex facilities will have their emissions inventory and permitting managed through the new system .

The Division is working on projects associated with the petroleum refineries, including developing improved emission factors for fugitive emission leaks from heavy liquid service components and implementing the Regulation 12, Rule 15 emission inventory guidelines. As required by Regulation 12, Rule 15, the Division is reviewing Annual Emissions Inventories, from the five refineries and their support facilities, and addressing deficiencies related to these submittals.

Senate Bill 1 (SB 1) and the State's expanded waste and organics diversion requirements will increase Bay Area permit activity substantially. The Division will work to process these applications and will be updating and developing emissions factors, Permit Handbook chapters, and BACT for landfills, green waste, material recovery facilities, composting, and asphalt/concrete facilities, to streamline permitting and provide consistency.

The Division implements Regulation 11, Rule 18, Reduction of Risk from Air Toxic Emissions at Existing Facilities. In the first phase, the Division expects to refine toxic emissions and prioritization scores for approximately 43 facilities, out of which an estimated 30 facilities are expected to undergo refined health risk assessments (HRAs). HRAs will be conducted to determine if the facilities are subject to the risk reduction requirements of this rule.

The Division implements the State Air Toxics "Hot Spots" Program, which applies to existing facilities that emit Toxic Air Contaminants (TACs). Adopted in 1987 in response to public concern about TAC emissions, this program requires facilities to report their TAC emissions to the Air District and CARB.

The Division is participating in the Air District's Assembly Bill 617 (AB 617) implementation, which includes a new Community Health Protection Program to benefit communities most directly affected by air pollution. The Division participates in the workgroups for the CARB BARCT/BACT Technology Clearinghouse, Technical Assessment Coordination, and Emissions Inventory with CARB and other air districts. Through CAPCOA, a uniform method of emissions reporting is being developed. The Division participates in AB 617 workgroups, including: West Oakland Action Plan, Monitoring Plan, Community Prioritization Plan and various implementation as part of the project oversight team.

The Division provides technical support to other divisions, agencies and programs, including rule development, emissions inventory, enforcement actions, the Technology Implementation Office, and the Air District's Regional Climate Action Plan. Key rule development efforts include Regulation 3 (Fees), amendments to Regulation 13 (climate pollutants), and rules to implement Expedited Best Available Retrofit Control Technology (BARCT).

To improve consistency and efficiency, the Division is developing a formal training program and updating policies, procedures, permit manuals and permit templates.

The Division provides quality customer service to industry and the public.

Permit Evaluation		501
Managing Division:		
Engineering		
Contact Person:		
Nicholas Maiden		
Program Purpose:		
Evaluate all Non-Title V permit applications. Review and process data updates and permit renewals.		
Description of Program:		
<p>The Permit Evaluation Program involves activities related to the evaluation of permit applications submitted to the District (except Title V permit applications, which are covered under Program 506). This includes applications for: (1) new/modified sources subject to District New Source Review requirements, (2) emissions banking, (3) Interchangeable Emission Reduction Credits (IERCs), and (4) Prevention of Significant Deterioration (PSD) & Acid Rain permits. Staff calculates emissions and evaluates compliance with regulatory requirements, including case-by-case Best Available Control Technology (BACT) and offset determinations. The program includes California Environmental Quality Act (CEQA) review and Climate Protection activities related to permitted sources.</p> <p>The Permit Renewal Program involves activities related to the annual renewal of District permits. The permit renewal process involves collection of data needed to update the Air District's emissions inventory, review of permit conditions, preparation of permit fee invoices, reconciliation of discrepancies and issuance of permit documents. Information gathered during this process is used for planning and rule development may also result in enforcement action or additional permitting.</p>		
Justification of Change Request:		
Not applicable		
Activities		
Evaluate all non-Title V permit applications (1,500 estimated).		
Complete CEQA-review functions.		
Provide technical support to all divisions including estimating emissions, rule/condition interpretations and rule development.		
Assist other agencies, industry and the public.		
Participate in cross-agency committees such as California Air Pollution Controls Officers Association (CAPCOA). Engineering Managers' Subcommittee and National Association of Clean Air Agencies (NACAA).		
Support implementation of rules (e.g., Refinery Regulations, GHG Regulations).		
Request, enter and review annual data update requests. Review and maintain permit conditions. Review permit renewal invoice program.		
Major Objectives		Delivery Date
Ensure the timely workflow of the permit renewal program		Ongoing
Implement Regulation 12-15 Petroleum Refining Emissions Tracking Emission Inventory Guidelines		6/30/2020

Air Toxics	503
Managing Division: Engineering	
Contact Person: Sanjeev Kamboj	
Program Purpose: To develop and implement an effective air toxics control strategy that integrates Federal, State, and local requirements.	
Description of Program: The Air Toxics Program involves the integration of Federal and State air toxics mandates with local goals that have been established by the Air District's Board of Directors. The program includes air toxics new source review (NSR), reduction of risk from existing facilities (Regulation 11, Rule 18), air toxics control measures, the Air Toxics "Hot Spots" Program, which includes maintaining an air toxics emissions inventory and research for alternative methods of reducing emissions. Staff provides modeling of emissions as needed.	
Justification of Change Request:	
Activities	
Perform health risk screening for new/modified permit applications, and more detailed health risk assessments (HRAs) as required (250 estimated).	
Implement Regulation 11, Rule 18, Reduction of risk from air toxic emissions at existing facilities. Refine toxics emission inventory, prioritization scores and perform approximately 160 refined facility-wide HRAs to determine if these facilities are subject to Rule 11-18.	
Review health risk assessments and Prevention of Significant Deterioration (PSD) modeling analyses for major permit applications.	
Maintain air toxics emissions inventory.	
Complete annual air toxics prioritization, Assembly Bill 2588 (AB2588), and review any new health risk assessments that may be required. Coordinate public notification and risk reduction audits.	
Coordinate with Planning staff regarding data needs for updated California Environmental Quality Act (CEQA), Guidelines and Thresholds of Significance.	
Publish periodic Air Toxics Emissions and Air Toxics Control Program Report.	
Conduct studies that reduce toxic air pollution.	
Support rule development efforts for reducing PM _{2.5} once health effect values for PM _{2.5} become available from Office of Environmental Health Hazard Assessment (OEHHA).	
Major Objectives	Delivery Date
Implement Phase 1 of Regulation 11, Rule 18, Reduction of Risk from Air Toxic Emissions at Existing Facilities.	Ongoing
Continue to collect GDF risk data to incorporate 2015 OEHHA HRA guidelines for gas stations in the Toxics NSR Rule 2-5	Ongoing
Support Air District's AB 617 activities.	Ongoing
Prepare and submit annual toxic emissions data (AB2588) to California Air Resources Board.	4/15/2020

Permit Operations		504
Managing Division:		
Engineering		
Contact Person:		
Fred Tanaka		
Program Purpose:		
Development and maintenance of permitting systems		
Description of Program:		
The Permit Operations program involves the collection, updating and maintenance of data for permitted sources of air pollution, and the development and maintenance of systems to manage these data. Data include source locations, operational data, emission factors, emissions inventory, emissions banking and "no net increase" tracking. Additional program activities include maintaining procedures, coordination & tracking of permit-related activities, general office activities and customer support.		
Justification of Change Request:		
Not applicable		
Activities		
Process and maintain data from permitted facilities.		
Update and correct data from permitted facilities.		
Maintain and update database systems.		
Maintain program forms.		
Manage and improve data quality.		
Provide administrative permit activities.		
Maintain permit tracking and management programs.		
Maintain emissions bank and small facility bank.		
Maintain division pages on website.		
Manage division records including metadata and documents.		
Provide customer support.		
Major Objectives		Delivery Date
Produce annual stationary source emissions inventory to California Air Resources Board (CARB) and EPA		1/31/2020

Title V		506
Managing Division:		
Engineering		
Contact Person:		
Sanjeev Kamboj		
Program Purpose:		
Implementation of Federal Operating Permit Program for Major Facilities.		
Description of Program:		
The Title V program involves activities related to Title V of the Federal Clean Air Act (CAA), which requires the Air District to issue federally enforceable permits to major and other designated facilities. The program is intended to enhance compliance with the CAA via permits that explicitly include all Federal, State, and Air District requirements applicable to sources of air pollution at subject facilities.		
Justification of Change Request:		
Activities		
Evaluate and process Title V applications (initial, revisions and renewals).		
Conduct Title V outreach activities and public hearings, as needed.		
Provide Title V training to the Air District staff.		
Track EPA rulemaking related to Title V, Section 112, compliance monitoring and acid rain.		
Major Objectives		Delivery Date
Implement streamlining measures and ensure timely issuance of the Title V applications.		Ongoing

Engineering Special Projects		507
Managing Division: Engineering		
Contact Person: Fred Tanaka		
Program Purpose: Develop the infrastructure for consistent and efficient permit evaluation and processing, and complete projects intended to develop and improve programs within the Engineering Division.		
Description of Program: The Engineering Special Projects program involves activities that are intended to ensure consistent, efficient, and high-quality, permit evaluation and processing. This includes the development of permit rules, policies, procedures, training and tools within the division. The program involves the deployment of the Production System including an online portal for customer to submit information electronically. Goals of the program include the reduction of time and effort needed to evaluate and issue permit applications, and the improvement of the quality of permit services provided such as training and tools for internal and external customers. The program also implements public noticing, public records fulfillment and other projects not specified in other Division programs. Planning and implementation of AB 617 activities are also handled in this program.		
Justification of Change Request: Not applicable		
Activities		
Develop and maintain District permit rules, policies and procedures.		
Coordinate review and modification of standard permit conditions.		
Update permitting tools such as Permit Handbook, Best Available Control Technology (BACT) and Toxic Best Available Control Technology (TBACT) Workbook documents.		
Improve division business processes.		
Review and improve the point source emissions inventory.		
Manage training program.		
Coordinate Public Noticing activities.		
Process Public Records Requests for division records.		
Update emissions factors, permit handbook chapters, and BACT workbook to streamline applications and provide consistency for Asphalt and Concrete applications.		
Develop/update a permitting program for landfills, green waste, material recovery facilities and composting which includes emissions factors, permit handbook chapters, and BACT workbook to streamline permitting and increase consistency.		
Implement AB 617 work including inventory, rule development, technology clearinghouse development, community risk reduction and re-envisioning of permitting in impacted communities.		
Major Objectives		Delivery Date
Complete and submit Interchangeable Emission Reduction Credit (IERC) report to California Air Resources Board (CARB).		3/1/2020
Complete and submit Offset Equivalence report for EPA.		3/1/2020
Develop permit program for large wine producers.		5/1/2020
Implement New Production System functionality.		ongoing
Implement AB 617 work (inventories, rule development, technology clearinghouse development, community risk reduction, re-envisioning of permitting in impacted communities)		6/30/2020
With increased waste and organics diversion requirements by the State, the Organics Recovery Program will be developed to streamline permitting and increase consistency. Emissions factors, permit handbook chapters, and BACT will be updated and/or developed for landfills, green waste, material recovery facilities and composting.		6/30/2020

(PAGE INTENTIONALLY LEFT BLANK)

ASSESSMENT, INVENTORY, AND MODELING DIVISION

The Assessment, Inventory, and Modeling Division prepares comprehensive source emission inventories for the Bay Area, conducts air quality modeling at both regional and community scales, and prepares technical assessments that combine modeling and measurements. Division staff coordinates and implements programs to improve and report estimates of emissions of criteria pollutants, toxic air contaminants, and climate forcing pollutants. Division staff assesses emissions, concentrations, and exposures of toxic air contaminants, particulate matter, ozone and their precursors, to support targeted strategies that reduce impacts of air pollution both regionally and within communities, especially where AB 617 community action plans are being developed. Division staff reviews and provides guidance on environmental health risk assessments within environmental review documents prepared pursuant to California Environmental Quality Act (CEQA).

In FYE 2020, staff will continue to implement the multi-pollutant Bay Area 2017 Clean Air Plan (2017 Plan), which addresses ozone, particulate matter, toxic air contaminants and greenhouse gases (GHGs). The 2017 Plan includes goals to attain all ambient air quality standards, eliminate disparities in health risk from air pollution, and reduce regional GHG emissions 40% below 1990 levels by 2030 and 80% below 1990 levels by 2050. To meet the requirements of AB 617, staff will work to produce technical assessments to support community air quality action plans, including: identifying and prioritizing impacted communities, coordinating with community co-leads Steering Committees to reduce emissions and exposures, and providing tools and products that inform local strategies.

In FYE 2020, staff will analyze aerometric data, conduct regional modeling, and apply statistical analyses to support the District's grant programs, rule development, permitting, climate protection, and planning activities. Staff will conduct source apportionment analyses and hybrid photochemical and dispersion modeling, characterize emissions and air quality, and assess air quality health impacts to support AB 617. Staff will continue to work with CARB, U.S. EPA, NOAA, NASA, Northern California air districts, and other stakeholders on the regional modeling, focused mainly on ozone, air toxics and PM. These studies involve field measurements, use of satellite data, emissions inventory development, modeling, and analysis of air quality and pollutant transport in North Central California. Staff will further improve modeling emissions estimates and continue conducting data analysis and modeling to better understand formation of fine and ultrafine PM, ozone and air toxics, and their health impacts in the Bay Area. Staff will investigate transport of pollutants between the Bay Area and neighboring regions and intercontinental transport of pollutants.

In FYE 2020, Division staff will continue work with other divisions on the technical analysis, outreach, and risk reduction components of the CARE Program. AB 617 will require an expansion of the CARE program's technical work, including: updates to regional-scale air toxics emissions estimates and modeling; an expanded program focused on local-scale emissions inventory development and modeling of air toxics and fine particulate matter; assessment via measurements and analyses in impacted communities of fine particulate matter and air toxic emissions and modeling; identifying impacted communities; and working with State agencies, cities, counties, local stakeholders and others to develop and implement community action plans. Division staff supports the work of other Divisions in reviewing health risk assessments within CEQA documents to provide comments where assessments are inconsistent with Air District guidance.

Many programs in the Division are supported by updating and reporting inventories of air pollutant emissions. In FYE 2020, Division staff will work with other divisions to review emissions inventory products and develop a quality assurance plan for them. Updated emissions methods and databases are needed for assessing impacts of pollution sources and to meet reporting and rule development requirements of the District. New requirements from CARB, posed by AB 617 and the Criteria and Toxic Report Rule, require annual emissions reports for toxics and criteria pollutants for major emitters and improved consistency in methods for estimating emissions across California's air districts. In FYE 2020, staff will conduct measurement studies of methane and other GHGs to support rule-making and compliance and enforcement efforts; and refine and maintain the Bay Area GHG emission inventory and improve GHG emissions forecasts. Staff will coordinate with other Divisions to develop improved methane emissions from the waste sector, including composting.

Source Inventories		601
Managing Division: Assessment, Inventory, and Modeling		
Contact Person: Phil Martien		
Program Purpose: Compile source inventories for criteria pollutants, toxic air contaminants (TACs) and greenhouse gases (GHGs) for planning, rule development, exposure assessments, and public information. Develop emissions forecasts to assist in developing effective projects and programs to reduce health risks from air pollution and to reduce levels of climate-forcing pollutants.		
Description of Program: Staff assigned to this program compiles an inventory of all significant sources of air pollution emissions (criteria pollutants, TAC, and GHGs) in the Bay Area, and estimates the quantity, timing, and spatial distribution of emissions from each source or category of sources. The inventory includes emissions from industrial sources, motor vehicles, commercial activities, agricultural activities, residential and consumer products, and natural sources. Source inventories are used as a starting point for preparing regional and local air quality plans and for developing rules to control emissions. Inventory calculations are also used to track progress in implementing plans and demonstrating attainment. To meet State requirements, the Source Inventories Program reports permitted source emissions to the California Air Resources Board (CARB) annually. CARB's newly adopted Criteria and Toxics Reporting Regulation will require additional staff time and resources to develop and report emissions from permitted facilities using methods standardized across California air districts. These emissions are, in turn, reported by CARB to the public and to U.S. EPA. Staff coordinates the development of emissions estimates for local-scale exposure assessments and for local air quality action plans required by Assembly Bill 617 (Garcia, 2017). Staff also prepares and maintains GHG emission inventories and forecasts for the region, with special, near-term focus on methane from permitted facilities, including composting facilities, landfills, and other waste-sector sources.		
Justification of Change Request:		
Activities		
Prepare point and area source emissions estimates to report to CARB, including criteria pollutants, TAC, and GHG emissions. Coordinates with Engineering Division to ensure reports are consistent with the new Criteria and Toxics Reporting regulation.		
Provide inventory information to Air District staff to support various programs: Modeling and Analysis, Strategic Incentives Division, Rule Development, Communications, Community Engagement, Climate Protection, and CARE programs, including detailed local emissions for local air quality Action Plans.		
To support multiple Air District programs, refine and evaluate emissions estimates, with emphasis on non-CO2 GHGs such as methane, TAC, and fine particulate matter, incorporating new measurement and analysis techniques.		
Continue to develop the emissions inventory reporting platform, improving the District's ability to report and evaluate emissions inventory estimates.		
Refine GHG scenario forecasts to improve tracking of state, regional, and local GHG reduction measures and quantify the level of additional reductions needed to meet GHG reduction targets.		
Lead an Emissions Inventory Editorial Board at the Air District that implements staged improvements in methods for estimating and reporting emissions, adopting methods standardized across the State to meet AB 617 emissions reporting requirements.		
Provide emission inventory information requested by the public and by consultants.		
Major Objectives		Delivery Date
Transmit detailed point and area source data to CARB's CEIDARS data base.		12/31/2019
In coordination with Climate Protection Program and other Divisions, incorporate measurements and/or new models to develop methane emissions estimates at Bay Area composting facilities.		3/31/2020
Develop activity datasets and methods to develop hyper-local emissions estimates to support AB 617 Community Action Plans.		6/30/2020

Air Quality Modeling Support		603
Managing Division: Assessment Inventory and Modeling		
Contact Person: Saffet Tanrikulu		
Program Purpose: Provide technical support to the District's initiatives and collaborative activities through modeling and air quality analyses.		
Description of Program: This program provides technical support to various District activities, including: Assembly Bill 617 related programs, the Air Quality Planning Program, Strategic Incentives Division programs, the Climate Protection Program, the Spare the Air Program, the ambient data Quality Assurance (QA)/Quality Control (QC) Program, the Central California Air Quality Studies (CCAQS), and the California Baseline Ozone Transport Study (CABOTS). It also manages the District's modeling- and data analysis-related contracts; participates in the District's rule development, permit modeling, air monitoring and emissions inventory/exposure assessment activities; and responds to requests from District staff and the public for ambient data. It also collaborates with federal and state agencies to assess pollutant exposure, health impacts and international pollutant transport.		
Justification of Change Request: Additional resources are needed to purchase a modeling computer to support AB617-related analyses		
Activities		
Support Assembly Bill 617: perform PM and air toxics modeling, assess air quality and health benefits of proposed and adopted emission controls, and assess contributions of locally generated vs transported pollutants.		
Support the Climate Protection Program: analyze ambient data, conduct modeling, help design monitoring programs, evaluate GHG emissions estimates and analyze trends.		
Support District's Air Quality Planning Program: conduct data analysis and modeling.		
Support the Strategic Incentives Division: create and update maps to prioritize grant projects.		
Respond to internal/external aerometric data requests.		
Manage the District's data analysis and modeling-related contracts: prepare work statements, review and evaluate contractors' progress and invoices, and review final project deliverables.		
Perform air quality modeling and data analysis to support the District's rulemaking activities: apply CALMET/CALPUFF models to evaluate air quality and health benefits of proposed emission reductions.		
Support permitting activities: apply the AERMOD model to accommodate the District's non-PSD modeling needs and prepare meteorological inputs for AERMOD to support permit modeling.		
Participate in CARB's CCAQS and CABOTS programs: participate in the Technical and Policy Committee meetings, and provide in-kind support to their modeling and data analysis and emissions inventory preparation efforts.		
Participate in the ambient air monitoring program: perform QA/QC on meteorological data, and review and update the District's aerometric data needs.		
Major Objectives		Delivery Date
Perform PM and air toxics modeling and analyses to assess pollutant formation in the Bay Area as well as at selected communities and document the results.		6/30/2020
Update health impact analyses of ozone and PM in the Bay Area as well as selected communities and document the results.		6/30/2020
Perform source apportionment analyses to quantify the contribution of various emission sources to ambient air quality in the Bay Area as well as within selected communities.		12/31/2019
Verify the District's aerometric data for 2018 and prepare meteorological inputs to AERMOD.		12/31/2019
Perform WRF/CMAQ modeling and analyses to support the District's rule development efforts.		12/31/2019
Update emissions inventory spatial surrogates, and plume-in-grid and condensable PM modules to improve AB617-related modeling.		6/30/2020
Conduct a representativeness study and cluster analyses to develop a conceptual model for pollutant formation.		12/31/2019
Collaborate with staff of Emissions & Community Exposure Assessment Section to update health risk analysis for air toxics.		6/30/2020

Air Quality Modeling & Analysis		604
Managing Division: Assessment Inventory and Modeling		
Contact Person: Saffet Tanrikulu		
Program Purpose: Perform air quality modeling and data analyses to evaluate emission control strategies to attain and maintain air quality standards.		
Description of Program: This program maintains and applies state-of-the-science meteorological, emissions inventory and air quality models to investigate the formation of ozone, fine and ultrafine particulate matter (PM _{2.5} and PM _{0.1}), and toxic air contaminants in the Bay Area; assesses the attainment status of the Bay Area with respect to Federal and State standards; supports Federal and State air quality plan development activities; quantifies the transport of ozone, PM and toxic air contaminants and their precursors within the Bay Area as well as between the Bay Area and neighboring districts; and quantifies the health impacts of ozone, PM, and toxic air contaminants. This program also includes analyses of ambient data, preparation of model inputs, monetary valuation of air pollution impacts in the Bay Area, maintenance of the District's cluster computer system, development of graphics and statistical programs to evaluate model inputs and outputs, and collaboration with modeling and air quality planning staff of CARB, U.S. EPA, NOAA, NASA, neighboring districts, industry, academia and other stakeholders.		
Justification of Change Request:		
Activities		
Maintain and apply air quality models to investigate ozone, PM _{2.5} , PM _{0.1} , and toxic air contaminants formation in the Bay Area, as well as their regional transport.		
Maintain and apply meteorological models to prepare inputs to air quality models.		
Maintain and apply emissions inventory models to prepare inputs to air quality models.		
Maintain and apply air pollution health impacts and monetary valuation models.		
Prepare ambient data for model inputs and evaluation of model outputs.		
Conduct ambient data analyses for ozone, PM _{2.5} , PM _{0.1} and toxic air contaminants to characterize each pollutant's formation in the Bay Area; develop conceptual models for pollutant formation.		
Evaluate and improve model performance for multi-pollutant applications.		
Maintain the District's cluster computer system on which models are run.		
Develop graphics, analysis and model evaluation tools.		
Develop in-house staff expertise related to modeling and air quality analysis.		
Coordinate Modeling Advisory Committee meetings.		
Analyze the Bay Area's status relative to national and state ambient air quality standards.		
Conduct source apportionment studies and trend analyses.		
Major Objectives		Delivery Date
Evaluate and improve WRF meteorological model performance to support CMAQ applications.		6/30/2020
Update and improve spatial surrogates and temporal profiles used for gridding and temporalizing county-level emissions estimates for modeling.		12/31/2019
Evaluate and improve CMAQ model performance for multipollutant simulations.		6/30/2020
Evaluate and update BenMAP for assessing health impacts of ozone, fine particulate matter, ultrafine particulate matter and toxic air contaminants.		6/30/2020
Maintain and evaluate the CALMET/CALPUFF modeling system for local-scale model applications.		6/30/2020
Maintain and evaluate the AERMOD model for non-PSD model applications.		6/30/2020
Update analysis of CMAQ sensitivity to emission reductions for PM, toxics and ozone and assess Bay Area trends.		6/30/2020
Maintain the meteorological and air quality database and update analyses of ambient data for selected PM, toxics and ozone simulation periods.		6/30/2020
Update modeling software and computer libraries.		6/30/2020

Community Air Risk Evaluation (CARE)		609
Managing Division: Planning and Climate Protection		
Contact Person: Phil Martien		
Program Purpose: Evaluate community health risks from ambient toxic air contaminants (TACs), fine particulate matter (PM) and other pollutants. Focus mitigation measures on locations with higher exposures and risk levels and vulnerable populations. Develop mitigation strategies for local sources of interest and new and existing development near busy roadways and other air pollution sources. Partner with other Air District staff and community members to execute requirements develop tools, analyses, and products to support local air quality Action Plans.		
Description of Program: The District's CARE program targets risk reduction activities in areas where impacts of TACs, fine PM, and other pollutants are greatest. The CARE program helps to coordinate emissions inventory development, air modeling, air monitoring, analysis of health records and socio-economic datasets, and exposure and health assessments to identify areas with vulnerable populations and relatively high air pollution. Information derived from these activities is used to focus District risk reduction activities, such as rulemaking, grant and incentive programs, partnerships with local agencies on local plans and programs, collaboration with public health professionals, development of community risk reduction plans, advocacy of State and local regulatory programs, community engagement processes to improve public health in the most impacted communities, and other activities. The CARE program actively participates in the development of local air quality Action Plans required by Assembly Bill 617.		
Justification of Change Request: AB 617 imposes major new requirements. These new requirements will require additional products from the CARE Program on a specified timeline. Additional resources will be required in Program 609 to meet the deadlines for ranking Bay Area communities within the Air District and for engaging with communities to develop local air quality Action Plans. Additional resources also will be required for Program 609 to develop technical products to support the local Action Plans.		
Activities		
Manage and coordinate the CARE program.		
Conduct local-scale modeling and analyses to support risk screening tools that support the development of local air quality action plans and that help promote healthy development.		
Participate in outreach and assist in evaluating community risks and hazards, through measurement and modeling programs.		
Compile demographic and health statistics data for the Bay Area.		
Attend community meetings to understand local concerns and provide updates on the CARE program.		
Develop and improve modeling methods to identify emission sources and source areas affecting impacted communities.		
Develop mitigations for sources of interest and mitigation strategies for new and existing development near busy roadways and other air pollution sources.		
Update and refine regional emissions estimates of TAC.		
Coordinate efforts and share tools across the District to improve data analysis and assessments.		
Support enhanced data visualization/analysis tools for community partnerships and local planning guidance.		
Major Objectives		Delivery Date
Develop and document improved tools to conduct efficient community-scale modeling to support AB 617 Community Action Plan development.		6/30/2020
Collaborate with Air Quality Modeling & Analysis Section and Meteorology & Measurements Division to develop community prioritization methods, incorporating regional modeling, measurements, and health records.		12/31/2019
Develop visualization methods and products that improve communication of technical assessments of local exposures to air pollution.		9/30/2019
Conduct foundational work to implement community-scale modeling in Richmond and other communities.		6/30/2020

PLANNING AND CLIMATE PROTECTION DIVISION

The Planning and Climate Protection Division develops and implements local community emissions reduction plans per AB 617 and prepares plans to meet State and Federal air quality standards. Division staff coordinates and implements climate protection activities through the Climate Protection Section. Division staff analyzes ambient and emissions data for toxic air contaminants, particulate matter, ozone and their precursors, and develops and implements programs to reduce exposures. Division staff works with cities, counties and other agencies to encourage transportation and land use decisions that improve air quality and protect the climate. Division staff prepares, reviews and provides guidance on environmental documents prepared pursuant to California Environmental Quality Act (CEQA).

In FYE 2020, staff will continue to implement the multi-pollutant Bay Area 2017 Clean Air Plan (2017 Plan), which addresses ozone, particulate matter, toxic air contaminants and greenhouse gases (GHGs). The 2017 Plan includes goals to attain all ambient air quality standards, eliminate disparities in health risk from air pollution, and reduce regional GHG emissions 40% below 1990 levels by 2030 and 80% below 1990 levels by 2050. To meet the requirements of AB 617, staff will continue to develop and implement the West Oakland Community Action Plan. Through close coordination with community partners and the steering committee, staff will identify and prioritize pollution and exposure reduction strategies, conduct community engagement, implement measures to reduce emissions and exposure, and provide land use guidance. Staff will begin community engagement and emissions reduction planning in additional AB 617 communities. Staff will continue to work with local lead agencies, regional agencies, and others to update and implement the CEQA Guidelines. Staff will provide technical assistance to cities and counties on climate protection, local plans including environmental justice elements per SB 1000, and environmental review processes. Staff will track the development of new national ambient air quality standards and associated planning requirements. Staff will continue to work with Cal-EPA, the California Air Resources Board (CARB), and Federal, State, regional and local agencies to reduce emissions associated with ports and goods movement and implement other mobile source programs.

In FYE 2020, staff will implement GHG emission reduction measures identified in the 2017 Plan, guided by staff's work to coordinate and implement the Methane Strategy and by developing strategies to reduce CO₂ and F-gases. Staff will: administer the Climate Protection Grant Program; support the Diesel Free by '33 initiative; complete an update to CEQA Thresholds for GHGs; develop best practices and resources for local governments related to green waste handling and composting per SB 1383; develop rules and rule amendments to reduce GHGs; work with CARB to coordinate state and regional climate programs; assist local governments with the development and implementation of climate action plans and local GHG reduction strategies; develop model ordinances and best practices to accelerate local policy adoption for reducing GHGs; collaborate with regional agency partners to implement Plan Bay Area and develop its next iteration; work with partner agencies to implement regional GHG reduction strategies through the Bay Area Regional Collaborative; support measurement studies of methane and other GHGs that support rule-making and compliance and enforcement efforts; and refine and maintain the Bay Area GHG emission inventory and improve GHG emissions forecasts.

Air Quality Plans		602
Managing Division: Planning and Climate Protection		
Contact Person: Dave Vintze		
Program Purpose: Prepare and track effectiveness of plans to attain and maintain State and National ambient air quality standards and local community emission reduction plans per AB 617.		
Description of Program: This program has historically involved the preparation of plans required for attaining or maintaining State and National air quality standards. This includes the preparation of State Triennial Updates (Clean Air Plan), and any SIP related submittals to EPA for national planning requirements. Air districts are now required to develop local community action plans per AB 617, the Community Health Protection Program. All three of these planning requirements will involve cooperation of various District staff and cooperation with ABAG, MTC, CARB, EPA, local governments and community groups. Preparing CEQA documents for air quality plans as necessary, tracking the effectiveness of air quality plans, ensuring compliance with State and national air quality planning requirements, and reporting to CARB and EPA are included in the program. This program also includes tracking and commenting on proposed State and National air quality standards and planning requirements.		
Justification of Change Request: Additional resources are requested to prepare the year 2 local community action plan called for in AB 617, the associated CEQA compliance document, and to track implementation of the West Oakland Community Action Plan. The District will also need to begin preparation of background studies and work on years 3-5 communities during FYE 2020.		
Activities		
Participate in Statewide planning activities related to AB 617 implementation		
Develop tracking mechanism for the West Oakland Community Plan		
Begin background studies and data development activities for years 2-5 AB 617 communities		
Coordinate preparation of community action plans per AB 617		
Participate in planning activities related to State and Federal ambient air quality standards.		
Track development of new or amended State and Federal ambient air quality standards.		
Prepare any documents or technical analysis needed to meet new State or Federal planning requirements for ozone and PM2.5.		
Track implementation of control measures in the 2017 Clean Air Plan.		
Update District website with current air quality planning requirements and/or information related to proposed revisions to State and federal ambient air quality standards.		
Prepare CEQA document for the AB 617 community action plan.		
Major Objectives		Delivery Date
Prepare AB 617 community action plan for the year 2 community when chosen		4/30/2020
Prepare annual review of West Oakland Action Plan control measure implementation per AB 617		6/30/2020
Conduct land use studies and background mapping of emission sources in years 2-5 communities		6/30/2020
Prepare CEQA document for the year 2 AB 617 community action plan		6/30/2020
Submit other planning documents to CARB and EPA as required in FYE 2020 timeframe.		6/30/2020

Mobile Source Measures		605
Managing Division: Planning and Climate Protection		
Contact Person: Dave Vintze		
Program Purpose: Implementation of regional land use, mobile source and transportation measures.		
Description of Program: State and Federal laws require air districts to implement mobile source and transportation measures to attain and maintain ambient air quality standards and to reduce emissions and exposure to fine particulate matter and toxic air contaminants in disproportionately impacted communities. To this end, District staff works with CARB, MTC, ABAG, CMAs, cities, counties, transit operators, Caltrans, and other agencies and community organizations to encourage and facilitate implementation of mobile source and transportation measures and to implement the 2017 Clean Air Plan. This program also includes consultation with other agencies regarding land use and transportation planning activities to minimize the potential land use compatibility conflicts of locating sensitive receptors in close proximity to local sources of air pollution. In addition, this program also includes analysis of air quality impacts of plans and projects through CEQA and other environmental review processes, and transportation/general conformity determinations. Staff also works with State and local agencies to reduce emissions from ports and goods movement, and participates in CARB rulemaking processes.		
Justification of Change Request:		
Activities		
Provide guidance to cities and counties on air quality and infill development related to the Planning Healthy Places guidance document. Work with CAPCOA to update land use guidance documents and emission estimate models.		
Collaborate with other regional agencies to implement Plan Bay Area, TOD and smart growth in the Bay Area.		
Participate in Statewide effort to update the CalEEMod land use emission model.		
Respond to questions from cities, counties and other agencies regarding air quality analysis procedures for CEQA documents; review and send comment letters on environmental documents for major development projects and plans.		
Implement control measures in the West Oakland Community Action Plan.		
Implement control measures in the 2017 Clean Air Plan, including green waste diversion and zero waste model ordinances.		
Work with MTC and others on implementation of transportation measures in the 2017 Clean Air Plan and West Oakland Community Action Plan.		
Work with EPA, CARB, and various Federal, State, regional and local agencies on mobile source programs, e.g., ports, goods movement, railroads, shipping.		
Participate on regional and statewide Transportation Conformity Task Forces.		
Track CARB actions for on-road and off-road mobile sources and fuels, and Bureau of Automotive Repair actions on vehicle inspection and maintenance; attend workshops and hearings and prepare comments as appropriate.		
Evaluate and promote use of alternative fuels, e.g., hydrogen, biodiesel, etc.		
Assist MTC and the Compliance and Enforcement Division with the implementation and evaluation of the commuter benefits program.		
Assist in the development of climate action plans and community action plans per AB 617.		
Provide consultation to Federal agencies regarding general conformity review of non-transportation projects.		
Maintain & update webpages re: CEQA guidelines, smart growth, Planning Healthy Places, etc.		
Major Objectives		Delivery Date
Implement the control measures in the West Oakland Community Action Plan		6/30/2020
Assist with project level TAC/PM2.5 air quality analysis for Station Area Plans, Transit Priority Projects and Priority Development Areas to assist local jurisdictions in moving these projects forward.		6/30/2020
Prepare comment letters regarding air quality impacts of Bay Area development projects and plans for CEQA documents.		6/30/2020
Complete development of an offsite mitigation program per the 2017 CAP		6/30/2020
Participate in Port of Oakland Maritime Air Quality Improvement Plan update & implementation processes.		6/30/2020
Develop model green waste diversion and zero waste model ordinances, and composting best practices guidance consistent with 2017 CAP control measures		12/31/2019
Participate in CAPCOA update to land use guidance documents and CalEEMod model.		6/30/2020

Climate Protection		608
Managing Division: Planning and Climate Protection		
Contact Person: Abby Young		
Program Purpose: Set the strategic direction for and coordinate agency-wide efforts to accelerate the reduction of climate pollutants and integrate climate protection into Air District programs to reduce criteria and toxic air pollutants.		
Description of Program: Air District climate protection activities for FYE 2020 will be coordinated by the Climate Protection Section and will include: developing pollutant-based strategies to coordinate and accelerate the implementation of the 2017 Clean Air Plan, including finalizing the Methane Strategy and developing new basin-wide strategies for reducing CO2 and F-gases; administering the 2018 Climate Protection Grant Program; supporting the development of proposed rules to reduce GHGs; conducting methane and CO2 measurement studies to support rule-making and other programs, including AB617 activities; supporting local implementation of GHG reductions through the development of model ordinances and best practices, supporting community choice energy programs, and assistance in implementing strategies to reduce GHG emissions from key sectors including buildings, transportation and waste (organics); developing implementation programs for the Diesel Free By '33 initiative; working with the research community on issues related to climate change and public health; working with stakeholder groups to develop public outreach and education initiatives to reduce GHG emissions, including on the topic of low-GHG diets; continued collaboration with local, regional, state, and national agencies on climate protection efforts; and continued integration of climate protection strategies in existing Air District programs, such as AB 617.		
Justification of Change Request:		
Activities		
Lead multi-divisional efforts to develop comprehensive, pollutant-based strategies to implement the Clean Air Plan, including a carbon dioxide strategy and an F-gas strategy.		
Continue to collaborate and lead stakeholder processes for developing the Basin-wide Methane Strategy.		
Contribute a GHG component to M&M air quality measurement project measuring localized concentrations of pollutants.		
Collaborate with Rule Development, Emissions Inventory, Compliance and Enforcement and other divisions on emissions studies to support rule-making and policy development.		
Implement the 2018 Climate Protection Grant Program to reduce GHGs from existing buildings and support innovative strategies with potential for long-term GHG reductions across multiple sectors.		
Support the Diesel Free By '33 initiative by coordinating internal Air District activities, developing content, supporting the management of the Diesel Free network, and assisting with convenings and overall development of the initiative.		
Support local climate action plans via technical assistance, model ordinances, and best practices, particularly in the areas of organic waste reduction, active and low-GHG transportation, and zero net energy/carbon buildings.		
Develop tools and standardized methodologies to assist local government in developing GHG emission inventories.		
Support the work of community choice energy programs in increasing participation in zero-carbon electricity options.		
Work with stakeholder groups to promote low-GHG diet alternatives and programs.		
Support increased research and policy development on the intersection of climate change and health, particularly in the areas of wildfires and heat.		
Provide support for climate-related rule development activity.		
Provide climate leadership in the Bay Area through convening events and providing networking and information-sharing opportunities for local governments and stakeholder groups.		
Coordinate the integration of climate protection strategies in existing Air District programs.		
Participate in regional climate protection programs with BARC, MTC, ABAG, and BCDC.		
Participate in Statewide and regional Scoping Plan and Plan Bay Area implementation efforts.		
Work with local, regional, state and federal agencies and organizations to coordinate climate protection efforts.		
Major Objectives		Delivery Date
Develop/finalize Methane, Carbon Dioxide, and F-gas strategies for implementing the Clean Air Plan		6/30/20
Implement GHG reduction strategies identified in the 2017 Clean Air Plan.		6/30/20
Administer the 2018 Climate Protection Grant Program.		6/30/20
Support rule development and emissions inventory through GHG measurement activities.		6/30/20
Develop and implement activities to support the Diesel Free initiative		6/30/20
Implement control measures/strategies for the existing residential and commercial building stock.		6/30/20
Implement strategies to divert organics from the waste stream, support community choice energy programs and strategies that support low- and no-GHG transportation.		6/30/20

COMMUNITY ENGAGEMENT AND POLICY DIVISION

The Community Engagement and Policy Division is responsible for engaging the public in the Air District's programs and developing control measures and regulations to reduce air pollutant emissions in the Bay Area. The Community Engagement Program engages the public, including students, community residents, advocates and other stakeholders, about Air District programs and air quality issues; responds to inquiries from the public about Air District programs and the purpose and functions of the Air District; and develops effective clean air partnerships with non-profit organizations. The Rule Development Program is responsible for the development of regulations to implement Air District plans to attain Federal and State air quality standards, and to protect public health. In addition, staff reviews existing regulations and develops revisions to improve clarity, efficiency and effectiveness.

Community Engagement		302
Managing Division: Community Engagement and Policy Division		
Contact Person: Luz Gomez		
Program Purpose: Act as the District's main point of contact with the public to increase public awareness, engage local community organizations in Air District activities and assist the public in understanding the roles that the public, business community and the Air District have in controlling air pollution.		
Description of Program: The Community Engagement Office also facilitates stakeholder engagement in Air Districts' programs; plays a key role in AB 617 implementation; implements the Public Participation Plan; manages issue-specific advisory groups, oversees Supplemental Environmental Programs, Resource Teams, and Sponsorships; and oversees the Community Grant Program.		
Justification of Change Request: The Professional Service budget has been increased from FYE 2019 to account for expanded responsibilities under AB 617 implementation, including an Assistant Manager position, new contracts with community-based organizations for local planning efforts and a new Community Technical Assistance Center. Other increases: We anticipate increased out-of-state travel for our Division Director and other staff member to attend key conferences, Categories for other professional services remain the same as prior years or have been reduced.		
Activities		
AB 617: Work in partnership with community groups and across Air District Divisions to implement AB 617. West Oakland Action Plan, Richmond Monitoring Plan and years 2-5 community engagement activities.		
Community Technical Assistance/Sensor Center: Provide community engagement perspective and support to new center.		
Youth Engagement: Plan two youth summits in 2019 and a YES conference in 2020. Develop Youth Engagement strategy.		
Community Grant Program & School Community Grants: support regional community education partnerships		
Public Participation Plan: update and implementation		
Supplemental Environmental Projects (SEP): program to install air filtration systems at schools in AB 617 priority communities		
Transformative Climate Communities: manage contract and support subcontractors in implementing climate-protective projects		
Receive public inquiries and coordinate response with appropriate Air District divisions.		
Represent Air District with various stakeholders, community organizations and regional collaborations, including GARE		
Guide, support, and coordinate public involvement activities for Air District divisions.		
Actively participate and provide direction to the Air District's Spare the Air Resource teams.		
Facilitate informational presentations by Air District staff to community groups, school groups, international delegations, etc.		
Facilitate multilingual assistance and access to the Air District.		
Maintain and expand air quality education for Limited English Proficient populations in Chinese, Tagalog, Spanish and Vietnamese in print, recorded and web-based (SparetheAirNow.org and BAAQMD.gov) formats.		
Major Objectives		Delivery Date
Implement multiple aspects of AB 617 and track progress		6/30/2020
Implement new programs (Tech Center, AB 617 grants, PPP update, SEP Program, TCC, etc)		6/30/2020
Oversight of Spare the Air Youth program including planning 2 summits and the annual YES conference.		6/30/2020
Continue Community Grant Program and create new AB 617 local action planning grant program		6/30/2020
Update Public Participation Plan with buy-in from internal and external stakeholders		6/30/2020
Implement first CARB SEP for filtration systems at elementary schools in AB 617 priority communities		6/30/2020
Coordinate District presence at public events, including events targeting Limited English Proficient populations.		6/30/2020

Rule Development		611
Managing Division: Community Engagement and Policy		
Contact Person: Victor Douglas		
Program Purpose: The primary purpose of this program is to develop control measures and regulations to reduce air pollutant emissions in the Bay Area.		
Description of Program: The Rule Development Program is responsible for the development of regulations to implement Air District plans to attain Federal and State air quality standards, and to protect public health. The 2010 Clean Air Plan, the upcoming 2017 Clean Air Plan and other planning documents adopted by the Board of Directors address State requirements in the California Clean Air Act, State transport mitigation regulations and other state air quality requirements. In addition to development of rules derived from planning documents, staff assists with the preparation of air quality plans. Other measures are developed under the direction of the Board of Directors to further protect public health and safety and reduce emissions of greenhouse gases. In addition, staff reviews existing regulations and develops revisions to improve clarity, efficiency and effectiveness. For each control measure, staff assesses potential emission reductions, technological feasibility, socioeconomic impacts, cost-effectiveness, and environmental impacts under CEQA. Staff conducts public workshops and other public involvement processes, prepares staff reports, and makes presentations and recommendations to the Board of Directors at public hearings and committee meetings. Staff also manages and coordinates the rule development process for other Divisions. In this fiscal year, the program will continue to develop rules pursuant to the Refinery Emission Reduction Strategy and Climate Protection Work Program as directed by the Board of Directors.		
Justification of Change Request: An anticipated increase in rule development projects due to both AB 617 and the 2017 Clean Air Plan will require additional contracted CEQA and socioeconomic analyses. Additional resources will be needed to assist in Legislative analyses and draft Air District formal comments on proposed federal and state legislation and regulation impacting Bay Area air quality or our ability to regulate air pollutants.		
Activities		
Develop amendments to Rule 6-5: Refinery Fluid Catalytic Cracking Units to reduce PM		
Develop amendments to Rule 8-5: Organic Liquid Storage Tanks to reduce VOCs and toxic emissions		
Develop amendments to Rule 8-8: Refinery Wastewater Treatment to reduce VOCs and toxic emissions		
Develop amendments to Rule 8-18: Fugitive Emissions to reduce VOCs and toxic emissions		
Develop amendments to Rule 9-13: Portland Cement Manufacturing to reduce PM and SO ₂ emissions		
Develop amendments to Rule 9-14: Petroleum Coke Calcining Operations to reduce NO _x emissions		
Finalize a new regulation that contains definitions, test methods and recordkeeping provisions for climate protection rules (Regulation 13)		
Finalize a new rule to prohibit significant methane (CH ₄) release (Rule 13-1)		
Finalize new rules to reduce CH ₄ and VOCs from organic materials handling and composting (Rules 13-2 & 13-3)		
Finalize amendments to oil and gas rule (Rule 8-37)		
Develop suite of rulemaking actions to reduce sulfur emissions from the refining sector.		
Develop rules to reduce methane and VOC emissions from landfills (Rule 8-34) and sewage treatment (Rule 13-4)		
Manage rule development process led by staff in other Sections and Divisions.		
Major Objectives		Delivery Date
Develop amendments to Rule 6-5: Refinery Fluid Catalytic Cracking Units		Ongoing
Develop amendments to Rule 8-5: Organic Liquid Storage Tanks		Ongoing
Develop amendments to Rule 8-8: Refinery Wastewater Treatment Operations		Ongoing
Develop amendments to Rule 8-18: Fugitive Emissions		Nov 2019
Develop amendments to Rule 9-13: Portland Cement Manufacturing to reduce PM & SO ₂ emissions		Ongoing
Develop amendments to Rule 9-14: Petroleum Coke Calcining to reduce NO _x emissions		Nov 2019
Finalize a new regulation that contains definitions, test methods and recordkeeping provisions for climate protection rules (Regulation 13)		Dec 2019
Finalize a new rule to prohibit significant methane release (Rule 13-1)		Dec 2019
Finalize Rules 13-2 & 13-3 to reduce CH ₄ and VOCs from organic materials handling / composting		Dec 2019
Finalize amendments to oil and gas rule (Rule 8-37)		Ongoing
Respond to information requests regarding rule development.		Ongoing

INFORMATION SERVICES DIVISION

The Information Services Division focuses on Information technology operations, engineering, user support and the management of District records.

Under this Division, Engineering and Operations Program staff provide design, implementation, security and maintenance of all computer server infrastructures including but not limited to email, telecommunications, network, file storage, business continuity/disaster recovery, and remote connectivity. The support team in this program provides user support to District staff for all technologies and user support to outside members of the regulated community that utilize on-line District technologies.

Records Management Program Staff (RM) are responsible for storing, maintaining, securing, and providing copies of Air District official documents. These documents are made available for public, regulated community and internal request in accordance with Policy and Procedures.

In FY2020, the RM program procured Hyland OnBase software and is working to implement and deploy the system to meet the needs and requirements of the District. RM provides assistance for staff from each Division individually as official records are migrated to OnBase. RM also monitors and implements the District's Records Retention Schedule within OnBase and digitizes paper documents as needed for all Divisions.

Information Management Records & Content		712
Managing Division: Information Services		
Contact Person: Magen Holloway		
Program Purpose: To provide archival and retrieval services for the District's records produced by various Divisions. Retires documents in accordance to the Record Retention Schedule.		
Description of Program: The Records Management Program (RM) is responsible for maintaining the Air District official records for each Division. These documents are made available for public, industry and internal request in accordance to the APCO Policy and Procedures. RM also monitors the Records Retention Schedule approved by the Board of Directors.		
Justification of Change Request: Increased budget reflects cost associated with purchase of new record management system.		
New software will assist RM meet the program objects.		
Consultants will assist RM in configuring the new Hyland OnBase (OB) software as specified by each Division and the Record Retention Schedule.		
Activities		
Manage and Support of Physical and Electronic Storage of District Records. Maintain records in accordance to the Record Retention Schedule.		
RM is configuring and implementing the new OB software with the assistance of consultants from Xerox. The Xerox is contracted to configure Air District records and corresponding Record Retention in OB. Xerox will also migrate historic records from AppXtender software and the Air District shared drives.		
Train Division Records Custodians on new OB software.		
Major Objectives		Delivery Date
Configure new OB software.		6/01/2020
Train staff on use of OB software.		6/01/2020
Migrate records from AppXtender and shared drives to OB software.		6/01/2020

Information Systems Software Development		725
Managing Division: Information Services		
Contact Person: Blair L Adams		
Program Purpose: This program provides design, implementation and support services for the District's permitting business function, including the transition from the legacy systems to the Production System.		
Description of Program: This program is responsible for software design, validation and implementation of the Production System for permitting activities such as processing permit applications, registrations and permit renewal. The Production System will replace existing systems (e.g., Databank, IRIS, current online registration systems). Implementation of the system includes providing a help desk and support tools to enhance the customer experience to use the online system.		
Justification of Change Request:		
Activities		
Designs for permitting functionality and features		
User Acceptance Testing of functionality and features		
Legacy data review and cleanup		
Customer Help Desk		
Customer tools to enhance system usability		
Staff Training		
Major Objectives		Delivery Date
Production System design and testing		Daily
Implementation of functionality to internal customers		Daily
Implementation of functionality to external customers		Daily

Information Technology Engineering & Operations		726
Managing Division: Information Services		
Contact Person: John Chiladakis		
Program Purpose: Provide computer and telecommunications infrastructure. Provide service and support for staff.		
Description of Program: Operate, engineer, purchase, install, upgrade, maintain, and repair new software systems, computer networks, network servers, telephone systems, voicemail systems, firewalls, personal computers, workstations, file and database servers, and operating system and application software.		
Justification of Change Request:		
Activities		
Operation and system administration of HP-3000 business system.		
Administration of Cisco telephone and voice mail system.		
Administration of Simplivity and other VMWare servers.		
Configuration and administration of network routers, switches, firewalls and internet access.		
Operation and system administration of HP-9000 database servers.		
Support and administer DNS servers.		
Administration of desktop operating system and applications software.		
Administration of Windows Active Directory and servers.		
Administration of NetApp SAN storage system.		
Purchase, installation, upgrade, maintenance, and repair of desktop workstations and printers.		
Administration of MS Exchange-Online, Internet and remote access systems.		
Administration of Multi-Agency Shared Services Printing and Scanning systems		
Major Objectives		Delivery Date
Maintain computer operations availability for 10 hours/day, 5 days/week.		Daily
Provide communications availability for 10 hours/day, 5 days/week.		Daily
Maintain LAN operations availability for 10 hours/day, 5 days/week.		Daily
Maintain network routers and firewall.		Weekly
Provide system connectivity support for JD Edwards.		Monthly
Support, troubleshoot and maintain desktop workstations.		Weekly
Support and upgrade remote access capabilities.		Monthly
Maintain voice messaging system, including menus and changes for field staff.		Monthly

METEOROLOGY AND MEASUREMENT DIVISION

The Meteorology and Measurement Division consists of eight individual sections that provide technical support, air quality and meteorological data, chemical analysis and forecasting services to the Compliance & Enforcement, Engineering, Planning, Legal, Rules and Communications and Community Engagement Divisions.

The Air Monitoring Section provides the data to determine if the Air District is in attainment with state and federal standards, and provides a scientific basis for other Air District programmatic decisions. New and continuing activities include:

- Continuing development, operation, maintenance, evaluation and improvement of over 30 air monitoring locations throughout the Bay Area
- Work with industry, community groups and other interested parties to determine appropriate locations for community monitoring systems developed as part of the overall Refinery Strategy and Regulation 12, Rule 15 as well as monitoring associated with Assembly Bill 617 (AB 617).

The Laboratory Services Section provides analytical services and expertise in support of Air District goals and programs. New and continuing activities include:

- Providing gravimetric, ion, OC/EC and metals analysis on PM_{2.5} filter samples.
- Continuation of upgrades to laboratory analytical instruments to enhance the laboratory's ability to analyze for additional organic and toxic compounds.

The Source Test Section tests emissions from stationary sources to determine compliance with Air District regulations. New and continuing activities include:

- Additional and enhanced compliance testing on sources of volatile organic compounds, accuracy tests on the continuous emission monitoring network and PM_{2.5} testing at affected sources.
- Providing technical support and data associated with AB 617 and other programs for Air District Divisions to facilitate decision making.

The Meteorology and Data Analysis Section provides Spare the Air, burn and other air quality forecasting in addition to analysis and validation of aerometric and meteorological data that supports Air District programs. New and continuing activities include:

- Daily air quality forecasting for the Spare the Air program and enhanced burn forecasting for the Air District's Open Burning Regulation.
- Development of enhanced data analysis capabilities in support of AB 617 and other programs.

The Performance Evaluation Section performs independent performance evaluation of the Air District's air monitoring and meteorological networks, in addition to specific outside networks of value to Air District activities, to ensure high quality data and compliance with EPA requirements. New and continuing activities include:

- Performance evaluations of air monitoring instruments at Air District and refinery locations.
- Maintenance of the Air District's and other important meteorological networks.

The BioWatch Monitoring Section operates and maintains a monitoring network for the Department of Homeland Security.

The Data Management and Communications provides IT support for the Division.

- Manage data, communications systems and operate and maintain data bases to decrease downtime and increase cost effectiveness.

The Mobile Monitoring Section will provide mobile measurements and generate data in support of Air District activities including when incidents occur. These new activities will include:

Ambient Air Monitoring		802
Managing Division: Meteorology and Measurement		
Contact Person: Steven Randall		
Program Purpose: Provide the data required to determine and measure progress towards the Bay Area's attainment of National and State ambient air quality standards, perform monitoring as part of AB 617 as well as determine and measure progress of other Air District programs.		
Description of Program: The primary function of the Air Monitoring Section is to operate and maintain a network of air quality and meteorological measurement sites that provide data required to determine attainment status of both National and State ambient air quality standards, new and modified regulations and National and State sampling strategies, as well as provide more targeted community level air quality assessment monitoring in support of AB617 activities and refinery communities. Additionally, a network of toxics gaseous and particulate monitors collect data to develop trends and help define risk, and for National and State programs. Air monitoring and meteorological data, as well as sampling projects such as the Precursor Air Monitoring Stations (PAMS) and PM _{2.5} speciation sampling, are also used for Air Quality Index (AQI) forecasts, Clean Air Plan (CAP) modeling, Prevention of Significant Deterioration (PSD) modeling, Refinery Community Monitoring, AB 617 monitoring and Environmental Impact Reports (EIRs).		
Justification of Change Request: The budgets for Rents and Leases (53200), and Shop and Field (53505) have been increased due to a combination of inflationary pressures, contractual agreements, and new monitoring system development. Capital equipment requests are \$1,195,784 to support replacement of aging meteorology and air monitoring equipment, expansion of relocatable speciation platform(s) and dense spatial monitoring systems in support of community monitoring for AB 617 and Reg 12-15, and expansion of existing site monitoring capabilities to support better community level air quality characterization.		
ACTIVITIES		
Operate and maintain the air monitoring network to provide a minimum of 90% valid data each quarter to determine the attainment status for National and State ambient air quality standards.		
Operate and maintain air monitoring stations to support Refinery Community Monitoring as well as stations to assess SO ₂ and H ₂ S emissions from large industrial sources.		
Operate and maintain non-criteria pollutant monitors to provide data on ozone precursors, data for ozone forecasting, and data for fine particulate forecasting.		
Operate a PAMS network that meets EPA requirements.		
Operate a 20-station gaseous toxics network to provide data for State and Air District programs.		
Operate up to four TSP Lead samplers at three regional airports.		
Perform toxics sampling at two sites for the California Air Resources Board (CARB).		
Operate 1 filter-based and 14 continuous fine particulate samplers as well as 4 speciation samplers to satisfy and augment the monitoring requirements for PM _{2.5} .		
Provide additional monitoring in support of other Air District programs as resources allow.		
Operate three Near Road monitoring stations as mandated by EPA; two in the San Francisco-Oakland-Fremont CBSA, and one in the San Jose-Sunnyvale-Santa Clara CBSA; Operate an additional site along the Interstate 580 corridor.		
Operate one PM _{2.5} black carbon site in Forest Knolls, west Marin County, and other comparative sites to assess wood smoke trends.		
Perform quality control checks on criteria and non-criteria pollutant monitors required by EPA and CARB regulations and Air District procedures, review ambient pollutant data, precision data and repair equipment.		
Participate in interdivisional teams addressing issues that include, but are not limited to, regulation and Manual of Procedures improvement, website, special studies and customer service.		
Participate and aid in the development of the use of low cost sensors for local-scale measurement studies		
Implement community level air quality screening and assessment tools and procedures in support of AB617		
Implement monitoring in refinery communities in support of Reg 12-15		
MAJOR OBJECTIVES		Delivery Date
Collect and process data that has been subjected to rigorous Quality Control (QC) as part of National, State and Air District programs.		Quarterly
Implementation of community level screening and air quality assessment in support of AB 617 and Reg 12-15		Ongoing
Continue to improve Quality Systems Documents and procedures.		Ongoing

Laboratory		803
Managing Division: Meteorology and Measurement		
Contact Person: Mairi Beacon		
Program Purpose: Provide laboratory, analytical, and technical services and support to other Air District Divisions and Sections.		
Description of Program: The primary function of the Laboratory Program is to provide laboratory analyses, analytical services and technical support to other Divisions, Sections and special programs in completing their objectives. The Laboratory Program evaluates and develops analytical methods as required by new, analytical capabilities or amendments and additions to Air District regulations. The analytical services of the program also provide technical information for enforcement action, permit evaluation and regulatory standard development. Close liaison is maintained with other air pollution agencies and technical groups.		
Justification of Change Request: The budgets for Repair and Maintenance (52400) and Professional Services (53305) were increased due to inflationary pressure and contractual obligations in addition to needs associated with the East Bay Laboratory Annex. Lab Supplies (53300) was increased to account for the additional supplies needed to stock the East Bay Laboratory Annex.		
ACTIVITIES		
Perform up to 200 compliance analyses for the Compliance & Enforcement Division.		
Provide up to 50 complete sample analyses for the Source Test Section.		
Provide 750 ambient air toxic sample analyses for the Air Monitoring Section and as needed for other Air District programs.		
Analyze 600 PM ₁₀ filters for the Air Monitoring Program, including anion and cation speciation.		
Perform Elemental Carbon/Organic Carbon (EC/OC) analyses on up to 1000 PM ₁₀ filters in support of various Air District programs.		
Develop, modify and recommend analytical methods to support enforcement action and to provide support for rule development.		
Analyze up to 700 PM _{2.5} filters for the Air Monitoring Section.		
Perform XRF analysis for metals on up to 250 samples collected by Air Monitoring Section in support of various programs.		
Perform High Pressure Liquid Chromatography (HPLC) analyses for carbonyls in up to 200 samples collected by the Air Monitoring Section in support of Air District programs.		
Participate in a minimum of 6 inter-laboratory audit test programs for toxic compounds conducted by CARB and EPA.		
Perform gravimetric, ion, OC/EC and metals analysis on up to 750 PM _{2.5} speciation filter samples collected by Air Monitoring Section in support of the SASS (Speciation Air Sampling Study) program.		
MAJOR OBJECTIVES		Delivery Date
Provide the Compliance & Enforcement Division with analytical data from 200 samples to support enforcement action.		Ongoing
Provide the Source Test Section with analytical data from 50 samples to support the Air District's Source Testing Program.		Ongoing
Provide the Air Monitoring Section with analytical data for toxic organic compounds in 750 ambient air samples.		Ongoing
Provide the Air Monitoring Section with analytical data from 600 PM ₁₀ filters, including OC/EC and anion/cation speciation.		Ongoing
Develop, modify and recommend analytical methods to support enforcement action and to provide support for Rule Development.		Ongoing
Provide the Air Monitoring Section with analytical data from 700 PM _{2.5} filters.		Ongoing
Provide the Air Monitoring Section with analytical data for metals in 250 samples in support of various programs.		Ongoing
Participate in and complete inter-laboratory audits for toxic compounds conducted by CARB and EPA.		Ongoing
Provide the Air Monitoring Section with analytical data from 750 PM _{2.5} SASS filters.		Ongoing

Source Test	804
Managing Division: Meteorology and Measurements	
Contact Person: Jerry Bovee	
Program Purpose: Provide source testing and technical expertise to Air District Divisions.	
Description of Program: The primary functions of the Source Test Section are to: conduct analytical source tests; conduct performance audits on Continuous Emissions Monitors (CEMs); review third party source tests; research and develop new analytical source test procedures: and, provide technical expertise and advice to other Divisions. These data are used to produce engineering studies to determine compliance status for specific source categories, determine whether to issue Permits to Operate, update the emissions inventory, determine actual abatement control effectiveness, provide data & technical assistance for Air District studies including AB 617, and develop applicable standards and produce emissions data for new or revised regulations.	
Justification of Change Request: Specific accounts were increased to reflect inflationary pressure and contractual obligations. Budgets for Travel (52200) and Conference and & Seminar Registration (52300) were increased for training to enhance staff skills necessary to aid in AB 617 implementation.	
Activities	
Conduct at least 90 instrumental gaseous source tests.	
Conduct up to 45 particulate or gaseous toxics source tests.	
Conduct at least 150 Field Accuracy Tests (FATs) on CEM systems.	
Conduct up to 24 source tests at gasoline bulk terminals and bulk plants.	
Conduct at least 400 source tests on gasoline cargo tanks.	
Conduct up to 30 Enhanced Vapor Recovery source tests at Gasoline Distribution Facilities (GDF)	
Evaluate up to 450 indicated excesses and other CEM-related call-ins.	
Maintain an electronic list of all source tests conducted at Title V facilities.	
Provide source testing support rule development efforts.	
Major Objectives	Delivery Date
Prepare reports on emissions from various source categories.	Ongoing
Prepare reports on particulate/gaseous toxic emissions from specific sources.	Ongoing
Prepare quarterly and annual summary of CEM data from specific sources.	Ongoing
Prepare reports on VOC emissions from gasoline bulk terminals and plants.	Ongoing
Prepare reports on VOC emissions from gasoline cargo tanks.	Ongoing
Provide monthly reports on indicated excesses from CEM systems.	Ongoing
Prepare reports on compliance rates and emissions, based on outside contractor tests.	Ongoing
Participate in source attribution studies associated with AB 617	Ongoing

Meteorology	805
Managing Division: Meteorology and Measurement	
Contact Person: Charles Knoderer	
Program Purpose: Provide air quality and open burning forecasts, support for wildfire impacts, and collect, validate, analyze, and disseminate aerometric and meteorological data.	
Description of Program: The primary function of the Meteorological Section is to provide air quality forecasts, including open burn, and mandated Air Quality Index (AQI) forecasts, special forecasts for programs such as mandatory curtailment of wood burning, forecasts for wildfire smoke impacts, and episode/alert forecasts. Data analysis objectives include the validation, compilation and interpretation of meteorological and air quality data, and internal and external distribution of data to various data systems. Other objectives include evaluation for legal actions, determination of long-term air quality trends and establishment of databases. This section is also responsible for reviewing or designing studies to characterize community-level air quality and providing analyses to assist developing air quality improvement strategies, including new duties associated with AB 617.	
Justification of Change Request: The Overtime Budget (51155) was increased to account for technical assistance for public meetings associated with AB 617, general outreach and monitoring plan areas, and additional forecast responsibilities due to increased wildfire impacts on local air quality. The budget for Professional Services (53300) was increased due to inflationary pressure and contractual agreements. The budgets for In-State Travel (52220), Out-of-State Travel (52225), Computer Hardware (53805), and Computer Software (53810) were increased to meet the evolving responsibilities of the Meteorology group, including additional work, travel, and training expected for AB 617 related activities, the addition of six new staff, and to allow staff to keep up with current science and technology.	
Activities	
Provide support for tracking and forecasting smoke plume impacts during wildfire events.	
Coordinate with other divisions on AB 617 activities, including providing technical support for selecting and prioritizing areas and technical assessments of priority areas. Lead AB 617 activities in areas selected for Air Monitoring Plans, including assisting with the development and implementation of the plan and analyses of community monitoring data. Review external monitoring plans and final reports.	
Provide monthly, annual, and event-driven air quality summary reports	
Manage the Quality Assurance System and act as Air District lead for EPA's Technical Systems Audits.	
Provide reliable and timely Air Quality forecasts to the Air District and the public on weekdays, weekends and holidays, including determinations for voluntary and mandatory curtailment programs.	
Review prescribed and marsh burn plans. Issue the daily open burn decision to Regional, State, and National Fire Agencies and the public. Allocate and distribute burn acreage for prescribed, marsh, and Sonoma County stubble burning.	
Quality assure EPA mandated air quality data and provide to EPA within 90 days of the end of a quarter.	
Prepare and provide the Annual Air Monitoring Network Report to EPA, CARB and the public.	
Monitor and review air quality and meteorological data from each of the five oil refinery Ground Level Monitoring (GLM) Networks and provide evaluation of Episode Reports to the Compliance and Enforcement Division regarding compliance with Air District Regulations 1 and 9.	
Develop forecasting techniques for winter particulate and summer ozone seasons, including statistical regression equations and develop and maintain the databases these methods are based upon.	
Respond to record requests for information on air quality and meteorological data from industry, the public, consultants, and government agencies. Respond to requests to provide presentations for Air District functions including Board and Committee meetings, and community outreach and public information meetings.	
Major Objectives	Delivery Date
Coordinate or support AB617-related activities, including capacity building in priority areas, technical assessments, and community air monitoring.	Ongoing
Provide daily air quality forecasts and burn acreage allocations to meet Air District needs. Provide additional support during wildfire impacts.	Ongoing
Submit quality assured air quality data to EPA's AQS Database.	Quarterly
Provide air quality, meteorological, and GLM data in electronic format to requestors.	Monthly
Prepare and submit Annual Air Monitoring Network Plan to EPA, CARB and the public.	6/30/2019
Continue improvements to databases for air quality and meteorological data.	Ongoing

Air Monitoring Instrument Performance Evaluation		807
Managing Division: Meteorology and Measurement		
Contact Person: Jerry Bovee		
Program Purpose: Provide independent performance evaluation services for the Air Monitoring Section and evaluate equipment and siting for air quality monitoring performed by industry and/or their consultants within the Air District's boundaries.		
Description of Program: The primary function of the Performance Evaluation (PE) Section is to ensure the accuracy of data collected throughout the Air District's air monitoring network. The PE Section is also responsible for audits and data evaluation of the H ₂ S and SO ₂ ground level monitors (GLMs) and operation of H ₂ S and SO ₂ mobile sampling units for odor complaint investigations and episodic sampling.		
Justification of Change Request: Specific accounts were increased to reflect inflationary pressure and expected increases in resources necessary for auditing of Regulation 12, Rule 15 monitoring systems.		
Activities		
Conduct performance evaluation audits on ambient air monitoring equipment as required by EPA and California Air Resources Board (CARB) regulations, and create accuracy records for reporting to EPA.		
Conduct performance evaluation audits on industry SO ₂ and H ₂ S GLMs and prepare summary reports of the audits.		
Conduct performance evaluation audits on non-criteria pollutant monitors and prepare summary reports of the audits.		
Participate in inter-agency performance evaluation program conducted by EPA and CARB at Air District sites.		
Perform source-oriented sampling and mobile monitoring during complaint, odor, and episode conditions to provide data required for enforcement action. Between incidents, maintain the instruments and vehicles, as needed.		
Participate in interdivisional teams working on improving Air District regulations and the Manual of Procedures, special studies and customer service.		
Audit the Air District meteorological network.		
Major Objectives		Delivery Date
Maintain the directory of information on network drives for Air District access to all Quality Assurance (QA) data and activities.		Ongoing
Audit the Air District meteorological network.		Ongoing
Maintain criteria pollutant calibration standards and calibrators to meet EPA requirements.		Ongoing
Revise Standard Operating Procedures (SOPs) to reflect changes in procedures.		Ongoing

BioWatch Monitoring		809
Managing Division: Meteorology and Measurement		
Contact Person: Eric Stevenson		
Program Purpose: Operate and maintain the Bay Area BioWatch network for the Federal Department of Homeland Security (DHS) in cooperation with the EPA.		
Description of Program: The BioWatch Monitoring Program consists of a network of sample collection units located throughout the Bay Area. Filter media are collected and replaced on a daily basis. Exposed filter housing are delivered to an outside laboratory for analysis. The network operates 24-hours a day, 365 days a year. This program is fully funded by a Department of Homeland Security grant and any budgetary changes were made to more accurately reflect the grant request.		
Justification of Change Request: All funding changes are covered by the DHS grant award.		
Activities		
Operate and maintain BioWatch collection sites to provide exposed filter media for laboratory analysis.		
Provide training and contract oversight for the BioWatch program.		
Implement Consequence Management Plan for the BioWatch program.		
Major Objectives		Delivery Date
Provide oversight of facilities and equipment.		Ongoing
Assure program requirements for computer entry, sampling, and filter delivery are met.		Ongoing
Assure impacted Air Monitoring and contractor staff are notified in the event of positive results.		Ongoing

Infrastructure and Records Management		810
Managing Division: Meteorology and Measurements		
Contact Person: Steve Randall		
Program Purpose: Provide air monitoring and meteorological station infrastructure and communication support for the Division. Manage and operate the Division's Data Management System, Laboratory information system, and support the development of required analytical and operational tools.		
Description of Program: The Infrastructure and Records Management Section provides network support for Source Test, Air Monitoring, Meteorology, Laboratory and Performance Evaluation Sections. This includes software development, hardware purchases and support, and telecommunications for remote air monitoring and meteorology stations. This Section also supports and maintains data export facilities from the Data Management System.		
Justification of Change Request: No change in the overall budget amount for the section is requested.		
Activities		
Maintain computer hardware and infrastructure for remote Meteorology and Measurements Division locations.		
Manage contracts for telecommunication, software development and other Meteorology and Measurements Division IT related tasks.		
Manage software development projects dealing with Meteorology and Measurements Division data retrieval and ensure they are compatible with other integrated software packages.		
Major Objectives		Delivery Date
Manage software and telecommunication contracts for Meteorology and Measurements Division.		Ongoing
Develop software for Meteorology and Measurements Division data retrieval and storage.		Ongoing
Procure computer related hardware for unique Meteorology and Measurements Division tasks.		Ongoing
Maintain IT infrastructure between the Air District office and remote air monitoring, meteorology and other Meteorology and Measurements Division sites.		Ongoing
Support the Air District's real-time air quality and meteorology web page (Gate 2).		Ongoing

Mobile Monitoring		811
Managing Division: Meteorology and Measurement		
Contact Person: Eric Stevenson		
Program Purpose: Provide mobile measurement of pollutant concentrations and collection of samples in support of Air District programs as well as non-routine releases of air contaminants.		
Description of Program: The function of the Mobile Monitoring program is to provide additional spatial and temporal information as needed in support of Air District activities and to respond in a timely manner to incidents where releases of air contaminants may adversely impact public health or the environment. The response would include, to the extent possible, defining the area impacted, and the identification and measurement of the specific compounds involved in the release.		
Justification of Change Request: No increases requested.		
Activities		
Assist in the development and maintenance of incident response procedures.		
Work with other Divisions to utilize mobile monitoring capabilities in support of special studies and programs.		
Build and maintain mobile monitoring capabilities and instrumentation that is ready to be deployed at any time.		
Respond to incidents, measure impacts and determine the extent of those impacts, in a timely manner.		
Report findings to other Air District Sections and Divisions, and other agencies, as appropriate.		
Assist other Sections and Divisions in developing appropriate strategies and procedures dealing with incident response.		
Major Objectives		Delivery Date
Assist in the development of incident response procedures.		Ongoing
Build and develop mobile monitoring capabilities.		Ongoing
Support other Air District programs with mobile monitoring.		Ongoing
Be able to respond to any incident in the Bay Area in a timely manner regardless of when the incident occurs.		Ongoing
Maintain all instrumentation so that it is operational 24-hours a day.		Ongoing
Develop reporting systems and strategies so that appropriate Air District Sections and Divisions have adequate information to make decisions during incidents.		Ongoing
Continue to build and improve overall incident response, communication and effectiveness.		Ongoing

PROGRAM NARRATIVES AND EXPENDITURE DETAIL
SPECIAL REVENUE FUND

Intermittent Control Programs (TFCA)		306
Managing Division: Communications Office		
Contact Person: Kristine Roselius		
Program Purpose: The Spare the Air program encourages the public to reduce their driving, a major source of Bay Area air pollution, and promotes the use of public transit, biking, walking, carpooling, trip reduction and other behavior changes that reduce pollution from automobiles. The program provides outreach to employers/employees for the Spare the Air Employer and Commuter Benefits Programs and to students through the Spare the Air Youth program. Employers are targeted specifically due to their significant influence on the commute behaviors of their employees.		
Description of Program: The Spare the Air program works with employers, Resource Teams, students and the public to reduce air pollution by promoting employer commute programs and making clean air choices including taking public transportation, ridesharing and trip linking; this program complements Program 305. Funds will be used for electronic notification systems, employer and youth outreach, partnerships, Commuter Benefits Program outreach and Resource Teams outreach, as well as staff time associated with the Spare the Air programs and grass roots education.		
Justification of Change Request: No change.		
Activities		
Conduct Spare the Air Employer Program to inform employees about commuter incentive programs and individual choices to reduce air pollution.		
Promote employer transportation programs aimed at employees to reduce the number of single occupancy vehicles commuting to work.		
Prepare and issue media releases, respond to media inquiries and plan employer workshops and events.		
Conduct employer opinion surveys to evaluate Spare the Air program and measure behavior change.		
Manage Resource Team activities, projects and promotions.		
Manage and update the sparetheair.org and Employer Program websites as well as social media sites such as Twitter, Pinterest and Facebook.		
Provide public outreach at employer events throughout the Bay Area.		
Notify the employers/employees of Spare the Air Alerts through AirAlerts, the media, sparetheair.org, baaqmd.gov, iPhone app and social media sites.		
Manage employer outreach & advertising campaign.		
Provide outreach to employers, in concert with MTC, for the Commuter Benefits Program.		
Provide overview of campaign to the Executive Committee and Board of Directors.		
Major Objectives		Delivery Date
Manage Air Quality Resource Teams.		6/30/2020
Manage Spare the Air Employer Program.		6/30/2020
Conduct employer workshops and develop employer outreach materials, webinars and website information for new employer commute incentives rule.		Ongoing
Coordinate Air District presence at public events, including community events and fairs targeting Limited English Proficient populations.		6/30/2020
Develop video podcasts, video news releases / statements, displays and infographics for Employer Program and Commuter Benefits Program / events.		6/30/2020
Add new visualization, app integration and other features to improve user experience on sparetheair.org website		6/30/2020

Carl Moyer Program Administration		307
Managing Division: Strategic Incentives		
Contact Person: Anthony Fournier		
Program Purpose: Implementation of the Carl Moyer Program (CMP), which provides grants for the execution of projects that reduce emissions from primarily heavy-duty engines.		
Description of Program: The Air District has participated in the CMP, in cooperation with the California Air Resources Board (CARB), since the program began in fiscal year 1998-1999. The CMP provides grants to public and private entities to reduce emissions of oxides of nitrogen (NOx), reactive organic gases (ROG) and particulate matter (PM) from existing heavy-duty engines by either replacing or retrofitting them. Eligible heavy-duty diesel engine applications include on-road trucks and buses, off-road equipment, marine vessels, locomotives, and stationary agricultural pump engines. Air District staff conducts outreach and solicits grant applications, reviews the grant applications according to established criteria, recommends allocation of the funding, monitors progress in implementing funded projects, and reports on the use of funds. This program also includes assessment of mobile source technologies in support of the grant-making function. The Air District has been allocated \$50 million from AB 134 (2017) for emissions reduction projects that provide early actions of the AB 617 process through a Community Air Quality Protection Grant Program. Consistent with the AB 134 legislation, funding from AB134 will be primarily administered through the CMP and Proposition 1B Goods Movement Program. The AB 134 funds must be awarded to emissions reduction projects by June 2019 and spent by June 2021.		
Justification of Change Request: Increased expenditure to address the program administrative needs for increased revenue.		
Activities		
Develop policies and procedures for the administration of the CMP.		
Conduct outreach to interested parties and provide application assistance.		
Evaluate grant applications for eligibility with CMP guidelines.		
Conduct inspections of the baseline and funded project equipment.		
Prepare grant award recommendations and coordinate the execution of funding agreements for the selected projects.		
Administer and monitor projects that have been awarded CMP grants.		
Prepare and submit reports to CARB on the implementation of the CMP.		
Monitor, inspect, and audit current and previously funded programs and projects to assure compliance with State and District guidelines, policies, and statutory and regulatory requirements.		
Prepare technical, financial, and staff reports.		
Major Objectives		Delivery Date
Finalize policies and procedures for the new CMP funding cycle (Year 21), consistent with CARB guidelines.		7/1/2019
Issue call for grant applications and conduct outreach for CMP Year 21 funds.		By 8/1/2019
Submit reports to CARB on the District's implementation of the CMP.		8/29/2019
Evaluate grant applications and prepare grant award recommendations for Board of Directors approval (Year 21 funding cycle).		6/30/2020
Issue funding agreements (contracts) for CMP grants awarded (Year 20 and 21 funding cycles).		6/30/2020
Process payments, review project reports, inspect and close out on-going projects.		6/30/2020

Transportation Fund for Clean Air		308
Managing Division:		
Strategic Incentives		
Contact Person:		
Chengfeng Wang		
Program Purpose:		
Administer motor vehicle registration fee surcharge revenues to reduce emissions from on-road vehicles.		
Description of Program:		
<p>In 1991, the California State Legislature authorized the Air District to impose a \$4 surcharge on motor vehicles registered within its jurisdiction to fund projects that reduce on-road motor vehicle emissions. The Air District allocates these funds to eligible projects through its Transportation Fund for Clean Air (TFCA) program and a portion of the funds collected are expended for administrative purposes. The statutory authority for the TFCA and requirements of the program are set forth in California Health and Safety Code (HSC) Sections 44241 and 44242. Sixty percent of the funds are awarded directly by the Air District to eligible Air District programs (e.g., Smoking Vehicle, Spare the Air) and through the TFCA Regional Fund program. The remaining 40% are forwarded to the nine designated Bay Area congestion management agencies and distributed through the County Program Manager Fund program.</p> <p>The TFCA provides grants to reduce emissions of criteria pollutants through trip reduction projects and clean-air vehicle-based projects. Air District staff conducts outreach, solicits grant applications, reviews the applications, recommends allocation of funding, monitors progress in implementing projects, and reports on the use of funds. This program also includes assessment of mobile source technologies and transportation control measures in support of the grant-making function.</p>		
Justification of Change Request:		
Activities		
Prepare updates to the Regional Fund and County Program Manager policies and guidelines for consideration by the Air District's Board of Directors and develop policies and procedures for the administration of the TFCA.		
Develop and issue solicitation packages and conduct outreach.		
Review and evaluate project applications to determine their eligibility, and prepare associated documents, contracts, letters, reports, and communications.		
Prepare recommendations for award of eligible projects for approval by the Air District's Board of Directors.		
Monitor, inspect, and audit current and previously funded programs and projects to assure compliance with State and District guidelines, policies, and statutory and regulatory requirements.		
Review progress reports, process reimbursement requests, and ensure project files are complete and up to date.		
Prepare technical, financial, and staff reports and attend meetings.		
Major Objectives		Delivery Date
Prepare recommended updates to the FYE 2021 County Program Manager policies for Board of Directors consideration.		11/30/2019
Prepare and distribute FYE 2021 County Program Manager guidance and application package.		12/31/2019
Review and recommend action on FYE 2021 County Program Manager expenditure plans.		5/31/2020
Execute FYE 2021 funding agreements for County Program Managers.		6/30/2020
Prepare and distribute FYE 2020 Regional Fund guidance, conduct outreach, and solicit applications.		Ongoing
Review FYE 2020 TFCA Regional Fund applications and recommend eligible projects for Board of Directors consideration and approval.		Ongoing
Prepare FYE 2020 funding agreements for TFCA Regional Fund recipients.		Ongoing
Prepare FYE 2019 TFCA Report on Regional Fund Expenditures and Effectiveness.		12/31/2019
Conduct audit of TFCA funded projects and programs completed by 6/30/2018.		6/30/2020

Mobile Source Incentive Fund Administration		310
Managing Division: Strategic Incentives		
Contact Person: Anthony Fournier		
Program Purpose: Administer funding from motor vehicle surcharge revenues, authorized by AB 923, for emission reduction projects.		
Description of Program: Assembly Bill 923 (AB 923 - Firebaugh), enacted in 2004 (codified as Health and Safety Code Section 44225), authorized local air districts to increase their motor vehicle registration surcharge for motor vehicles within the Air District's jurisdiction up to an additional \$2 per vehicle. The revenues from the additional \$2 surcharge are deposited in the Air District's Mobile Source Incentive Fund (MSIF). MSIF funds can be allocated to the following eligible projects and programs, according to established criteria: the Lower-Emission School Bus Program, a passenger vehicle retirement program, projects eligible for Carl Moyer Program funds, and selected agricultural projects. Staff recommends funding allocations to eligible projects and programs for approval by the Board of Directors, monitors progress in implementing funded projects, reports on the use of the funds, and coordinates verification of requirements compliance. This program also includes assessment of mobile source and transportation technologies and programs in support of the grant-making function.		
Justification of Change Request:		
Activities		
Recommend funding allocations to the Board of Directors.		
Conduct outreach to interested parties and provide application assistance.		
Evaluate grant applications for eligibility with applicable guidelines.		
Conduct inspections of the baseline and funded project equipment.		
Prepare grant award recommendations and coordinate the execution of funding agreements for the selected projects.		
Administer and monitor projects that have been awarded grants.		
Prepare and submit reports to the California Air Resources Board (CARB) on the expenditure of MSIF funds.		
Monitor, inspect, and audit current and previously funded programs and projects to assure compliance with State and District guidelines, policies, and statutory and regulatory requirements.		
Prepare technical, financial, and staff reports.		
Major Objectives		Delivery Date
Report MSIF expenditures to CARB.		8/29/2019
Define allocation of available funds to eligible projects and programs.		3/1/2020
Conduct outreach, and solicit project applications.		6/30/2020
Obtain Board of Directors approval of project recommendations.		Ongoing
Prepare and coordinate execution of funding agreements.		Ongoing
Process payments, review project reports, inspect and close out on-going projects.		Ongoing
Monitor the progress of funded projects.		Ongoing

Vehicle Buy-Back Program		312
Managing Division: Strategic Incentives		
Contact Person: Anthony Fournier		
Program Purpose: Accelerate the removal of high-emitting vehicles from the on-road motor vehicle fleet within the District's jurisdiction.		
Description of Program: The program removes high-emitting motor vehicles from the region's roadways by purchasing and scrapping eligible vehicles from registered owners on a voluntary basis.		
Justification of Change Request: No change.		
Activities		
Implement procurement process for vehicle scrapping services.		
Oversee contractor's purchase and scrapping of vehicles.		
Respond to inquiries regarding Vehicle Buy-Back Program.		
Implement procurement process for direct mail campaign services.		
Oversee contractor's direct mailings.		
Acquire and update Department of Motor Vehicles (DMV) database used for direct mail annually.		
Develop and update Vehicle Buy-Back outreach materials.		
Conduct site visits of dismantling yards and dismantler offices.		
Manage suppression list and update DMV database.		
Review and approve scrapping contractor invoices.		
Review and approve direct mail contractor invoices.		
Major Objectives		
Implement the Vehicle Buy-Back program, monitor contractor performance, review/ pay program invoices.		Delivery Date Ongoing
Report program expenditures to the California Air Resources Board (CARB)		8/31/19

Miscellaneous Incentive Programs		316
Managing Division: Strategic Incentives		
Contact Person: Chengfeng Wang		
Program Purpose: Administer new, one-time pass through, sources of funding to implement emissions reductions projects		
Description of Program: Each year the Air District receives grant revenues from sources such as the Bay Area Clean Air Foundation, State of California, Federal government, and settlement agreements that augment and complement funding from its other perennial sources of funding. Grant funding from these sources is often awarded to the District through a competitive solicitation process that results in funding that can be used to support specific projects for a limited and specified period (e.g., 1 to 2 years).		
Justification of Change Request:		
Activities		
Research opportunities and prepare and submit applications for new sources of funding from the State of California, Federal government and other sources.		
Develop policies and guidelines, issue calls for projects, conduct workshops, attend meetings, and outreach to potential project sponsors.		
Review, evaluate and rank project applications to determine their eligibility and award amount, and prepare associated project documents (contracts, letters, reports, and communications).		
Prepare recommendations for award of eligible projects for approval by the Air District's Board of Directors.		
Monitor, inspect, and audit funded programs and projects to assure compliance of applicable guidelines, policies, and statutory and regulatory requirements.		
Review progress reports, process reimbursement requests, and ensure project files are complete and up to date.		
Prepare technical, financial, and staff reports.		
Major Objectives	Delivery Date

Light Duty Electric Vehicles		317
Managing Division: Technology Implementation Office		
Contact Person: Ranyee Chiang		
Program Purpose: Administer funding, outreach, and planning to accelerate the adoption of light-duty (passenger) electric vehicles (EVs) and EV infrastructure in the Bay Area.		
Description of Program: The Air District's 2017 Clean Air Plan established a goal of 90% of Bay Area vehicles being zero emissions by 2050. To support this goal, this program incentives publicly available charging infrastructure, vehicle fleets, vehicles for low-income consumers. This program includes the Charge! Program for EV infrastructure, Clean Fleets for light-duty vehicle fleets, and the Clean Cars For All program for low income residents in impacted communities. To complement and increase utilization of the incentives programs, this program also includes outreach, regional coordination, and planning to remove potential barriers and accelerate EV deployment throughout the Bay Area.		
Justification of Change Request: New grant funding from the California Air Resources Board and Federal Highway Administration to expand incentives for low-income consumers (ARB) and support outreach, partnership, and planning (FHWA).		
Activities		
Administer grant programs, including updating policies and guidelines, conducting outreach, preparing program documents and communications, processing reimbursement requests, tracking project status, and conducting audits, for Charge!, Clean Fleets, and Clean Cars For All.		
Organize and participate in workgroups and events to increase awareness about PEVs, support deployment, sharing best practices, and regional coordination.		
Conduct analyses and planning to inform Air District strategy and programs.		
Prepare technical, financial, and staff reports.		
Major Objectives		Delivery Date
Complete market research study on consumers and EV market actors		12/31/2019
Complete awards for first tranche of funding (2018-2020) available for Clean Cars For All program, including outreach to eligible communities and residents.		5/31/2020
Migrate Charge! Program to an online grant management system.		6/30/2020
Submit Bay Area EV Acceleration Plan to Board		6/30/2020
Organize quarterly Bay Area EV Coordinating Council meetings		Ongoing

Enhanced Mobile Source Inspections		318
Managing Division:		
Compliance and Enforcement		
Contact Person:		
Juan Ortellado		
Program Purpose:		
Conduct enhanced inspection patrols to report smoking vehicles to promote repair or retirement of these vehicles to protect public health. Conduct enhanced inspections to enforce drayage truck and related truck/mobile source regulations at, and adjacent to, the Port of Oakland.		
Description of Program:		
<p>The enhanced mobile source inspection program is conducted to reduce particulate matter (PM) emissions throughout the Bay Area and PM and other emissions specifically at, and adjacent to, the Port of Oakland. Enhanced enforcement patrols are conducted for smoking vehicles. All Air District inspectors patrol for smoking vehicles on the road, between performing inspections and answering complaints. Smoking vehicles are reported to Air District dispatchers; owner information is extracted from Department of Motor Vehicles (DMV) records. Letters are sent to owners to request that they repair or retire the respective vehicles; compliance assistance materials are included.</p> <p>Enhanced enforcement of the State drayage truck regulation (DTR) and related truck/mobile source regulations is conducted at, and adjacent to, the Port of Oakland. Targeted enforcement includes ensuring compliance with required upgrades and modifications to engine model year 2010 and newer for drayage trucks. Enhanced patrols and enforcement are conducted to ensure that illegal dray-off activities and excess idling are not performed. Compliance checks of mobile source equipment and vehicles are conducted to verify adherence to State regulations. Compliance assistance materials are developed; outreach is conducted with truckers and other mobile source operators regarding regulation(s) requirements, compliance deadlines and the availability of Air District grants.</p>		
Justification of Change Request:		
Activities		
Smoking Vehicles: Conduct inspection patrols for smoking vehicles. Vehicle owners are identified using DMV records. Notification letters are sent to vehicle owners to inform them of the vehicle's excess emissions and to request that they repair the vehicle or contact assistance programs to retire the vehicle.		
Port Trucks Compliance Assurance: Conduct enhanced mobile source inspections at and adjacent to the Port of Oakland for compliance with the State DTR and related truck/mobile source regulations. Additional inspections are conducted and targeted at ensuring upgrades and modifications to engine model year 2010 and newer trucks in compliance with the requirements of Phase 1 and Phase 2 of the California Air Resources Board's DTR. Additional focused inspections are conducted for compliance with dray-off provisions of the regulation and to ensure that non-compliant trucks do not enter the Port. Air District staff also verify compliance with State mobile source regulations pursuant to the Air District's Mobile Source Compliance Plan.		
Port Trucks Enforcement: Conduct investigations and inspections, issue and process Notice of Violations for trucks and other mobile sources found in non-compliance.		
Port Trucks Compliance Assistance: Develop fact sheets, posters and other outreach materials to provide to Port operators and truckers on regulatory requirements, upcoming compliance dates and the availability of Air District grants. Develop compliance assistance materials for related mobile source regulatory requirements. Provide compliance assistance during inspections and following enforcement actions; provide bilingual assistance where needed. Identify and translate compliance assistance materials. Participate in Trucker Workgroup meetings at the Port, as needed.

Commuter Benefits Program		319
Managing Division: Compliance and Enforcement		
Contact Person: Juan Ortellado		
Program Purpose: Implementation of the Commuter Benefits Program, per the requirements of Air District Regulation 14-1.		
Description of Program: As part of the implementation of the Commuter Benefits Program, staff plans to continue performing education, outreach, monitoring, and tracking of approximately 10,000 Bay Area employers subject to the program. Enforcement actions will be taken as appropriate.		
Justification of Change Request: None.		
Activities		
Perform outreach to affected employers.		
Continue education campaign for affected employers.		
Perform tracking and monitoring of program.		
Facilitate data reporting and storage for affected employers.		
Coordinate activities with Metropolitan Transportation Commission's 511.org.		
Prepare and implement a compliance and enforcement system.		
Major Objectives		Delivery Date
Conduct outreach and education.		Ongoing
Prepare and implement a compliance and enforcement system.		6/30/20

California Goods Movement Bond - Grants Administration		323
Managing Division: Strategic Incentives		
Contact Person: Anthony Fournier		
Program Purpose: The purpose of this program is to protect public health by reducing emissions associated with goods movement activities.		
Description of Program: In 2007, the California State Legislature enacted Senate Bill 88 authorizing \$1 billion in bond funding over four years for projects to protect public health from emissions associated with goods movement activities. In FYE 2020 staff will continue administration of the Year 5 round of program funding, monitor progress in implementing funded projects, work to ensure projects are completed as required, disburse grant funds by the specified deadlines, and report on project status and use of funds. Funding from AB134 (2017) will be primarily administered through the Carl Moyer Program and Proposition 1B Goods Movement Program.		
Justification of Change Request:		
Activities		
Develop policies and procedures for the administration of the Goods Movement Bond Program (GMP).		
Conduct outreach to interested parties and provide application assistance.		
Evaluate grant applications for eligibility with GMP guidelines.		
Conduct inspections of the baseline and funded project equipment.		
Prepare grant award recommendations and coordinate the execution of funding agreements for the selected projects.		
Administer and monitor projects that have been awarded GMP grants.		
Prepare and submit reports to the California Air Resources Board (CARB) on the implementation of the GMP.		
Monitor, inspect, and audit current and previously funded programs and projects to assure compliance with State and Air District guidelines, policies, and statutory and regulatory requirements.		
Prepare technical, financial, and staff reports.		
Major Objectives		
Monitor Year 5 projects, ensure projects are completed and paid on schedule.		12/31/2019
Conduct project inspections, review applications, and prepare reports for submittal to CARB.		12/31/2019
Monitor the performance of previously funded GMP projects.		Ongoing

Vehicle Mitigation (VW Trust)		324
Managing Division: Strategic Incentives		
Contact Person: Chengfeng Wang		
Program Purpose: The purpose of this program is to mitigate the lifetime excess oxides of nitrogen (NOx) emissions caused by VW's use of an illegal defeat device.		
Description of Program: On May 25, 2018, the California Air Resources Board (CARB) approved the Volkswagen Environmental Mitigation Trust (VW Trust) Beneficiary Mitigation Plan and approved the selection of the Bay Area Air District to administer Trust funding on a statewide-basis for the zero-emission freight and marine and the light-duty zero emission vehicle infrastructure categories. The Trust is an element of the settlement with VW for their use of an illegal defeat device and is intended to fully mitigate the lifetime excess oxides of nitrogen (NOx) emissions caused by VW's actions. CARB is the designated Lead Agency acting on the State's behalf as beneficiary to implement California's \$423 million in VW Trust funds for eligible project categories, including \$77 million to fund zero-emission freight and marine projects, such as forklifts and port cargo handling equipment, airport ground support equipment, oceangoing vessel shore power, zero-emission ferry, tugboat, and towboat repowers, and \$11 million to fund light-duty electric vehicle charging and hydrogen fueling infrastructure projects. In FYE 2020 staff will work with CARB and other air districts to develop and update the Implementation Manual, develop and maintain a Program website and a grants management system, conduct public outreach, issue a solicitation, evaluate project applications, recommend award for funding, execute contracts with grantees, monitor project progress, and report the use of funds, etc.		
Justification of Change Request: New Program for FY 2020 to account for VW projects.		
Activities		
Develop Program Implementation Manual.		
Conduct outreach and workgroup meetings.		
Prepare funding disbursement requests.		
Develop & maintain grants management system.		
Develop & maintain program website.		
Develop program solicitation package and open the solicitation.		
Evaluate applications and prepare recommendations for awards.		
Contract with selected grantees.		
Inspect and monitor projects.		
Review project invoices and process payments.		
Prepare and submit funding disbursement requests and reports to CARB.		
Major Objectives		Delivery Date
Conduct outreach and workgroup meetings		7/31/2019
Develop data management system and Program website		7/31/2019
Prepare and update Program Implementation Manual as needed		6/30/2020
Issue a solicitation for applications, evaluate project applications, recommend award for funding, execute contracts with grantees, monitor project progress, and report the use of funds		6/30/2020

Community Engagement - Special Project		325
Managing Division: Community Engagement and Policy Division		
Contact Person: Luz Gomez		
Program Purpose: This program will implement Supplemental Environmental Program (SEP) funded by the California Air Resources Board (CARB). The goal of the program is to provide high efficiency indoor air filtration systems in some of the most impacted communities in the Bay Area.		
Description of Program: In 2018 the Air District applied for a Supplemental Environmental Program grant from CARB and received \$2,000,000 to provide air filtration systems at sensitive receptor facilities in disproportionately impacted and disadvantaged communities in the Bay Area. During FY20 the program will focus on providing filtration to public elementary schools in priority communities identified through AB 617. The Air District will contract with a provider to do site assessment, installation and maintenance.		
Justification of Change Request: The Air District received the funds in early 2019, and there will be no impact on the Air District's general fund.		
Activities		
Supplemental Environmental Projects (SEP): program to install air filtration systems at schools in AB 617 priority communities		
Identify high priority schools for air filtration systems		
Enter into a contract with IQ Air for filtration system site assessment, installation and 5-year maintenance at each school		
Provide program and contract oversight		
Major Objectives		Delivery Date
Implement first CARB SEP for filtration systems at elementary schools in AB 617 priority communities		6/30/2020

 Jack P. Broadbent
 Executive Officer/APCO

Updated: 2/6/19

APPENDIX B

SELECTED LEGAL REQUIREMENTS

The following highlights selected major legal requirements regarding the use and collection of funds that are considered when developing and reviewing the Air District's budget:

1. Federal law requires that the Air District collect fees from affected facilities to fund the implementation of Title V of the Federal Clean Air Act (42 U.S.C. Section 7401, et seq. and implementing regulations in 40 CFR Parts 60 and 70). Implementation of Title V includes all activities involved in the review, issuance, and enforcement of Title V Permits. "Affected facilities" include all major stationary sources as defined in the Federal Clean Air Act.
2. Revenue received by the Air District pursuant to *California Health and Safety Code* Section 44220, et seq. (Transportation Fund for Clean Air (TFCA)) may only be used to fund approved projects, and certain expenditures incurred for administration of the TFCA program, including audits. The expenditures for the administration of TFCA grants are contained in the Transportation Fund for Clean Air Administration.
3. Permit fee revenue may only be used to fund activities associated with the permitting, monitoring, and enforcement of regulations affecting permitted stationary sources. Past audits of District activities have shown that the Air District's programs meet this test.
4. Funding from several sources, including grants, is restricted, and thus may only be used to fund certain activities. Air District accounts are periodically audited to ensure that such funds are used appropriately.
5. *California Health and Safety Code* Section 40131(a)(3) requires that two public hearings be held regarding the adoption of the District budget. The first hearing is for the exclusive purpose of reviewing the budget and providing the public with the opportunity to comment upon the proposed budget. This hearing must be separate from the hearing at which the District adopts its budget. The adoption hearing may not be held any sooner than two weeks after the first hearing. Thirty (30) days public notice must be given before the first public hearing.
6. The Maintenance of Effort (MOE) level refers to a Federal EPA Section 105 grant condition. This condition states that, "No agency shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for recurrent expenditures for air pollution control programs will be less than its expenditures were for such programs during the preceding fiscal year unless the Administrator, after notice and opportunity for public hearing, determines that a reduction in expenditures is attributable to a non-selective reduction in the expenditures in the programs of all Executive branch agencies of the applicable unit of Government." Depending on the expenditures reported on the Federal Status Report (FSR) at the conclusion of the federal FYE 2019, receipt of the Federal grant funds for FYE 2020 could be delayed or jeopardized because of this MOE requirement.

APPENDIX C

GENERAL FUND BALANCE AND LIABILITIES

APPENDIX C

GENERAL FUND BALANCE AND LIABILITIES

APPENDIX C depicts the actual unrestricted funds at the end of FYE 2018, as well as, the projected amount for FYE 2019 and FYE 2020. For FYE 2019, a recommendation of \$4.0 million is to fund projects using a revolving loan arrangement to leverage these funds. For FYE 2020, a recommendation of \$4.0 million is to fund building improvements for the Air District's Richmond Office. In an effort to remain fiscally prudent, the District established an economic contingency reserve policy (greater than 20% of General Fund operating expense) to ensure the stability of services for a period of time and the ability to set aside fund for anticipated projects and future obligations. During the budget process, staff recommends designations for the remaining fund balance. The following is a brief description summarizing designated categories as shown in the table on the previous page:

- Diversity Equity & Inclusion established in FYE2018 for education and training.
- Economic Contingency was established in FYE2008 at the request of the Board for unplanned expenditures and/or unanticipated loss in revenues. In FYE2016, the Board approved a 20% reserve policy as a funding target.
- GHG Abatement Technology Study established in FYE2015 to provide funding, via the Air District's Clean Air Foundation, for a study into the best available control technology for greenhouse gases at permitted sources.
- IT Event Response established in FYE2014 to address information technology related incidents that compromises the District's IT systems.
- Litigation – established in FYE2017 to address uncertainties for pending litigation.
- Napa/Sonoma Fireplace Replacement Grant establish in FYE 2019 to assist fire victims rebuild home fireplaces with cleaner heating options.
- Pension Liability established in FYE2018 to reduce future rate increases to pension benefits over time.
- Tech-Meteorological Network Equipment established in FYE2014 to replace network equipment that is no longer supported and has past the end of its useful life.
- Tech- Mobile Monitoring Instruments established in FYE2014 to purchase instruments to operate the Air District's Mobile Monitoring Program.
- Woodchip Program established in FYE2018 to provide grants for alternative to burning.
- Wood Smoke Grant established in FYE2018 to extend the grants program especially to high wood smoke areas.
- Worker's Compensation established in FYE2004 as a result self-funded policy which requires the District to pay for potential claims over and above its deductible limits.
- Building Proceeds established in FYE2015 from the sale of 939 Ellis Building and will be used towards the acquisition of 375 Beale and associated obligations.

APPENDIX D

Figure 1

General Fund Revenue Trends

Figure 1 below graphically displays the trends in the sources of revenue used to fund expenditures each year from FYE 2016 through FYE2018 along with the adopted and proposed budget for FYE 2019 and FYE 2020, respectively.

As seen from Figure 1, permit fees are the District’s largest single source of revenue. Permit fees fluctuates from FYE 2016 through FYE 2018 as a result of certain fees being billed and collected on a two-year cycle. Projected fees are expected to increase approximately 2.7 % due to proposed fee increase consistent with the Air District’s cost recovery policy. County revenues experienced significant increases over the past three years as a result of increased property valuation and construction activities in the Bay Area. This revenue source is expected to continue to grow in FYE 2020. Other General Fund sources of revenue have experience slight growth as well over the year.

APPENDIX E

Figure 2

General Fund Expenditure Trends

Below Figure 2 shows the trends in actual expenditures from FYE 2016 through FYE 2018 along with the approved and proposed budget expenditures for FYE 2019 and FYE 2020, respectively. From FYE 2016 through FYE 2020, total General Fund have risen at an average rate of 9% per year from \$74.3 million to \$104.6 million due to increased Personnel Costs, Services and Capital Programs expenditures. The FYE 2020 General Fund Proposed Budget shows a projected \$5.5 million increase in expenditures over FYE 2019; which is mainly attributed to increase General Fund Budget positions and capital building improvements.

APPENDIX F

APPENDIX F

Figure 3 and Budget Assumptions

Revenue Assumptions

- a. **Property Tax** continues to grow as the Bay Area experiences robust construction and housing markets. The five-year forecast assumes continued growth of approximately 4% in revenues for year 2020 and 2021; thereafter, only a 3% inflationary growth in years 2022 through 2023.
- b. **Permit Fee** revenues are expected to increase annually by approximately 4% during the five-year forecast as a result of the Air District's Cost Recovery policy, which allows the Air District to increase its fee schedule to recover costs for permit related activities. The current cost recovery level of 84% is expected to drop in the current year due in part to the new and enhanced program costs. Projections suggest attainment of the 85% cost recovery policy level before the end of the five-year forecast, as new and enhanced programs are fully implemented, and costs begins to level out.
- c. **Grant Revenues** remain stable based on current funding with no expected new grants anticipated through 2023.
- d. **Assembly Bill 617** funding of \$4.8 million from the State continues for the next 5 years.
- e. **Other Revenues** mainly account for penalties, State subvention, and interest income. These revenues are expected to remain stable.

Expenditure Assumptions

- a. **Personnel** costs are projected to increase for the five-year period with a 3% annual cost of living adjustment, a slight increase in health premiums, and the filling of some open positions. No increase in staffing level (other than the filling of open positions) is anticipated for the next 5 years.
- b. **Retirement Pension** costs are rising due to recent discount rate reduction by CalPERS and escalating unfunded liability payments. The forecast assumes implementation of the Air District's approved policy to make discretionary payments to CalPERS to reduce the unfunded actuarial liability (UAL).
- c. **Other Post-Employment Benefits (OPEB)** for retiree medical benefits are projected to be approximately 100% funded by FYE 2024. After that, the \$4.0 million in discretionary funding will shift towards the CalPERS Pension Plan to reduce the UAL.
- d. **Services and Supplies** costs are projected to level off, assuming only an inflationary increase of approximately 2-3%.
- e. **Capital Expenditures** are expected to remain level, with only an inflationary increase.

General Fund Reserves are used to fund one-time costs, and to cover temporary revenue shortfalls. The Air District purchased additional space at 375 Beale and an East Bay facility in 2018 using approximately \$13.1 million from the reserves. Reserves are expected to stay above the minimum policy level ensuring continuation of the Air District's operations, should another economic downturn occur.

APPENDIX G

Definitions

AB 434 (Assembly Bill 434) – This enacted bill resulted in *California Health and Safety Code* Section 44241 which authorizes the District to levy a fee on motor vehicles registered in the District. The revenue must be used to fund specified programs aimed at the reduction of air pollution from motor vehicles. The bill allows the District to allocate not more than five percent (5%) of the fees distributed for administrative costs. See TFCA (Transportation Fund for Clean Air).

AB 617 (Assembly Bill 617) This enacted bill requires the state board to develop a uniform statewide system of annually reporting of emissions of criteria air pollutants and toxic air contaminants for use by certain categories of stationary sources.

AB 923 (Assembly Bill 923) – This enacted bill allows an additional \$2 surcharge on Motor Vehicle Registration fees for MSIF (Mobile Source Incentive Fund).

AHM (Acutely Hazardous Material) – Those materials that have been defined as such by either State or Federal regulations as being hazardous to human health.

AIRS (Aerometric Information Retrieval System) – Computerized information system as delineated by the EPA (Environmental Protection Agency).

APCO – Air Pollution Control Officer – Appointed by the Board of Directors.

Appropriation – A legal authorization to incur obligations and to make expenditures for specific purposes.

Association of Bay Area Governments (ABAG) – Regional agency covering the nine counties of the Bay Area, responsible for population projections, various services for local agencies, and co-lead agency for federal air quality planning.

A&WMA (Air & Waste Management Association) – The international nonprofit organization of regulatory, business, academic and research communities for air and waste management professionals.

BACT (Best Available Control Technology) – The lowest achievable emission rate to be applied to new and modified stationary sources pursuant to the District's New Source Review permitting program.

Board – Board of Directors and also Hearing Board. The Board of Directors is the governing body of the District. The Hearing Board is appointed by the Board of Directors. (See Programs 121 and 122).

California Clean Air Act 1988 – Statutory scheme to reduce air pollution from stationary and mobile sources as set forth in *California Health and Safety Code* Section 39600 et seq.

Capital Expenditures – An amount spent to acquire land, building, equipment, vehicles etc. in order to increase capacity or efficiency by the District for more than 1 year. Such purchases are capitalized or depreciated over the useful land, except for land.

Carl Moyer Program – Provides grants to public and private entities to reduce emissions of oxides of nitrogen, reactive organic gases and particulate matter from existing heavy-duty engines by either replacing or retrofitting them.

CAPCOA (California Air Pollution Control Officers Association) – Organization comprised of local air pollution control officials; human resource and fiscal staff are also members.

CARB or ARB (California Air Resources Board) – The State agency responsible for setting California Ambient Air Quality Standards (CAAQS) and motor vehicle emission standards, and for overseeing implementation of the California Clean Air Act.

CEC (California Energy Commission) – The state agency responsible for energy policy and planning.

CEMS – (Continuous Emissions Monitoring Systems) – Technology that allows the District to measure certain emissions on a continuous basis.

CEQA (California Environmental Quality Act) – State law that requires public agencies to analyze environmental impacts of proposed projects and plans. (*California Public Resources Code* Section 21000 et seq.)

CFC (Chlorofluorocarbon) – Any of a group of compounds that contain carbon, chlorine, fluorine and sometimes hydrogen and are used as refrigerants, cleaning solvents, and aerosol propellants and in the manufacture of plastic foams.

Clean Air Act Amendments of 1990 – Revisions to the Federal legislation governing air quality planning and control programs to meet National ambient air quality standards.

CMA (Congestion Management Agency) – Countywide agency responsible for preparing and implementing congestion management programs.

CMAQ – (Congestion Mitigation and Air Quality) - The District receives funding under this grant to fund the Spare the Air campaign.

Contractual Services – Services rendered to a government by private firms, individuals, or other governmental agencies.

COLA (Cost of Living Adjustment) – An adjustment to salaries based on the increased cost of living as defined by the percent change in the U.S. Department of Labor’s Consumer Price Index.

DAPCO (Deputy Air Pollution Control Officer) – Deputy Officer to the APCO.

Environmental Justice – The fair treatment of people of all races and incomes with respect to development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment implies that no person or group of people should shoulder a disproportionate share of negative environmental and economic impacts resulting from the execution of environmental programs.

EPA (Environmental Protection Agency) – Federal agency that oversees air, water and waste management. An assistance grant is provided to various agencies in their efforts to reduce air pollution.

EPA 103 Grant – Provides funding for all aspects of operating the PM_{2.5} fine particulate monitoring program as well as BioWatch, the National Air Toxic Trends Study (NATTS) Program and other supplemental study programs awarded by the EPA.

EPA 105 Grant – Grant pursuant to federal Clean Air Act Section 105.

Fiscal Year – A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization; July 1 through June 30 is the fiscal year for the District.

FICA (Federal Insurance Corporation Act) Replacement Benefits – In 1981, District employees elected to terminate participation in Social Security. FICA costs listed in the budget reflect the replacement benefit premiums paid in lieu of Social Security.

Fixed Assets – Assets of long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

FTE (Full-time Equivalent Position) – A position converted to the decimal equivalent of a full-time position based on 2,080 hours of work per year.

Fund – A fiscal entity with revenues and expenditures that are segregated for the purpose of carrying out a specific purpose or activity.

Fund Balance – Designated – That portion of the fund balance designated by the governing body to indicate tentative plans for financial resource utilization in a future period.

Fund Balance – Reserved – That portion of the fund balance obligated by the issuance of purchase orders or contracts (encumbrances), or otherwise obligated and unavailable to meet the District’s operating expenditures.

Fund Balance – Undesignated – That portion of the unreserved fund balance that represents the accumulated surplus which, as specified in the *California Government Code*, is restricted to the following uses: to meet cash requirements before the proceeds from revenues are available, to meet emergency expenditures, and at the end of each fiscal year to meet current year operating or subsequent year budget deficits.

Fund Balances – The equity accounts for the governmental fund types.

Group Insurance Benefits – benefits provided to BAAQMD employees, including medical, dental, vision, and life insurance as well as State Disability Insurance, Section 125 cafeteria plan, Long Term Care and Long Term Disability, Section 457 deferred compensation plan, and COBRA program.

IRIS (Integrated Reporting Information System) – The name of the District’s database conversion project.

MACT (Maximum Achievable Control Technology) – EPA standards mandated by the 1990 amendments to the Federal Clean Air Act for control of toxic air contaminants.

Metropolitan Transportation Commission (MTC) – Bay Area regional agency responsible for transportation planning, financing and coordination; co-lead agency for Federal air quality planning.

MSIF (Mobile Source Incentive Fund) – The Air District’s grant program for allocating revenues from an additional motor vehicle registration fee surcharge for implementation of eligible projects.

NOV (Notice of Violation) – A written citation informing a facility, or individual, that it has violated a specific air quality regulation or rule.

OVA (Organic Vapor Analyzer) – Hand-held analyzer used to detect organic vapor leaks from valves and other chemical and refinery equipment.

PERP (Portable Equipment Registration Program) – a program established by CARB allowing the operation of portable equipment in any air district throughout the state without individual local district permits.

PERS (Public Employees Retirement System) – The retirement system contracted by the District to provide retirement benefits to employees

Program Budget – A budget that allocates financial resources to functions or activities of government, rather than to specific types of expenditure, or to specific departments.

PSM (Process Safety Management) – Federal OSHA regulation that requires industrial safety audits.

Request for Proposals (RFP) – A document requesting bids to provide specified services or supplies.

RMPP (Risk Management and Prevention Plan) – State Program that the District monitors to prevent accidental releases of hazardous materials.

SIP (State Implementation Plan) – Bay Area portion of California plan to attain and maintain national ambient air quality standards.

State Subvention Revenue – Pursuant to Part 2, Chapter 5 of the *California Health and Safety Code*, the California Air Resources Board must subvene and distribute funds to Districts engaged in the reduction of air contaminants. The distribution is based on a per-capita basis of population contained in the District.

T-BACT (Toxic Best Available Control Technology) – The lowest achievable emission rate for toxic air contaminants at new or modified stationary sources.

TCM (Transportation Control Measure) – A strategy to reduce vehicle trips, vehicle use, vehicle miles traveled, vehicle idling, or traffic congestion for the purpose of reducing motor vehicle emissions.

TFCA (Transportation Fund for Clean Air) – The District’s grant program for allocating revenues from a motor vehicle registration fee surcharge to public agencies for implementation of eligible projects that reduce motor vehicle emissions.

UNIX – A computer operating system.

UTM – A coordinate system for geographical locations.

Vehicle Buy Back – The District’s sponsored incentive program for the scrapping of 1985 and older models funded under TFCA. The program will pay eligible owners \$650 to contract with a specific auto dismantler to have their vehicle dismantled.

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

Memorandum

To: Chairperson Carole Groom and Members
of the Budget and Finance Committee

From: Jack P. Broadbent
Executive Officer/APCO

Date: March 8, 2019

Re: Proposed Amendments to Regulation 3: Fees

RECOMMENDED ACTION

None; receive and file.

BACKGROUND

Staff develops recommended amendments to the Air District's fee regulation as part of the budget preparation process. On March 7, 2012, the Board of Directors adopted a Cost Recovery Policy that established a goal of increasing fee revenue sufficient to achieve a minimum of 85 percent recovery of regulatory program costs. Progress towards this target is reported to the Board annually by staff and is periodically reviewed by outside consultants.

DISCUSSION

Consistent with the Cost Recovery Policy, draft amendments to specific fee schedules were made in consideration of the June 30, 2018, Matrix Consultant Group cost recovery analysis. This work, conducted at the fee schedule-level, recommends larger increases being proposed for the schedules that have larger cost recovery gaps.

Existing fee schedules would be amended as follows:

- 3.9 percent increase for fee schedules that are recovering 95 to 110 percent of costs.
- 7 percent increase for fee schedules that are recovering 85 to 94 percent of costs.
- 8 percent increase for fee schedules that are recovering 75 to 84 percent of costs.
- 9 percent increase for fee schedules that are recovering 50 to 74 percent of costs.
- 15 percent increase for fee schedules that are recovering less than 50 percent of costs.

A number of fees that are administrative in nature; permit application filing fees, alternative compliance plan fees, permit to operate renewal processing fees, transfer fees, emissions banking filing and withdrawal fees, school public notice fees, toxic inventory maximum fees, and exemption fees would be increased by 3.9 percent. The annual Consumer Price Index for Bay Area Urban Wage Earners and Clerical Workers (CPI-W) increased 3.9 percent from 2018 to 2019.

The following additional amendments are proposed:

- Revise Section 3-302, to specify that for those applicants that qualify for both the Small Business Discount (50%) and Green Business Discount (10%), only the 50% higher discount shall be applied.
- Revise Section 3-304, Alteration, to clarify that the risk assessment fee shall only be charged when the alteration required a health risk assessment.
- Revise Section 3-311, to align the current rule language with established Air District practice for applying banking fees to emission reduction credit transactions.
- Add Section 3-343, Fees for Air Dispersion Modeling, to recover the Air District's costs for conducting, reviewing, or approving air dispersion modeling done to meet an Air District regulatory requirement (e.g., for demonstrating compliance with Regulation 9 Inorganic Gaseous Pollutants, Rule 2 Hydrogen Sulfide requirements, Regulation 2-2-308 National Ambient Air Quality Standards (NAAQS) Protection Requirement).
- Revise Section 3-405.5, to reduce additional late fees charged to invoices for registration and other fees which are more than 30 days late. Historically, these delinquent fees have been assessed at a disproportionately high rate to small businesses such as gasoline dispensing facilities, dry cleaners, and auto body shops. To reduce this burden on small businesses, the proposed amendment lowers this delinquent fee from 50% to 25%.
- Fee Schedule changes:
 - Increase Fee Schedule D, Gasoline Transfer at Gasoline Dispensing Facilities, Bulk Plants and Terminals, by 6%, even though cost recovery would have allowed an 8% increase, since many gasoline dispensing facilities are small businesses.
 - Revise Fee Schedule E, Solvent Evaporating Sources, to clarify when the minimum and maximum fees apply for each source.
 - Revise Fee Schedule L, Asbestos Operations, to delete the fee specific to mastic removal by mechanical buffers to assess fees for such work at the same rate as for other regulated asbestos containing material removal work.
 - Revise Fee Schedule N, Toxics Inventory Fees, to recover the Air District's costs for AB 2588 fees to be paid to the California Air Resources Board (CARB) and for staff to conduct the Air District's AB 2588 work.
 - Revise Fee Schedule S, Naturally Occurring Asbestos Operation, to include a fee of \$325 to recover the costs for reviewing, processing, and approving amendments to existing Asbestos Dust Mitigation Plans (ADMPs). Also, revise Section 3-332 to clarify that persons required to amend ADMPs shall pay the fees set out in Fee Schedule S.

Staff will provide the committee with additional details regarding the draft fee amendments, overall cost recovery and the proposed 6.4 percent average fee increase for the upcoming fiscal year. A summary of public comments received to date, including those received at a public workshop held on February 19, 2019, will be provided.

BUDGET CONSIDERATION/FINANCIAL IMPACT

The proposed fee amendments would increase fee revenue in Fiscal Year Ending (FYE) 2020 by an estimated \$2.74 million from revenue that would otherwise result without a fee increase.

Respectfully submitted,

Jack P. Broadbent
Executive Officer/APCO
