BACKGROUND

This change also includes additional requirements for mobile coating operations (mobile coaters) and their clients. Mobile coaters will also be required to register with the Air District by October 1, 2009. Under certain circumstances, mobile coaters will also be required to notify the District of upcoming automotive coating jobs. Mobile coating clients for which coating was performed at least five times within a year (or for 25 vehicles in a year) are required to maintain records of these operations, including information on the mobile coater, the dates of the coating operations, and the number of vehicles refinished.
