

Instructions: How to Comply with Criteria Toxics and Reporting Requirements

Introduction

Use the following instructions to help guide you through the ***BAAQMD Data Update: CTR Reporting process.***

Who should use this reporting method?

This form is for owners or operators that are required to report data to comply with the California Air Resources Board's Criteria Pollutant and Toxics Emissions Reporting (CTR) rule.

Instructions

- Report data by the deadline indicated in the package of documents.
 - Report data based on activity from the previous calendar year from **January 1 through December 31.**
 - If usage is not metered, provide a best estimate.
 - **Do not leave any blank throughput fields.** Report 0 if the device did not operate.
 - Report only using numbers.
 - Do not use shorthand such as k, m, mm or MM.
 - Report data in only the usage units indicated on the documents.
 - If you need to report additional materials not currently listed, **please submit** a Data Form X for each new material.
 - Do not make any additional changes or markings on these documents.
 - If you need to notify the Air District of other information, please submit the appropriate form or provide the information in a separate document.
 - If any device/source has shutdown, please submit a Device and Facility Shutdown Form.
 - Under the California Public Records Act, all information contained in your submittal will be considered a matter of public record and may be disclosed to the public, unless you have asked BAAQMD to treat certain items as trade secret as specified in Regulation 2, Rule 1, Section 402.7.
 - Each page containing trade secret information must be labeled "trade secret" with the trade secret information clearly marked and you must provide a "public copy" with the information redacted.
 - For each item asserted to be trade secret, you must provide a statement which provides the basis for your claim.
 - Send all completed documents to only the address options below.
