RE: Permit Application #19563 for the following source(s) of air pollution:

**Multiple Chamber Crematory (for human remains),
CMS Millennium III, 2.25 MMBtu/hr, 100 lbs/hr (max.)**

**Grissom's Chapel and Mortuary
267 E. Lewelling Blvd.
San Lorenzo, CA 94580**

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Grissom's Chapel and Mortuary has applied for an Authority to Construct and/or Permit to Operate a multiple chamber crematory for human remains.

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source(s) are within acceptable levels, and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed project.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
