

BAY AREA  
AIR QUALITY  
MANAGEMENT  
DISTRICT

# PUBLIC NOTICE

April 02, 2024

TO: Parents or guardians of children enrolled at the following school(s):

**Redwood High School**

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #694744 for the following source(s) of air pollution:

**Sub-Slab Depressurization System  
1776 Laurel St., San Carlos  
1776 Laurel Street, San Carlos, CA 94070**

---

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site or within a community that is overburdened by air pollution, we notify the public about the proposed project. To comply with Air District requirements, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

*1776 Laurel St., San Carlos* has applied for an Authority to Construct and/or Permit to Operate for a Sub-Slab Depressurization (SSD) system with the objective of mitigating Volatile Organic Compounds (VOC) trapped in the soil that enter buildings within the facility.

The project includes an OBAR GBR76 radial blower with a limited outflow capacity of 81 cubic feet per minute.

***PRELIMINARY EVALUATION***

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

***ADDITIONAL INFORMATION***

The Air District's Community Health Protection Program is focused on reducing air pollution disparities in overburdened communities. For more information on Air District activities in your community, consult the Air District's website at:

<https://www.baaqmd.gov/community-health>

If you are interested in getting more information about this project, you may obtain a copy of the District's evaluation report from the Air District's website at:

<http://www.baaqmd.gov/permits/public-notices>

***PUBLIC COMMENT PERIOD***

**There is a 30-day period for public response to this proposal. If you wish to comment on the proposed project, you may do so in writing or by e-mail. Alternatively, you may call and leave a telephone message up to one minute in length. Please leave your name and telephone number so that a District staff member may respond to your message.**

Please use the following contact information if you would like to comment on the proposed project:

Mailing address: 1776 Laurel St., San Carlos (A/N #694744)  
Public Notice Response  
BAAQMD - Engineering Division  
375 Beale Street, Suite 600
