Dear Ms. Jordan:

The purpose of this letter is to cancel the Major Facility Review (Title V) permit and to issue a synthetic minor permit for this facility.

(Secretary)

This facility was issued a Title V permit on December 18, 1998, because it was a major source of NOx and CO. On May 21, 2004, the facility submitted a synthetic minor permit application because it will accept a synthetic minor permit operating condition limiting its maximum NOx and CO emissions to below 95 tons per year. The District has reviewed the proposal, has determined that it is adequate to keep the facility's emissions below the major source thresholds, and therefore is issuing a synthetic minor permit to the facility.

The cancellation of the Title V permit and issuance of the synthetic minor permit are effective as of the date of this letter. The synthetic minor permit evaluation and conditions are attached.
