Dear Ms. Sasaki:

This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for your facility.

The purpose of this minor revision is to revise the Title V permit to reflect modifications that were previously approved under the following NSR applications:

- Application #27113
The purpose of the application was to allow 100 hours per year for maintenance and testing for S197, Emergency Sludge Loading Facility.
- Application #28470
The purpose of the application was to add an oxidation catalyst to S188, Turbine (50 MMbtu/hr).

The 45-day EPA review period for the proposed minor revision has been completed. No comments on this proposed minor revision were received from EPA. Therefore, the District has decided to issue the revised permit.

Enclosed is a copy of the final revised permit. If you have any questions regarding this permit, please contact Brenda Cabral, Supervising Air Quality Engineer, at (415) 749-4686 or bcabral@baaqmd.gov.

Sincerely yours,

Signed by Pamela J. Leong
