The purpose of this minor permit revision is to incorporate a new recycling operation into the Title V permit for this site. The S-63 Dry Waste Material Recovery Facility and A-63 Water Sprays were issued an Authority to Construct pursuant to District new source review permit application 22889. This equipment will sort out the recyclable materials from construction and demolition debris and other dry waste streams. The proposed revisions are described in the Statement of Basis. The District did not receive any comments on the proposed minor revision from ARB. The facility requested to change the Responsible Official and correct the Facility Contact's information. These requested changes have been incorporated into the final permit.

The final permit can be viewed on the BAAQMD website at <http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits.aspx>. We will also send the permit to you via the Electronic Permit Submittal System. If you have any questions regarding this permit revision, please call Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely yours,
