

## NOTICE INVITING WRITTEN PUBLIC COMMENTS

**NOTICE** is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Renewal of the Major Facility Review Permit for the following facility:

Application	Facility #	Facility Name	Address, City	Type of Operation
18948	A1784	San Francisco International Airport	SFO International Airport San Francisco	Airport

Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at each facility. There have been no significant changes in emissions at this facility since the current Title V permit was issued in 2004.

The initial Title V permit for this facility was issued on April 14, 2004. The permit has not been revised since its initial issuance. All proposed changes to the current permit are shown in strikeout/underline format.

The Air Pollution Control Officer invites written comment on the above proposed permit renewal. Comments must be received by June 4, 2012. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed permit and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region 9, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the decision to not object to the permit. The beginning and end of EPA's review period can be found on the EPA Region IX website at the following address:
