**READ-RITE** June 5, 2003

Mr. Julian Elliott, P.E.  
Bay Area Air Quality Management District  
939 Ellis Street  
San Francisco, CA 94109-7799

Re: Plant #2124, Permit Changes

Dear Julian:

I am writing to inform you a change to our equipment that should be reflected in the permit. Read Rite Corporation located at 345 Los Coches had ceased operation since April 16, 2003. All solvent stations/equipment were totally drained and empty. JDSU applied a permit for the standby diesel generator in this building. Once JDSU get the permit on this unit, READ-RITE CORPORATION will close the BAAQMD permit. Please reflect the following changes from Read-Rite's permit.

**Source 9:** Waste Solvent Tank, Please delete this source from the permit.

**Source 20:** Wafer Fab operation, Please delete this source from the permit.

Please contact me if you have any questions or concerns.

Sincerely,  
  
Nandy Espiritu  
Sr. EH&S Engineer  
510-683-7202
