Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program, and BAAQMD Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air pollutant emission requirements that apply to each source of emissions at each facility. There have been no significant changes in air pollutant emissions at this facility since the current Title V permit was issued on March 14, 2014.

The Air Pollution Control Officer invites written comment on the proposed renewal Title V permit for the facility listed above. Comments must be received by April 14, 2021. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review by US EPA. If US EPA does not object to a proposed permit or a member of the public feels that the Air District has not addressed a public comment in a satisfactory manner, the public may, within 60 days after the end of the 45-day US EPA review period, petition US EPA to reconsider their decision to not object to the permit. Petitions shall be submitted to US EPA Region 9, Operating Permits Section, at 75 Hawthorne Street, San Francisco, CA 94105.

The proposed permit and statement of basis may be viewed on the Air District website at the following address: <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. Written comments should be sent by postal mail to Nimrat Sandhu at the Bay Area Air Quality Management District at the address listed above or by email to nsandhu@baaqmd.gov. Any request for information or for a public hearing should be directed to Dennis Jang at djang@baaqmd.gov.
