

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Executive Officer/Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Renewal of the Major Facility Review Permit for the following facility:

Applications	Facility #	Facility Name	Address, City	Type of Operation
17057	A2561	Shoreline Amphitheatre	One Amphitheatre Parkway, Mountain View, CA 94043	Closed Solid Waste Landfill

Major facilities are required to obtain operating permits under Title V of the 1990 Clean Air Act Amendments, the Federal Operating Permit Program and the District's Regulation 2, Rule 6 - Major Facility Review. The permits summarize all air-related requirements that apply to each source of emissions at each facility.

The initial Title V permit for this facility was issued on June 13, 2003. The permit was revised on October 7, 2003; this proposed permit renewal represents the second revision. Details of the previous revision can be found in Section X of the permit "Revision History". All changes to the most recent version of the permit are clearly shown in strikeout/underline format.

All emission increases at this facility were discussed in the Statement of Basis for the previous Title V permit revision. The current facility wide maximum permitted emission rates are: 3.2 tons/yr of CO, 2.1 tons/yr of NO_x, 0.3 tons/yr of PM₁₀, 0.2 tons/yr of SO₂, and 0.1 tons/yr of POC. This proposed permit renewal will not result in any emission increases.

The Executive Officer/Air Pollution Control Officer invites written comment on the above proposed permit renewal. Comments must be received by April 3, 2009. Any interested person may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed significant revision and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the issuance of the permit. The beginning and end of EPA's review period can be found on EPA Region IX's website at: <http://www.epa.gov/region09/air/permit/index.html>.

The proposed revised Major Facility Review permit, application, and evaluation reports are available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA, in the Engineering Division, 3rd Floor. For an appointment, please call May Leung at (415) 749-4729. The proposed permit and evaluation reports are also available on the District's webpage at the following address: http://www.baaqmd.gov/pmt/title_v/public_notices.htm. Written comments should be directed to Carol Allen, at Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109 or by e-mail to callen@baaqmd.gov. Any request for information or for a public hearing should be directed to Carol Allen at (415) 749-4702.

Dated at San Francisco, February 18, 2009

Signed by Jack P. Broadbent
