The District proposed a minor permit revision for this facility on December 15, 2005, 2005. The main purpose of this proposed permit revision was to accommodate the City of Mountain View's plans to sell landfill gas generated by the closed Shoreline Landfills to ALZA Corporation by modifying permit conditions and adding a Schedule of Compliance that applies during the start-up periods for the new off-site IC engines. In addition, the District proposed revisions to requirements and permit conditions for two microturbines that recently commenced operation. The District also updated a regulatory amendment date in Section IV and a website address in Section XII.

The EPA comment period ended on January 29, 2006. No comments were received from EPA. The following additional administrative amendment was made to the permit: an erroneous citation was deleted from Tables IV-A and IV-C, as shown in Attachment 1, because the cited section is not in the SIP.
