Bay Area Air Quality Management District

939 Ellis Street San Francisco, CA 94109 (415) 771-6000

Proposed

MAJOR FACILITY REVIEW PERMIT

Issued To:
Western Fiberglass, Inc.
Facility #A7974

Facility Address:

1555 Copperhill Parkway Santa Rosa, CA 95403

Mailing Address:

1555 Copperhill Parkway Santa Rosa, CA 95403

Responsible Official: Frank Lillo, President (707) 523-2050 **Facility Contact:** Courtney van Amstel (707) 523-2050

Type of Facility: Fiberglass/Resin Operation BAAQMD Engineering Division_Contact:

Primary SIC: 3088 Madhav Patil

Product: Fiberglass Products Air Quality Engineer

ISSUED BY THE BAY AREA AIR QUALITY MANAGEMENT DISTRICT

I. STANDARD CONDITIONS

Volume II, Part 3, §4.11)

| O^{\perp} | X X Y Y Y | DANCE CONDITIONS |
|-------------|------------------------|--|
| | Ad The reg BA | Iministrative Requirements e permit holder shall comply with all applicable requirements in the following gulations: AQMD Regulation 1 - General Provisions and Definitions (as amended by the District Board on 7/19/065/4/11); P Regulation 1 - General Provisions and Definitions (as approved by EPA through 6/28/99); AQMD Regulation 2, Rule 1 - Permits, General Requirements |
| | SII | (as amended by the District Board on 7/19/064/18/12); P Regulation 2, Rule 1 - Permits, General Requirements |
| | BA | (as approved by EPA through 1/26/99); AAQMD Regulation 2, Rule 2 - Permits, New Source Review (as amended by the District Board on 6/15/05); |
| | | P Regulation 2, Rule 2 - Permits, New Source Review and Prevention of Significant terioration |
| | | (as approved by EPA through 1/26/99); AQMD Regulation 2, Rule 4 - Permits, Emissions Banking (as amended by the District Board on 12/21/04/12/19/12); |
| | | P Regulation 2, Rule 4 - Permits, Emissions Banking (as approved by EPA through 1/26/99); and AQMD Regulation 2, Rule 6 - Permits, Major Facility Review |
| В. | | (as amended by the District Board on 4/16/03). Inditions to Implement Regulation 2, Rule 6, Major Facility Review |
| | 1. | This Major Facility Review Permit was issued onand expires on The permit holder shall submit a complete application for renewal of this Major Facility Review Permit no later than and no earlier than If a complete application for renewal has not been submitted in accordance with this deadline, the facility may not operate after If the permit renewal has not been issued by but a complete application for renewal has been submitted in accordance with the above deadlines, the existing permit will continue in force until the District takes final action on the renewal application. (Regulation 2-6-307, 404.2, & 409.6; MOP Volume II, Part 3, §4.2) |
| | 2. | The permit holder shall comply with all conditions of this permit. The permit consists of this document and all appendices. Any non-compliance with the terms and conditions of this permit will constitute a violation of the law and will be grounds for enforcement action; permit termination, revocation and re-issuance, or modification; or denial of a permit renewal application. (Regulation 2-6-307; MOP Volume II, Part 3, §4.11) |
| | 3. | In the event any enforcement action is brought as a result of a violation of any term or condition of this permit, the fact that it would have been necessary for the permittee to halt or reduce the permitted activity in order to maintain compliance with such term or condition shall not be a defense to such enforcement action. (MOP |

I. Standard Conditions

- 4. This permit may be modified, revoked, reopened and reissued, or terminated for cause. (Regulation 2-6-307, 409.8, 415; MOP Volume II, Part 3, §4.11)
- 5. The filing of a request by the facility for a permit modification, revocation and reissuance, or termination, or the filing of a notification of planned changes or anticipated non-compliance does not stay the applicability of any permit condition. (Regulation 2-6-409.7; MOP Volume II, Part 3, §4.11)
- 6. This permit does not convey any property rights of any sort, or any exclusive privilege. (Regulation 2-6-409.7; MOP Volume II, Part 3, §4.11)
- 7. The permit holder shall supply within 30 days any information that the District requests in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. (Regulation 1-441, Regulation 2-6-409.4 & 501; MOP Volume II, Part 3, §4.11)
- 8. Any records required to be maintained pursuant to this permit, which the permittee considers to contain proprietary or trade secret information shall be prominently designated as such. Copies of any such proprietary or trade secret information which are provided to the District shall be maintained by the District in a locked confidential file, provided, however, that requests from the public for the review of any such information shall be handled in accordance with the District's procedures set forth in Section 11 of the District's Administrative Code. (Regulation 2-6-419; MOP Volume II, Part 3, §4.11)
- 9. Proprietary or trade secret information provided to EPA will be subject to the requirements of 40 CFR Part 2, Subpart B Public Information, Confidentiality of Business Information. (40 CFR Part 2)
- 10. The emissions inventory submitted with the application for this Major Facility Review Permit is an estimate of actual emissions or the potential to emit for the time period stated and is included only as one means of determining applicable requirements for emission sources. It does not establish, or constitute a basis for establishing, any new emission limitations. (MOP Volume II, Part 3, §4.11)
- 11. The responsible official shall certify all documents submitted by the facility pursuant to the major facility review permit. The certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete. The certifications shall be signed by a responsible official for the facility. (MOP Volume II, Part 3, §4.11)
- 12. The permit holder is responsible for compliance, and certification of compliance, with all conditions of the permit, regardless whether it acts through employees, agents, contractors, or subcontractors. (Regulation 2-6-307)

C. Requirement to Pay Fees

The permit holder shall pay annual fees in accordance with District Regulation 3, including Schedule P. (Regulation 2-6-402 & 409.13, Regulation 3; MOP Volume II, Part 3, §4.12)

I. Standard Conditions

D. Inspection and Entry

Access to Facility: The permit holder shall provide reasonable access to the facility and equipment, which is subject to this permit to the APCO and/or to his or her designee. (Regulation 1-440, Regulation 2-6-409.3; MOP Volume II, Part 3, §4.14)

E. Records

- 1. The permit holder must provide any information, records, and reports requested or specified by the APCO. (Regulation 1-441, Regulation 2-6-409.4)
- 2. Notwithstanding the specific wording in any requirement, all records for federally enforceable requirements shall be maintained for at least five years from the date of creation of the record. (Regulation 2-6-501, MOP Volume II, Part 3, §4.7)

F. Monitoring Reports

Reports of all required monitoring must be submitted to the District at least once every six months, except where an applicable requirement specifies more frequent reporting. Monitoring reports shall be submitted for the following periods: July 1st through December 31st and January 1st through June 30th, and are due on the last day of the month after the end of the reporting period. All instances of non-compliance shall be clearly identified in these reports. The reports shall be certified by the responsible official as true, accurate, and complete. In addition, all instances of non-compliance with the permit shall be reported in writing to the District's Compliance and Enforcement Division within 10 calendar days of the discovery of the incident. Within 30 calendar days of the discovery of any incident of non-compliance, the facility shall submit a written report including the probable cause of non-compliance and any corrective or preventative actions. The reports shall be sent to the following address:

Director of Compliance and Enforcement Bay Area Air Quality Management District 939 Ellis Street San Francisco, CA 94109 Attn: Title V Reports

(Regulation 2-6-502, MOP Volume II, Part 3, §4.7)

G. Compliance Certification

Compliance certifications shall be submitted annually by the responsible official of this facility to the Bay Area Air Quality Management District and to the Environmental Protection Agency. The certification period will be July 1st to June 30th. The certification shall be submitted by July 31st of each year. The certification must list each applicable requirement, the compliance status, whether compliance was continuous or intermittent, the method used to determine compliance, and any other specific information required by the permit. The permit holder may satisfy this requirement through submittal of District-generated Compliance Certification forms. The certification should be directed to the District's Compliance and Enforcement Division at the address above, and a copy of the certification shall be sent to the Environmental

I. Standard Conditions

Protection Agency at the following address:

Director of the Air Division USEPA, Region IX 75 Hawthorne Street San Francisco, CA 94105 Attention: Air-3

(MOP Volume II, Part 3, §4.5 and 4.15)

H. Emergency Provisions

- 1. The permit holder may seek relief from enforcement action in the event of a breakdown, as defined by Regulation 1-208 of the District's Rules and Regulations, by following the procedures contained in Regulations 1-431 and 1-432. The District will thereafter determine whether breakdown relief will be granted in accordance with Regulation 1-433. (MOP Volume II, Part 3, §4.8)
- 2. The permit holder may seek relief from enforcement action for a violation of any of the terms and conditions of this permit by applying to the District's Hearing Board for a variance pursuant to Health and Safety Code Section 42350. The Hearing Board will determine after notice and hearing whether variance relief should be granted in accordance with the procedures and standards set forth in Health and Safety Code Section 42350 et seq. (MOP Volume II, Part 3, §4.8)
- 3. The granting by the District of breakdown relief or the issuance by the Hearing Board of a variance will not provide relief from federal enforcement. (MOP Volume II, Part 3, §4.8)

I. Severability

In the event that any provision of this permit is invalidated by a court or tribunal of competent jurisdiction, or by the Administrator of the EPA, all remaining portions of the permit shall remain in full force and effect. (Regulation 2-6-409.5; MOP Volume II, Part 3, §4.10)

J. Miscellaneous Conditions

1. The maximum capacity for each source as shown in Table II-A is the maximum allowable capacity. Exceedance of the maximum allowable capacity for any source is a violation of Regulation 2, Rule 1, Section 301. (Regulation 2-1-301)

II. EQUIPMENT LIST

Table II A - Permitted Sources

Each of the following sources has been issued a permit to operate pursuant to the requirements of BAAQMD Regulation 2, Permits. The capacities in this table are the maximum allowable capacities for each source, pursuant to Standard Condition I.J and Regulation 2-1-301.

| S-# | Description | Make or Type | Model | Capacity |
|-----|--------------------|--------------|------------------|----------|
| S-1 | Filament Winder | Durawound | Model 10-C | N/A |
| S-2 | Closed Mold Vacuum | RTM Gun | Model 20210-00 | N/A |
| S-3 | Chopper Guns (2) | Glas-Craft | Model LPA-II-AAC | N/A |

Table II B – Abatement Devices

| A- # | Description | Source(s) Controlled | Applicable Requirement | Operating Parameters | Required Efficiency |

| | | | 6-1-310, and | | |
| | | | 6-1-311; | | |
| | | | SIP | | |
| | | | Regulations 6- | | |
| | | | 301, 6-310 and | | |
| | | | 6-311 | | |

III. GENERALLY APPLICABLE REQUIREMENTS

The permit holder shall comply with all applicable requirements, including those specified in the BAAQMD and SIP Rules and Regulations and other federal requirements cited below. These requirements apply in a general manner to the facility and/or to sources exempt from the requirement to obtain a District Permit to Operate. The District has determined that these requirements will not be violated under normal, routine operations, and that no additional periodic monitoring or reporting to demonstrate compliance is warranted. In cases where a requirement, in addition to being generally applicable, is also specifically applicable to one or more sources, the requirement and the source are also included in Section IV, Source-Specific Applicable Requirements of this permit. This section also contains provisions that may apply to temporary sources.

The dates in parentheses in the Title column identify the versions of the regulations being cited and are, as applicable:

- 1. BAAQMD regulation(s): The date(s) of adoption or most recent amendment of the regulation by the District Board of Directors
- 2. Any federal requirement, including a version of a District regulation that has been approved into the SIP: The most recent date of EPA approval of any portion of the rule, encompassing all actions on the rule through that date

The full language of SIP requirements is on EPA Region 9's website. The address is: http://yosemite.epa.gov/r9/r9sips.nsf/Agency?ReadForm&count=500&state=California&cat=Bay+Area+Air+Quality+Management+District-Agency-Wide+Provisions.

NOTE:

There are differences between the current BAAQMD rules and the versions of the rules in the SIP. All sources must comply with <u>both</u> versions of the rule until US EPA has reviewed and approved the District's revision of the regulation.

Table III
Generally Applicable Requirements

| Applicable | Regulation Title or | FE |
|-----------------------------|---|-------|
| Requirement | Description of Requirement | (Y/N) |
| BAAQMD Regulation 1 | General Provisions and Definitions (7/19/06 <u>5/4/11</u>) | N |
| SIP Regulation 1 | General Provisions and Definitions (6/28/99) | Y |
| BAAQMD Regulation 2, Rule 1 | General Requirements (7/19/06 <u>4/18/12</u>) | N |
| BAAQMD 2-1-429 | Federal Emissions Statement (6/15/0512/21/04) | N |
| SIP Regulation 2, Rule 1 | General Requirements (1/26/99) | Y |
| SIP Regulation 2-1-429 | Federal Emissions Statement (4/3/95) | Y |
| BAAQMD Regulation 4 | Air Pollution Episode Plan (3/20/91) | N |
| SIP Regulation 4 | Air Pollution Episode Plan (8/06/90) | Y |

III. Generally Applicable Requirements

| SIP Regulation 12, Rule 4 | Miscellaneous Standards of Performance - Sandblasting (9/2/81) | Y |
| California Health and Safety Code Section 44300 et seq. | Air Toxics "Hot Spots" Information and Assessment Act of 1987 | N |
| 40 CFR Part 61, Subpart M | National Emission Standards for Hazardous Air Pollutants – National Emission Standard for Asbestos (6/19/95) | Y |

IV. SOURCE-SPECIFIC APPLICABLE REQUIREMENTS

The permit holder shall comply with all applicable requirements, including those specified in the BAAQMD and SIP Rules and Regulations and other federal requirements cited below. The requirements cited in the following tables apply in a specific manner to the indicated source(s).

The dates in parentheses in the Title column identify the versions of the regulations being cited and are, as applicable:

- 1. BAAQMD regulation(s): The date(s) of adoption or most recent amendment of the regulation by the District Board of Directors
- 2. Any federal requirement, including a version of a District regulation that has been approved into the SIP: The most recent date of EPA approval of any portion of the rule, encompassing all actions on the rule through that date

The full text of each permit condition cited is included in Section VI, Permit Conditions, of this permit. The full language of SIP requirements is on EPA Region 9's website. The address is:

http://yosemite.epa.gov/r9/r9sips.nsf/Agency?ReadForm&count=500&state=California&cat=Bay+Area+Air+Quality+Management+District-Agency-Wide+Provisions.All other text may be found in the regulations themselves.

| Part 14 | No more than 1 Chopper Gun At a Time (basis: Cumulative Increase) | Y | |

V. SCHEDULE OF COMPLIANCE

The permit holder shall comply with all applicable requirements cited in this permit. The permit holder shall also comply with applicable requirements that become effective during the term of this permit on a timely basis.

VI. PERMIT CONDITIONS

Any condition that is preceded by an asterisk is not federally enforceable.

Condition # 9303

For S-1, Filament Winder:

1. The owner/operator of S-1 shall not exceed the following usage limits in any consecutive 12-month period:

*a. Acetone 600 Gallons b. Polyester Resin/Gelcoat 20,000 Gallons

(basis: Cumulative Increase)

- 2. The owner/operator may use solvents and materials other than the materials specified in Condition part 1, and/or usages in excess of those specified in part 1, provided that the owner/operator can demonstrate that the following are satisfied:
 - a. Total POC emissions from S-1 do not exceed 7,559 pounds in any consecutive twelve month period.
 - *b. Total NPOC emissions from S-1 do not exceed 3,960 pounds in any consecutive twelve month period.
 - c. The use of these materials does not increase toxics emissions above any risk screening trigger level, except for styrene, which shall not exceed the monomer content limit of Regulation 8-50-304.
 - d. No ozone-depleting compounds as listed in Appendix A and B to Subpart A of 40 CFR 82 shall be used at this source.

(basis: BACT; Cumulative Increase)

- 3. The owner/operator shall keep monthly records of the following in a District-approved log for at least five years and shall make such records available to the District upon request:
 - a. Maintain a list of resin, catalyst, and cleaning material used.
 - b. Maintain a list of the weight of VOC (in percent) in the polyester resin materials and the grams of VOC per liter for the cleaning materials.
 - c. Maintain records on a daily basis that provides the following information as applicable:
 - 1. the amount of each of the polyester resin materials and cleaning materials used
 - 2. the volume of resin and cleaning materials used for touch-up and repair. Such records shall be retained and available for inspection by the APCO for the previous five-year period. (basis: Cumulative Increase; Regulation 8-50-501)

VI. Permit Conditions

4. The owner/operator of S-1 and S-2 shall comply with the applicable requirements of Regulation 8, Rule 50. (basis: BACT; Regulation 8, Rule 50)

For S-2, Closed Mold Vacuum:

5. The owner/operator of S-2 shall not exceed the following usage limits in any consecutive 12-month period:

*a. Acetone 600 Gallons b. Polyester Resin/Gelcoat 30,000 Gallons

(basis: Cumulative Increase)

- 6. The owner/operator may use solvents and materials other than the materials specified in Part 5, and/or uses in excess of those specified in part 5, provided that the owner/operator can demonstrate that the following are satisfied:
 - a. Total POC emissions from S-2 do not exceed 3,453 pounds in any consecutive twelve-month period.
 - *b. Total NPOC emissions from S-2 do not exceed 3,960 pounds in any consecutive twelve-month period.
 - c. The use of these materials does not increase toxics emissions above any risk screening trigger level, except for styrene, which shall not exceed the monomer content limit of Regulation 8-50-304.
 - d. No ozone-depleting compounds as listed in Appendix A and B to Subpart A of 40 CFR 82 shall be used at this source.

(basis: BACT; Cumulative Increase)

- 7. The owner/operator shall keep monthly records of the following in a District-approved log for at least five years and shall make such records available to the District upon request:
 - a. Maintain a list of resin, catalyst, and cleaning material used.
 - b. Maintain a list of the weight of VOC (in percent) in the polyester resin materials and the grams of VOC per liter for the cleaning materials.
 - c. Maintain records on a daily basis that provides the following information as applicable:
 - 1. the amount of each of the polyester resin materials and cleaning materials used.
 - 2. the volume of resin and cleaning materials used for touch-up and repair. Such records shall be retained and available for inspection by the APCO for the previous 5-year period. (basis: Cumulative Increase; Regulation 8-50-501)
- 8. The owner/operator shall comply with the applicable requirements of Regulation 8-50. (basis: Regulation 8-50)

For S-3, Chopper Guns (2):

VI. Permit Conditions

9. The owner/operator of S-3 shall not exceed the following usage limits in any consecutive 12-month period:

*a. Acetone 600 Gallons b. Polyester Resin/Gelcoat 30,000 Gallons

(basis: Cumulative Increase)

- 10. The owner/operator may use solvents and materials other than the materials specified in part_9, and/or uses in excess of those specified in part9, provided that the owner/operator can demonstrate that the following are satisfied:
 - a. Total POC emissions from S-3 do not exceed 15,814 pounds in any consecutive twelve-month period.
 - *b. Total NPOC emissions from S-3 do not exceed 3,960 pounds in any consecutive twelve-month period.
 - c. The use of these materials does not increase toxics emissions above any risk screening trigger level, except for styrene, which shall not exceed the monomer content limit of Regulation 8-50-304.
 - d. No ozone-depleting compounds as listed in Appendix A and B to Subpart A of 40 CFR 82 shall be used at this source.

(basis: BACT; Cumulative Increase)

- 11. The owner/operator shall keep monthly records of the following in a District-approved log for at least five years and shall make such records available to the District upon request:
 - a. Maintain a list of resin, catalyst, and cleaning material used.
 - b. Maintain a list of the weight of VOC (in percent) in the polyester resin materials and the grams of VOC per liter for the cleaning materials.
 - c. Maintain records on a daily basis that provides the following information as applicable:
 - 1. the amount of each of the polyester resin materials and cleaning materials used.
 - 2. the volume of resin and cleaning materials used for touch-up and repair. Such records shall be retained and available for inspection by the APCO for the previous 5-year period. (basis: Cumulative Increase; Regulation 8-50-501)
- 12. The owner/operator of S-3 shall comply with the applicable requirements of Regulation 8-50. (basis: BACT; Regulation 8, Rule 50)
- 13. The owner/operator shall ensure that the spray area and all associated spray operations shall be contained within the building. (basis: Regulation 6-301, 6-305)
- 14. In no case shall the owner/operator operate more than one chopper gun operate at any time. (basis: Cumulative Increase)

VII. APPLICABLE LIMITS & COMPLIANCE MONITORING REQUIREMENTS

This section has been included to summarize the applicable emission limits contained in Section IV, Source-Specific Applicable Requirements, of this permit. The following tables show the relationship between each emission limit and the associated compliance monitoring provisions, if any. The monitoring frequency column indicates whether periodic (P) or continuous (C) monitoring is required. For periodic monitoring, the frequency of the monitoring has also been shown using the following codes: annual (A), quarterly (Q), monthly (M), weekly (W), daily (D), or on an event basis (E). No monitoring (N) has been required if the current applicable rule or regulation does not require monitoring, and the operation is unlikely to deviate from the applicable emission limit based upon the nature of the operation.

This section is only a summary of the limits and monitoring requirements. In the case of a conflict with any requirement in Sections I-VI, the preceding sections take precedence over Section VII.

Table VII-A
Applicable Limits and Compliance Monitoring Requirements
S-1 FILAMENT WINDER

| Type of | Citation of | FE | Future Effective | | Monitoring Requirement | Monitoring Frequency | Monitoring |

VIII. TEST METHODS

The test methods associated with the emission limit of a District regulation are generally referenced in Section 600 et seq. of the regulation. The following table indicates only the test methods associated with the emission limits referenced in Section VII, Applicable Emission Limits & Compliance Monitoring Requirements, of this permit.

Table VIII Test Methods

| Applicable | | |
|---------------------|-------------------------------|---|
| Requirement | Description of Requirement | Acceptable Test Methods |
| BAAQMD | Ringelmann No. 1 Limitation | Manual of Procedures, Volume I, Evaluation of Visible |
| 6-1-301 | | Emissions; |
| | | U.S. EPA Method 9 |
| SIP | Ringelmann No. 1 Limitation | Manual of Procedures, Volume I, Evaluation of Visible |
| 6-301 | | Emissions; |
| | | U.S. EPA Method 9 |
| BAAQMD | Particulate Weight Limitation | Manual of Procedures, Volume IV, ST-15, Particulates |
| 6-1-310 | | Sampling; |
| | | U.S. EPA Method 5 |

IX. PERMIT SHIELD

Not Applicable.

X. REVISION HISTORY

Initial Issuance (Application 15679): July 1, 1997

Renewal (Application 3954): December 19, 2002

Reopening and minor revision (No application for reopening, Application 8164 for minor revision)

Addition of requirements of NESHAPS,

40 CFR 63, Subpart A, General Provisions

Reinforced Plastic Composite Production

Addition of requirements of NESHAPS,

40 CFR 63, Subpart WWWW,

Reinforced Plastic Composite Production

Deletion of "case-by-case" MACT requirements in

40 CFR 63.52 et seq.

Update of Section I, Standard Conditions

Update of Section III, Generally Applicable Requirements

Addition of BAAQMD Regulation 6-311 to Section IV table

for Source 1, Filament Winder

Addition of revisions to BAAQMD Condition 9303 to allow use of alternative materials without an increase

in emissions

Renewal (Application 15561):

January 5, 2009

July 15, 2004

Administrative Amendments

Change Responsible Official from Michael E. Lewis to Frank Lillo

Change Facility Contact from Frank Lillo to Courtney van Amstel

Change District Contact from Carol Lee to Madhav Patil

Renewal (Application 25573):

Insert Issuance date

XI. GLOSSARY

ACT

Federal Clean Air Act

APCO

Air Pollution Control Officer

BAAOMD

Bay Area Air Quality Management District

BACT

Best Available Control Technology

Basis

The underlying authority which allows the District to impose requirements.

CAA

The federal Clean Air Act

CAAQS

California Ambient Air Quality Standards

CEOA

California Environmental Quality Act

CFR

The Code of Federal Regulations. 40 CFR contains the implementing regulations for federal environmental statutes such as the Clean Air Act. Parts 50-99 of 40 CFR contain the requirements for air pollution programs.

CO

Carbon Monoxide

Cumulative Increase

The sum of permitted emissions from each new or modified source since a specified date pursuant to BAAQMD Rule 2-1-403, Permit Conditions (as amended by the District Board on 7/17/91) and SIP Rule 2-1-403, Permit Conditions (as approved by EPA on 1/26/99). Used to determine whether threshold-based requirements are triggered.

District

The Bay Area Air Quality Management District

dscf

Dry Standard Cubic Feet

EPA

The federal Environmental Protection Agency.

IX. Glossary

Excluded

Not subject to any District regulations.

Federally Enforceable, FE

All limitations and conditions which are enforceable by the Administrator of the EPA including those requirements developed pursuant to 40 CFR Part 51, subpart I (NSR), Part 52.21 (PSD), Part 60 (NSPS), Part 61 (NESHAPS), Part 63 (MACT), and Part 72 (Permits Regulation, Acid Rain), including limitations and conditions contained in operating permits issued under an EPA-approved program that has been incorporated into the SIP.

FP

Filterable Particulate as measured by BAAQMD Method ST-15, Particulate.

HAP

Hazardous Air Pollutant. Any pollutant listed pursuant to Section 112(b) of the Act. Also refers to the program mandated by Title I, Section 112, of the Act and implemented by 40 CFR Part 63.

Major Facility

A facility with potential emissions of: (1) at least 100 tons per year of regulated air pollutants, (2) at least 10 tons per year of any single hazardous air pollutant, and/or (3) at least 25 tons per year of any combination of hazardous air pollutants, or such lesser quantity of hazardous air pollutants as determined by the EPA administrator.

MFR

Major Facility Review. The District's term for the federal operating permit program mandated by Title V of the Federal Clean Air Act and implemented by District Regulation 2, Rule 6.

MOP

The District's Manual of Procedures.

NAAQS

National Ambient Air Quality Standards

NESHAPS

National Emission Standards for Hazardous Air Pollutants. Contained in 40 CFR Parts 61 and 63

NMHC

Non-methane Hydrocarbons (Same as NMOC)

NMOC

Non-methane Organic Compounds (Same as NMHC)

NOx

Oxides of nitrogen.

IX. Glossary

NPOC

Non-precursor organic compounds

NSPS

Standards of Performance for New Stationary Sources. Federal standards for emissions from new stationary sources. Mandated by Title I, Section 111 of the Federal Clean Air Act, and implemented by 40 CFR Part 60 and District Regulation 10.

NSR

New Source Review. A federal program for pre-construction review and permitting of new and modified sources of pollutants. Mandated by Title I of the Federal Clean Air Act and implemented by 40 CFR Parts 51 and 52 and District Regulation 2, Rule 2. (Note: There are additional NSR requirements mandated by the California Clean Air Act.)

Offset Requirement

A New Source Review requirement to provide federally enforceable emission offsets for the emissions from a new or modified source. Applies to emissions of POC, NOx, PM10, and SO2.

Phase II Acid Rain Facility

A facility that generates electricity for sale through fossil-fuel combustion and is not exempted by 40 CFR 72 from Titles IV and V of the Clean Air Act.

POC

Precursor Organic Compounds

PM

Particulate Matter

PM10

Particulate matter with aerodynamic equivalent diameter of less than or equal to 10 microns

PSD

Prevention of Significant Deterioration. A federal program for permitting new and modified sources of those air pollutants for which the District is classified "attainment" of the National Air Ambient Quality Standards. Mandated by Title I of the Act and implemented by both 40 CFR Part 52 and District Regulation 2, Rule 2.

SIP

State Implementation Plan. State and District programs and regulations approved by EPA and developed in order to attain the National Air Ambient Quality Standards. Mandated by Title I of the Act.

SO₂

Sulfur dioxide

THC

Total Hydrocarbons (NMHC + Methane)

IX. Glossary

Title V

Title V of the federal Clean Air Act. Requires a federally enforceable operating permit program for major and certain other facilities.

TOC

Total Organic Compounds (NMOC + Methane, Same as THC)

TPH

Total Petroleum Hydrocarbons

TRMP

Toxic Risk Management Plan

TSP

Total Suspended Particulate

VOC

Volatile Organic Compounds

Units of Measure:
