

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Air Pollution Control Officer of the Bay Area Air Quality Management District has made a preliminary decision to issue a Synthetic Minor Operating Permit to Napa-Vallejo Waste Management Authority, located at the end of Eucalyptus Road, Napa, CA, as requested under application #18923. This facility is a closed Class III municipal waste disposal site.

The proposed permit will impose federally-enforceable permit conditions that limit the facility's potential to emit to 95 tons per year each of nitrogen oxides, volatile organic compounds, carbon monoxide, sulfur dioxide, and particulate matter (PM10) and 90,000 tons per year of greenhouse gases on a carbon dioxide equivalent basis. By limiting the facility's potential to emit, the proposed permit will ensure that the facility remains exempt from the requirements of the Federal Operating Permit Program as codified in Title V of the Federal Clean Air Act Amendments of 1990.

The Air Pollution Control Officer invites written public comment on the above application and intended action within 30 days from the date of this publication.

A summary of the application is available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA 94109, in the Engineering Division on the 3rd floor. Written comments should be mailed to Catherine S. Fortney at the BAAQMD, 939 Ellis Street, San Francisco CA 94109 or by e-mail to cfortney@baaqmd.gov.

Dated at San Francisco, the 7th day of November , 2011.

Jack P. Broadbent
Executive Officer/Air Pollution Control Officer
Bay Area Air Quality Management District
