Community Meetings in Target Areas: Input on Projects for Grant and Incentive Funding

CARE Task Force Meeting

March 4, 2008

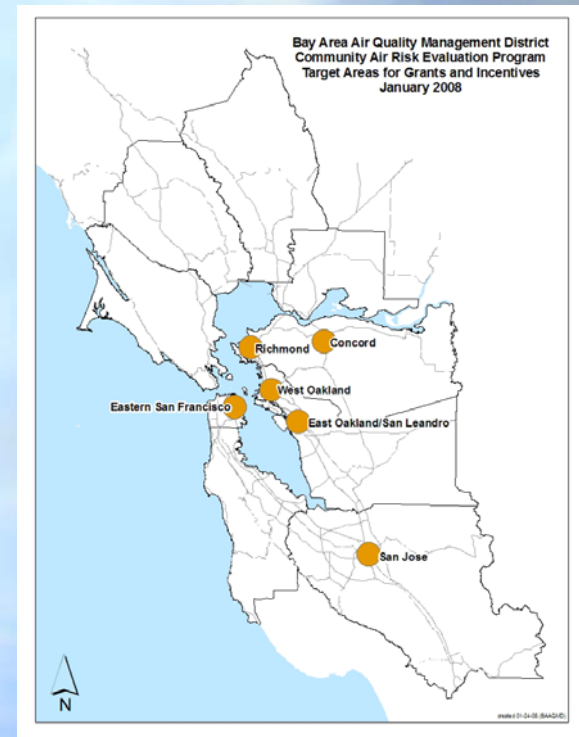

Richard Lew

Community Outreach Manager

Overview

Through the CARE program, six communities have been identified as having high emissions of diesel PM and sensitive populations.

- **Richmond**
- **Concord**
- **West Oakland**
- **East Oakland/San Leandro**
- **Eastern San Francisco**
- **San Jose**

Goals

- Meet with community members in target areas to seek input on projects to fund through the Air District's Grant and Incentive programs
- Provide community specific information on risks related to toxic air contaminants
- Provide community specific information on past projects and emission reductions

Draft Agenda for Community Meetings

- Introductions
- Overview of CARE Program
 - Including community specific information: pie charts of local risk-weighted emissions
- Funding Opportunities and Limitations
- Previously Funded Projects and Emission Reductions
- Community Ideas and Concerns
- Summary
