CARE Mitigation Action Plan Update

Phil Martien
Kristina Chu
CARE Task Force Meeting

September 17, 2008

CARE Mitigation Action Plan

- Focus on six impacted communities

- Grant funds

- Outreach efforts

- Land use guidance

- Liaison with local health departments

- Green Ports Initiative

Overview

- Interagency Collaboration
- Community Outreach Efforts
  - CARE Workshops
  - West Oakland Truck Survey
- Grant Funds
  - Carl Moyer Program
  - Transportation Fund for Clean Air (TFCA)
  - Mobile Source Incentive Fund (MSIF)
  - I-Bond
- Land Use Guidance

Interagency Collaboration

- San Leandro/Oakland Planning Managers Meeting

- Alameda County Health Department

- San Francisco Public Health Department

- Metropolitan Transportation Commission, Minority Advisory Committee Meeting

- City of San Jose/San Jose Airport

- Port of Oakland Maritime Air Quality Improvement Plan (MAQIP) Interagency Group

Community Outreach Efforts

- CARE workshop in each of six impacted communities (March, April 2008)
  - Overview of CARE program
  - Update on Grants Program funded projects and opportunities
  - Local community concerns

- Next round of Workshops (Sept., Oct. 2008)
  - Update on Mitigation Action Plan in addition to previous topics
  - Combined with workshops on the Clean Air Plan

Highlights of Concerns Raised

- Provide air quality information in "laymen's" terms
- Collaborate with local decision makers
  - Planning, pollution reduction projects, outreach
- Identify collaboration opportunities for grant funding
- Provide actual emission reductions for grant projects, by community, with regular updates
- Establish air quality baselines within communities so improvements can be measured
- Reduce exposures at schools

West Oakland Truck Survey

- Long-standing interest in West Oakland community for more information on trucks activity

- Worked with the West Oakland Environmental Indicators Project on study design & implementation

- Funded community participation: training & surveying

- Will work with WOEIP to report results back to community
