Lefty Gomez Recreation Center,
470 Parker Ave.

Benicia

Mon., March 5, 6-8 p.m.

Veterans Memorial Building,
1150 First St.

The Air District is holding four workshops in refinery communities to discuss air monitoring near these large industrial facilities.

During the rulemaking process for Regulation 12, Rule 15 (Petroleum Refining Emissions Tracking), the Air District Board directed the agency to work with communities near refineries to implement community monitoring.

Come learn about current and planned air monitoring at and near refineries, ask questions and provide input.

For questions and comments, please contact Katherine Hoag at khoag@baaqmd.gov.

Language interpretation can be provided upon request with 3 business days notice in advance of the event. Contact Azibuike Akaba at aakaba@baaqmd.gov or 415-749-8603 to request interpretation.

The Air District is the regional agency responsible for protecting air quality in the nine-county Bay Area.
